March 18, 2016

Dear Shareholder:

You are cordially invited to attend the 2016 annual meeting of the shareholders of The GEO Group, Inc. We will hold the meeting on Wednesday, April 27, 2016, at 9:00 A.M. (EDT) at The Boca Raton Resort & Club, 501 East Camino Real, Boca Raton, Florida 33432. We hope that you will be able to attend.

This year we are furnishing proxy materials to our shareholders primarily on the Internet rather than mailing paper copies of the materials to each shareholder. As a result, most of you will receive a Notice of Internet Availability of Proxy Materials instead of paper copies of this proxy statement and our annual report. The notice contains instructions on how to access the proxy statement and the annual report over the Internet, as well as instructions on how to request a paper copy of our proxy materials. We believe that this process will significantly lower the costs of printing and distributing our proxy materials. On or about March 18, 2016, we mailed to shareholders a Notice of Internet Availability of Proxy Materials.

Your vote is very important to us. Whether or not you plan to attend the meeting in person, your shares should be represented and voted. After reading the enclosed proxy statement, please vote your shares as soon as possible. Shareholders may vote via the Internet, by telephone, or by completing and returning a proxy card. Submitting a vote before the annual meeting will not preclude you from voting in person at the annual meeting should you decide to attend. If you wish to attend the meeting, please refer to page 65 for additional guidelines.

Sincerely,

A handwritten signature in black ink that reads "George Zoley". The signature is written in a cursive style with a large, stylized "G" and "Z".

Additional information regarding the proposals to be acted on at the annual meeting can be found in the accompanying proxy statement.

The Securities and Exchange Commission ("SEC") has adopted a "Notice and Access" rule that allows companies to deliver a Notice of Internet Availability of Proxy Materials ("Notice of Internet Availability") to shareholders in lieu of a paper copy of the proxy statement and related materials and the Company's Annual Report to Shareholders (the "Proxy Materials"). The Notice of Internet Availability provides instructions as to how shareholders can access the Proxy Materials online, contains a listing of matters to be considered at the meeting, and sets forth instructions as to how shares can be voted. **PROXY STATEMENT
THE GEO GROUP, INC.**

621 NW 53rd Street, Suite 700
Boca Raton, Florida 33487
Telephone: (561) 893-0101

March 18, 2016

The GEO Group, Inc. (“GEO,” the “Company,” “we” or “us”) is furnishing this proxy statement in connection with the solicitation of proxies by our board of directors (the “Board”) for use at the annual meeting of shareholders to be held at The Boca Raton Resort & Club, 501 East Camino Real, Boca Raton, Florida 33432, on April 27, 2016, at 9:00 A.M., Eastern Daylight Time. Please note that the proxy card provides a means to withhold authority to vote for any individual director nominee. Also note that the format of the proxy card provides an opportunity to specify your choice between approval, disapproval or abstention with respect to the proposals indicated on the proxy card. A proxy card which is properly executed, returned and not revoked will be voted in accordance with the instructions indicated. A proxy voted by telephone or the Internet and not revoked will be voted in accordance with the shareholder’s instructions. If no instructions are given, proxies that are signed and returned or voted by telephone or the Internet will be voted as follows:

“**FOR**” the election of the nominated directors for the ensuing year;

“**FOR**” the proposal to ratify the appointment of Grant Thornton LLP as the independent registered public accountants of GEO for the fiscal year 2016;

“**FOR**” the advisory approval of the resolution on named executive officer compensation;

“**FOR**” the proposal to approve the GEO Group, Inc. Senior Management Performance Award Plan, as Amended and Restated, which we refer to as the Performance Award Plan;

“**AGAINST**” the shareholder proposal regarding shareholder proxy access, if properly presented before the meeting; and

“**AGAINST**” the proposal regarding publishing an annual Independent Human Rights Report, if properly presented before the meeting.

Under New York Stock Exchange rules, brokerage firms have authority to vote shares on routine matters for which their customers do not provide voting instructions. The ratification of the appointment of Grant Thornton LLP as our independent registered public accountants for 2016 is considered a routine matter. As a result, if you hold your shares through a broker and do not direct the broker how to vote your shares on this routine matter, your broker may vote the shares on your behalf.

Under New York Stock Exchange rules, the election of directors, the advisory vote to approve named executive officer compensation, the proposal to approve the Performance Award Plan, and the shareholder proposals are not considered a routine matter. As a result, if a brokerage firm does not receive voting instructions from the beneficial owner of shares held by the firm, those shares will not be voted and will be considered broker non-votes with respect to those matters. A broker non-vote will have no effect on the election of directors, the advisory vote to approve named executive officer compensation, the proposal to approve the Performance Award Plan and the shareholder proposals.

This proxy statement, the notice of annual meeting, the proxy card and our 2015 annual report will be mailed or made accessible via the Internet on or about March 18, 2016.

Management is not aware of any other matters to be presented for action by shareholders at the annual meeting.

Table of Contents

Holders of GEO common stock at the close of business on March 4, 2016, the record date, will be entitled to one vote for each share of common stock outstanding in their name on the books of GEO at that date. On March 4, 2016, GEO had 74,641,453 shares of common stock outstanding.

The presence, in person or by proxy, of at least a majority of the total number of shares of common stock outstanding on the record date will constitute a quorum for purposes of the annual meeting. The election of directors requires a majority of the votes cast. The appointment of Grant Thornton LLP will be ratified if the number of votes cast in favor of ratification exceeds the number of votes cast against ratification. The advisory vote to approve named executive officer compensation will be approved if the number of votes cast in favor of approval exceeds the number of votes cast against approval. The proposal to approve the Performance Award Plan will be approved if the number of votes cast in favor of approval exceeds the number of votes cast against approval. The shareholder proposals will be approved if the number of votes cast in favor of approval exceeds the number cast against approval. Shares of common stock represented by proxies that reflect abstentions or “broker non-votes” (i.e., shares held by a broker or nominee which are represented at the annual meeting, but with respect to which such broker or nominee is not empowered to vote on a particular proposal) will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum for the proposal but will not be counted as “votes cast” with respect to the election of directors, the advisory vote to approve named executive officer compensation, the proposal to approve the Performance Award Plan, and the shareholder proposals. If less than the majority of the outstanding shares of common stock are represented at the annual meeting, a majority of the shares so represented may adjourn the annual meeting to another date and time.

The costs of preparation, assembly and mailing this proxy statement and the accompanying materials will be borne by GEO. GEO will also pay the cost of soliciting your proxy and reimbursing brokerage firms and others for forwarding proxy materials to you. THE BOARD OF DIRECTORS, ITS COMMITTEES AND OTHER CORPORATE GOVERNANCE INFORMATION

GEO's board of directors held nine meetings during fiscal year 2015. Each director attended at least 75% of the total number of meetings of the board of directors and of the meetings held by all board committees on which such director served.

Director Independence

Pursuant to the corporate governance standards applicable to companies listed on the New York Stock Exchange ("NYSE"), the board of directors must be comprised of a majority of directors who qualify as independent directors. In determining independence, each year the board of directors affirmatively determines whether directors have a "material relationship" with GEO. When assessing the "materiality" of a director's relationship with GEO, the board of directors considers all relevant facts and circumstances, not merely from the director's standpoint, but also from that of the persons or organizations with which the director has an affiliation. An independent director is free from any relationship with GEO that may impair the director's ability to make independent judgments. Particular attention is paid to whether the director is independent from management and, with respect to organizations affiliated with a director with which GEO does business, the frequency and regularity of the business conducted, and whether the business is carried out at arm's length on substantially the same terms to GEO as those prevailing at the time from unrelated third parties for comparable business transactions. Material relationships can include commercial, banking, industrial, consulting, legal, accounting, charitable and familial relationships.

Applying the NYSE's independence standards, the board of directors has determined that Clarence E. Anthony, Anne N. Foreman, Richard H. Glanton, Christopher C. Wheeler and Julie Myers Wood qualify as independent under the NYSE's corporate governance standards, and that the board of directors is therefore comprised of a majority of independent directors. The board of directors' determination that each of these directors is independent was based on the fact that none of the directors had a material relationship with GEO outside of such person's position as a director, including a relationship that would disqualify such director from being considered independent under the NYSE's listing standards.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee met six times during fiscal year 2015.

All of the members of the Nominating and Corporate Governance Committee are independent (as independence is defined under Section 303A.02 of the NYSE's listing standards).

The Nominating and Corporate Governance Committee has a written charter adopted by the board of directors. It can be found on our website at <http://www.geogroup.com> by clicking on the link "About Us" on our homepage and then clicking on the link "Corporate Governance." In addition, the charter is available in print to any shareholder who requests it by contacting our Vice President of Corporate Relations at 561-999-7306.

- identify candidates qualified to become members of the board of directors and select or recommend that the full board of directors select such candidates for nomination and/or appointment to the board of directors;
- review candidates for the board of directors recommended by shareholders;
- assist the Board in determining and monitoring whether or not each director and prospective director is an "independent director" within the meaning of any rules and laws applicable to GEO;
- after consultation with the Chairman and CEO, recommend to the board of directors for approval all assignments of committee members, including designations of the chairs of the committees;
- establish the evaluation criteria for the annual self-evaluation by the board of directors, including the criteria for determining whether the board of directors and its committees are functioning effectively, and implement the process for annual evaluations;
- develop, adopt, review annually and, if appropriate, update, corporate governance guidelines for GEO and evaluate compliance with such guidelines;
- periodically review our Code of Conduct for directors, officers and employees, and approve amendments to the Code of Conduct to the extent deemed appropriate by the committee;
- advise the board of directors with regard to our policies and procedures for the review, approval or ratification of any transaction presenting a potential conflict of interest between us and any member of our board of directors or any executive officers;
- consider other corporate governance issues that arise from time to time, and advise the board of directors with respect to such issues; and
- address or take action with respect to any other matter specifically delegated to it from time to time by the board of directors.

In fulfilling the committee's duties to identify and recommend candidates for election to our board of directors, the Nominating and Corporate Governance Committee considers the mix of skills, experience, character, commitment, and diversity — diversity being broadly construed to mean a variety of opinions, perspectives and backgrounds, such as gender, race and ethnicity differences, as well as other differentiating characteristics, all in the context of the requirements of our board of directors at the time of election.

Executive Committee

Periodically during fiscal year 2015 members of the Executive Committee informally discussed various matters relating to GEO's business. The Executive Committee has full authority to exercise all the powers of the board of directors between meetings of the board of directors, except as reserved by the board of directors. During 2015, the Executive Committee acted three times through resolutions adopted at duly convened meetings or by unanimous written consent. All actions taken by the Executive Committee in 2015 were ratified by the board of directors at their next quarterly meeting.

Corporate Planning Committee

The Corporate Planning Committee periodically reviews with management various corporate strategic initiatives, including potential merger and acquisition activities, business expansion issues and corporate finance matters.

Operations and Oversight Committee

The Operations and Oversight Committee reviews with management various issues relating to our operations that may arise from time to time.

Legal Steering Committee

The Legal Steering Committee reviews with management strategic issues with respect to material litigation and other discrete legal issues.

Independent Committee

The Independent Committee considers matters that may arise from time to time that the board of directors designates for independent director review.

Director Identification and Selection

The processes for director selection and director qualifications are set forth in Section 3 of our Corporate Governance Guidelines. The board of directors, acting on the recommendation of the Nominating and Corporate Governance Committee, will nominate a slate of director candidates for election at each annual meeting of shareholders and will elect directors to fill vacancies, including vacancies created as a result of any increase in the size of the board, between annual meetings. Nominees for director are selected on the basis of outstanding achievement in their personal careers, broad experience, wisdom, integrity, ability to make independent, analytical inquiries, understanding of the business environment, and willingness to devote adequate time to the duties of the board of directors. The board believes that each director should have a basic understanding of (i) the principal operational and financial objectives and plans and strategies of GEO, (ii) the results of operations and financial condition of GEO and of any significant subsidiaries or business segments, and (iii) the relative standing of GEO and its business segments in relation to its competitors. The board is committed to diversified membership and it does not and will not discriminate on the basis of race, color, national origin, gender, religion or disability in selecting nominees. The Nominating and Corporate Governance Committee may, to the extent it deems appropriate, engage a third party professional search firm to identify and review new director candidates and their credentials.

The Nominating and Corporate Governance Committee will consider proposed nominees whose names are submitted to it by shareholders; however, it does not have a formal process for that consideration. There are no differences between the considerations and qualifications for director nominees that are recommended by shareholders and director nominees recommended by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee has not adopted a formal process because it believes that the informal consideration process has been adequate to date. The Nominating and Corporate Governance Committee intends to review periodically whether a more formal policy should be adopted. If a shareholder

[Table of Contents](#)

wishes to suggest a proposed name of a nominee for consideration by the Nominating and Corporate Governance Committee, the name of that nominee and related personal information should be forwarded to the Nominating and Corporate Governance Committee, in care of the Corporate Secretary, at least six months before the next annual meeting to assure time for meaningful consideration by the committee.

Board Leadership Structure

Our CEO also serves as the Chairman of the board of directors. Richard H. Glanton has served as Lead Independent Director of the Company since January 1, 2011.

Mr. Glanton has been a director of GEO since 1998 and is currently the Chairman of the Audit and Finance Committee, the Compensation Committee and the Independent Committee and a member of the Executive Committee, the Nominating and Corporate Governance Committee, the Operations and Oversight Committee and the Legal Steering Committee. As the Lead Independent Director, Mr. Glanton has input to the Chairman of the board on preparation of agendas for board and committee meetings. Mr. Glanton chairs board meetings when the Chairman of the board is not in attendance and provides input to the independent directors and ensures that the effectiveness of the board is assessed on a regular basis. The Lead Independent Director reports to the board regarding deliberations of the independent directors and may recommend special meetings of the independent directors as necessary. Because of Mr. Glanton's long history as a board member and his service as the Chairman of the Audit and Finance Committee, the Compensation Committee and the Independent Committee, the board believes that Mr. Glanton is uniquely qualified to serve as the Lead Independent Director of the Company. In 2012, in connection with our conversion to a REIT, Mr. Glanton was the chairman of a special committee created to review and manage the divestiture of GEO Care, Inc.

As a company that is focused on its core business, we believe the CEO is in the best position to direct the independent directors' attention on the issues of greatest importance to the Company and its shareholders. Since our CEO knows the Company's business, is a pioneer in the industry and has over thirty years of experience, we believe that our CEO is the appropriate person to lead the board of directors. Our overall corporate governance policies and practices combined with the strength of our independent directors, including our Lead Independent Director, and our internal controls minimize any potential conflicts that may result from combining the roles of Chairman and CEO.

We believe the current leadership structure of the board of directors supports the risk oversight functions described below by providing independent leadership at the board and committee level through the Lead Independent Director with ultimate oversight by the full board of directors led by our Chairman and CEO. The board of directors periodically reviews and considers whether the current board leadership structure continues to be appropriate for our Company.

Board Risk Oversight

Our board of directors has overall responsibility for risk oversight with a focus on the most significant risks facing the Company. Throughout the year, the board of directors and the committees to which it has delegated responsibility dedicate a portion of their meetings to review and discuss specific risk topics in greater detail. The board of directors has delegated responsibility for the oversight of specific risks to the following committees:

- The Audit and Finance Committee oversees GEO's risk policies and processes relating to the financial statements, financial reporting processes and credit risks.
- The Operations and Oversight Committee oversees GEO's operating risks. The Operations and Oversight Committee meets regularly during the year and on occasions when an operations incident occurs. The Operations and Oversight Committee may travel to the appropriate site to audit the operating practices and procedures if an incident has occurred.

Table of Contents

- The Compensation Committee oversees risks related to the Company's compensation policies and practices.
- The Legal Steering Committee oversees risks related to major litigation.

Code of Business Conduct and Ethics

The board of directors has adopted a code of business conduct and ethics applicable to GEO's directors, officers, employees, agents and representatives, including its consultants, which we refer to as the Code of Ethics. The Code of Ethics strives to deter wrongdoing and promote honest and ethical conduct, the avoidance of conflicts of interest, full, fair, accurate, timely and transparent disclosure, compliance with the applicable government and self-regulatory organization laws, rules and regulations, prompt internal reporting of violations of the Code of Ethics, and accountability for compliance with the Code of Ethics. The Code of Ethics can be found on our website at <http://www.geogroup.com> by clicking on the link "About Us" on our homepage and then clicking on the link "Corporate Governance." In addition, the Code of Ethics is available in print to any shareholder who requests it by contacting our Vice President of Corporate Relations at 561-999-7306.

Code of Ethics for CEO, Senior Financial Officers and Other Employees

Pursuant to Section 406 of the Sarbanes-Oxley Act of 2002, the board of directors has also adopted a code of ethics for the CEO, its senior financial officers and all other employees, which we refer to as the Code of Ethics for Senior Financial Officers. The text of this Code of Ethics for Senior Financial Officers is located in Section 18 of GEO's Code of Ethics. The Code of Ethics for Senior Financial Officers can be found on our website at <http://www.geogroup.com> by clicking on the link "About Us" on our homepage and then clicking on the link "Corporate Governance." In addition, the Code of Ethics for Senior Financial Officers is available in print to any shareholder who requests it by contacting our Vice President of Corporate Relations at 561-999-7306.

Corporate Governance Guidelines

The board of directors has adopted corporate governance guidelines to promote the effective functioning of the board of directors and its committees, and the continued implementation of good corporate governance practices. The corporate governance guidelines address matters such as the role and structure of the board of directors, the selection, qualifications and continuing education of members of the board of directors, board meetings, non-employee director executive sessions, board self-evaluation, board committees, CEO performance review, succession planning, non-employee director compensation, certain shareholder matters and certain shareholder rights.

The corporate governance guidelines can be found on our website at <http://www.geogroup.com> by clicking on the link "About Us" on our homepage and then clicking on the link "Corporate Governance." In addition, the corporate governance guidelines are available in print to any shareholder who requests them by contacting our Vice President of Corporate Relations at 561-999-7306.

Annual Board and Committee Self-Assessments and Non-Employee Director Executive Sessions

The board of directors conducts a self-assessment annually, which is reported by the Nominating and Corporate Governance Committee to the board of directors. In addition, the Audit and Finance Committee, the Compensation Committee and the Nominating and Corporate Governance Committee also undergo annual self-assessments of their performance. The non-employee directors of the board of directors meet in executive session at least twice per year and such meetings are presided over by a presiding director who is typically the chairman of the Nominating and Corporate Governance Committee, who is currently Ms. Foreman.

Communications with Directors

The board of directors has adopted a process to facilitate written communications by shareholders or other interested parties to the entire board, the independent members of the board as a group or any individual member of the board, including the presiding director for non-employee director executive sessions. Persons wishing to write to the board of directors of GEO, or to a specified director (including the presiding director for non-employee director executive sessions) or a committee of the board, should send correspondence to the Corporate Secretary at 621 NW 53rd Street, Suite 700, Boca Raton, Florida, 33487.

The Corporate Secretary will forward to the directors all communications that, in his or her judgment, are appropriate for consideration by the directors. Examples of communications that would not be appropriate for consideration by the directors include commercial solicitations and matters not relevant to the shareholders, to the functioning of the board, or to the affairs of GEO.

Board Member Attendance at Annual Meetings

GEO encourages all of its directors to attend the annual meeting of shareholders. We generally hold a board meeting coincident with our annual meeting to minimize director travel obligations and facilitate their attendance at the annual meeting of shareholders. All of our directors attended the 2015 annual meeting of shareholders.

Adoption of Global Human Rights Policy and Ongoing Dialogue

In November 2012, GEO entered into a dialogue with the U.S. Jesuit Conference which included representatives from the National Jesuit Committee on Investment Responsibility and the Interfaith Center for Corporate Responsibility and Mercy Investments. The purpose of the dialogue was the adoption of a corporate Human Rights policy. On February 14, 2013, GEO's Board of Directors adopted a Global Human Rights Policy. Representatives of the Jesuit Conference and Mercy Investments have toured GEO facilities and are continuing the collaboration with GEO towards full implementation of the policy.

Additional information on GEO's Global Human Rights Policy can be found at http://geogroup.com/human_rights.

The Audit and Finance Committee of the board of directors has implemented procedures to ensure that all audit and permitted non-audit services provided to GEO are pre-approved by the Audit and Finance Committee. All of the audit, audit-related, tax and all other services provided by Grant Thornton to GEO in 2015 and 2014 were approved by the Audit and Finance Committee pursuant to these procedures. All non-audit services provided in 2015 and 2014 were reviewed with the Audit and Finance Committee, which concluded that the provision of such services by Grant Thornton was compatible with the maintenance of that firm’s independence in the conduct of its auditing functions.

Audit and Finance Committee Pre-Approvals of Audit, Audit-Related, Tax and Permissible Non-Audit Services

The Audit and Finance Committee periodically approves the provision of various audit, audit-related, tax and other services by Grant Thornton. The Audit and Finance Committee plans to continue to review and pre-approve such services as appropriate. In addition, the Audit and Finance Committee has delegated to its Chairman, Richard H. Glanton, the authority to grant, on behalf of the Audit and Finance Committee, the pre-approvals required under the Sarbanes-Oxley Act for the provision by Grant Thornton to GEO of auditing and permissible non-audit services; provided, however, that any decision made by Mr. Glanton with respect to any such pre-approvals must be presented at the next regularly scheduled full Audit and Finance Committee meeting that is held after such decision is made.

All of the services provided by Grant Thornton to GEO in 2015 and 2014 were approved by the Audit and Finance Committee pursuant to these procedures. The Audit and Finance Committee will continue to review and pre-approve such services as appropriate.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION & ANALYSIS

Role of the Compensation Committee

The Compensation Committee of our board of directors establishes and regularly reviews our compensation philosophy and programs, exercises authority with respect to the determination and payment of base and incentive compensation to executive officers and administers our 2006 stock incentive plan, the 2011 employee stock purchase plan and our 2014 stock incentive plan. Our Compensation Committee consists of three members, each of whom is independent as that term is defined in the Sarbanes-Oxley Act of 2002 and the rules and regulations that have been promulgated under that Act, and in the listing standards of the New York Stock Exchange. The Compensation Committee operates under a written charter that was first adopted by our board of directors in February 2004 and has been amended periodically. The charter more fully describes the role, responsibilities and functioning of the Compensation Committee. A current copy of this charter can be viewed on our website at www.geogroup.com by clicking the link “About Us” on our homepage and then clicking the link “Corporate Governance”.

Say-on-Pay Results

At our 2015 Annual Meeting of Shareholders, over 99% of the votes cast voted to approve the advisory resolution on our executive compensation referred to as the “say-on-pay” vote. The Compensation Committee believes that the positive outcome of the say-on-pay vote supports the compensation arrangements established by the Compensation Committee. The Compensation Committee considered the results of the shareholder vote on the 2015 “say-on-pay” proposal as one of the many factors relevant in connection with the discharge of its responsibilities along with the advice of its independent compensation consultant and shareholder feedback. During 2015, the Compensation Committee continued the compensation program in place during 2014 with the changes noted below under the section titled, “Why Each Element of Compensation is Paid and How the Amount of Each Element is Determined”.

Independence of Compensation Consultant

The Compensation Committee assessed the independence of Pay Governance LLC, (“Pay Governance”), a nationally recognized executive compensation consultant, taking into account the following factors:

- Other services provided by Pay Governance;
- The amount of fees paid by GEO to the consultant as a percentage of its total revenues;
- Any business or personal relationships between the consultant (including its representatives) and GEO’s directors or senior officers; and
- The policies and procedures the consultant has in place to prevent conflicts of interest, which includes a prohibition against stock ownership in GEO.

Pay Governance has attested to its independence and does not provide any services to GEO other than those related to executive compensation consulting. Based on its assessment, the Compensation Committee agreed that the compensation consultant is independent and that the compensation consultant’s work has not raised any conflict of interest.

Overview of Compensation Structure

Our compensation structure for named executive officers has historically consisted of four basic components — an annual base salary, an annual cash incentive bonus, an annual equity compensation grant and certain other benefits and perquisites, as more fully described below.

Table of Contents

When making decisions regarding the compensation of named executive officers, including the Chief Executive Officer, the Compensation Committee considers the data and analyses prepared by Pay Governance, historical pay to the named executive officers and the appropriateness of such compensation, including by comparing it to a peer group of companies periodically. During 2012, the Compensation Committee used peer group data to obtain a general understanding of compensation practices and therefore ensure that it is acting in an informed and responsible manner to make sure our executive compensation program is competitive. The Compensation Committee viewed peer group data as one factor in assisting its compensation decisions, but did not engage in benchmarking or rely wholly or in part on this information. In 2015, the Compensation Committee did not believe it was necessary or appropriate to perform or have Pay Governance conduct a peer group analysis to evaluate our compensation programs and practices as a whole, but the Compensation Committee did request Pay Governance to conduct an assessment of Mr. Zoley's compensation and this assessment included a peer group analysis as discussed below. The Compensation Committee also considers the compensation recommendations set forth by the Chief Executive Officer for named executive officers other than himself. Under the Compensation Committee's charter, the Chief Executive Officer cannot provide the Compensation Committee with a compensation recommendation for himself. When considering compensation matters generally, and the compensation packages of the named executive officers in particular, the Compensation Committee meets in executive session outside the presence of the named executive officers. The Compensation Committee uses its experience and judgment to make final compensation decisions.

During 2015, the Compensation Committee engaged Pay Governance to perform the following services: (i) review the proxy statement for the 2015 annual shareholders meeting; (ii) conduct an assessment of Mr. Zoley's compensation and advise the Compensation Committee with respect to modifications to Mr. Zoley's employment agreement; and (iii) calculate the Total Shareholder Return ("TSR") payout calculations for the TSR component of the Company's 2013-2015 performance share awards and the Company's percentile rank calculation compared to the peer group companies that make up the FTSE NAREIT Equity REITS Index. The Compensation Committee retained Pay Governance directly, supervised all work assignments performed by them, and reviewed and approved all work invoices received from them for payment. Pay Governance met directly with the Compensation Committee and reported directly to the Chairman of the Compensation Committee. In conducting its review, Pay Governance was at times required to work with our management in order to obtain compensation information and data to perform its tasks. Other than as described above, Pay Governance was not asked to perform any other services for us. GEO paid Pay Governance a total of \$80,821 related to its work for the Compensation Committee in 2015.

Under its charter, the Compensation Committee has the ability to retain any advisors it deems necessary or desirable in order for it to discharge its duties. The Compensation Committee also has sole authority to terminate the retention of any advisor it has retained.

Important Factors Given Particular Consideration by the Compensation Committee in Setting Compensation for the Named Executive Officers

In setting executive compensation for our named executive officers, the Compensation Committee gives particular attention and focus to the following factors over a several year-period:

- Our financial performance;
- Our stock price performance;
- Achievement of strategic operating objectives;
- Our growth and prospects for continued future growth in both revenues and profitability; and
- The performance of our senior management team.

Table of Contents

Applying these factors to our Company during the previous several years in setting CEO and other named executive officer compensation, the Compensation Committee considered the following:

- During the past several years, we have experienced strong growth in revenue and profitability and believe we have become the most diversified service provider in our peer group, which will continue to yield growth opportunities in excess of typical industry levels;
- During the past several years, we have successfully completed and integrated several significant strategic acquisitions, including, most recently, the acquisition of eight correctional and detention facilities from LCS Correctional Services, Inc. and its affiliates, the acquisition by our subsidiary, Protocol Criminal Justice, Inc., of assets relating to customer relationship management software from APAC Customer Services, Inc., our acquisition of Soberlink, Inc., a leading developer and distributor of mobile alcohol monitoring devices and services, our acquisition and integration of BI Incorporated in 2011, which allowed us to introduce important new electronic monitoring and community service offerings to our customers, and the acquisition and integration of Cornell Companies in 2010-2011, which materially expanded the scope of our U.S. Corrections Services and what we now refer to as our GEO Care Segment;
- During 2015, GEO's total revenues increased approximately nine percent to \$1.89 billion, Adjusted EBITDA increased approximately six percent to \$368.7 million, and Adjusted Funds From Operations ("AFFO") increased approximately seven percent to \$248.4 million. During 2015, GEO experienced significant start-up activity which resulted in \$4.8 million, net of tax, in start-up expenses along with \$2.2 million, net of tax, in merger and acquisition related expenses. Since 2012, GEO has grown AFFO at a compounded annual growth rate of 18 percent;
- We believe we have the most seasoned and accomplished senior management team in our industry, led by our Chairman, CEO and Founder, who is an industry pioneer and has a long and established track record of leading our company to substantial growth in revenue and profitability since the inception of our business;
- We believe the efforts undertaken by our senior management team over the past several years to expand our company's business, both in our core corrections business and into new diversified services, have positioned us to have what we believe are stronger prospects for stable and strong revenue and profit growth than any peer company in our industry;
- Our senior management team has consistently demonstrated the ability over a long period of time to manage through and capably address and mitigate the key risks that face our business on an ongoing basis as demonstrated by the activation of six facilities during 2015, with total annual revenues of \$192 million. This includes the takeover of the 3,400 bed Kingman, Arizona facility for the State of Arizona. The company was also awarded significant contract extensions at the Broward Transitional Center and the Northwest Detention Center;
- Our senior management team has consistently made delivering shareholder value a priority. We have had solid long-term stock price performance. The following graph compares the total shareholder return of our common stock compared to the total shareholder return of the NAREIT U.S. Equity REITs index over the five-year period ended December 31, 2015. (GEO TSR 76% vs NAREIT 76%); and

Total Shareholder Return for Five-Year Period Ended December 31, 2015

- The successful conversion by GEO into a real estate investment trust, or a REIT, effective January 1, 2013, a transaction which we believe has significantly increased shareholder value, including through the payment of regular quarterly dividends to our shareholders. We commenced paying regular quarterly dividends in 2013. For 2013, 2014 and 2015, we paid an aggregate of \$2.05, \$2.33 and \$2.51 per share for the year, respectively, in quarterly dividends.

The factors above are among the most critical we consider in setting our named executive officer compensation.

Compensation Program Objectives and What the Program is Designed to Reward

Our executive compensation program is designed to attract and retain our officers and to motivate them to increase shareholder value on both an annual and a longer term basis primarily by generating increasing levels of revenue and net income. To that end, compensation packages include significant forms of incentive compensation to ensure that an executive officer's interest is aligned with the interests of our shareholders in generating revenue and net income. Based upon the Compensation Committee's regular review of the Company's compensation policies and practices, the Compensation Committee determined that the risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the Company.

Elements of Compensation

Our compensation program for named executive officers consists of the following components:

- Annual base salaries
- Annual cash incentive compensation
- Equity compensation
- Other benefits and perquisites

Each of these components is reflected in the Summary Compensation Table set forth below and is also discussed in further detail below.

Why Each Element of Compensation is Paid and How the Amount of Each Element is Determined

The following is a brief discussion of each element of our named executive officer compensation. The Compensation Committee pays each of these elements in order to ensure that a desirable overall mix is

established between base compensation and incentive compensation, cash and non-cash compensation and annual and long-term compensation. The committee also evaluates on a periodic basis the overall competitiveness of our executive compensation packages as compared to packages offered in the marketplace for which we compete for executive talent. Overall, our Compensation Committee believes that our executive compensation packages are currently appropriately balanced and structured to retain and motivate our named executive officers, who we believe constitute the most experienced senior management team in our industry. The Compensation Committee evaluates GEO's executive compensation policies and practices on an ongoing basis.

Salaries. The cash salaries paid to the named executive officers are incorporated into the terms of existing executive employment agreements with our named executive officers. Any increases in salaries have been made either pursuant to the terms of the employment agreements or at the discretion of the Compensation Committee. Mr. Zoley, who also serves as our Chairman, receives no additional compensation for his board service, so his annual base salary reflects the workload, responsibilities and contributions made by Mr. Zoley as our Chief Executive Officer and our Chairman.

For 2015, our Compensation Committee determined it was appropriate to increase the annual base salaries of our named executive officers other than Mr. Zoley by 3% as compared to their 2014 annual base salaries.

For 2015, the Compensation Committee engaged Pay Governance to conduct an assessment of Mr. Zoley's total compensation. In doing so, the Committee reviewed various approaches to benchmarking pay for the Chief Executive Officer in light of the limited number of direct competitors with the size and scale of GEO Group. After discussing various alternatives, the Committee determined that using a group of similarly-sized REITs was the most appropriate approach for the following reasons:

- Reflects a primary labor market from which we recruit executive-level talent
- Although limited in number, our direct business competitors are REITs
- It is consistent with our competitive market for equity capital and aligns with the industry classification that the investment community broadly evaluates our performance
- Aligned with the approach that institutional investors and proxy advisors have historically used in evaluating GEO's pay and performance relationship

Following the Compensation Committee's direction, Pay Governance used the following peer group for benchmarking the CEO's compensation:

American Tower Corporation	Extra Space Storage Inc.
Avalonbay Communities Inc.	Iron Mountain Inc.
Boston Properties Inc.	Kimco Realty Corporation
Camden Property Trust	La Salle Hotel Properties
CBL & Associates Properties Inc.	Plum Creek Timber Co. Inc.
Corrections Corporation of America	Public Storage
Crown Castle International Corp.	Rayonier Inc.
DDR Corp.	St. Green Realty Corp.
Digital Realty Trust Inc.	Strategic Hotels & Resorts, Inc.
Equity Residential	

GEO Group was at the 68th percentile based on revenues against this peer group as of March 30, 2014 when the Committee approved the benchmarking approach.

As a result of this assessment and Pay Governance's recommendation, the Compensation Committee determined to decrease Mr. Zoley's base salary from \$1,215,000 to \$1,000,000 in order to better align Mr. Zoley's salary with the market and the ISS peer group, to reallocate his total compensation so that a greater percentage of his

total compensation is performance based and preserve the full deductibility under 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). This decrease in Mr. Zoley's base salary is reflected in the most recent amendment to Mr. Zoley's employment agreement entered into in May of 2015.

Annual Cash Incentive Compensation. Annual cash incentive compensation for each of our named executive officers is governed by our Senior Management Performance Award Plan, which was approved by our shareholders at the Company's 2015 annual meeting of shareholders in accordance with the performance-based compensation exception under Section 162(m) of the Code that such a plan be approved by shareholders at least once every five years and which our shareholders are being asked this year to approve an Amended and Restated Senior Management Performance Award Plan due to an amendment to the annual incentive target amounts as discussed below. Payments to the Chief Executive Officer made in accordance with this plan are intended to be tax deductible under Section 162(m) of the Code. The plan is administered by our Compensation Committee, which has the authority to make all discretionary determinations necessary or appropriate under the plan. The plan is governed by the Compensation Committee and is administered on a day to day basis by the Chief Executive Officer and the Vice President of Human Resources.

Under the plan, each of our named executive officers is eligible to receive annual cash incentive compensation based on our relative achievement of budgeted revenue and net income after tax for the fiscal year. We believe revenue and net income after tax are meaningful metrics to assess our performance and are used by our management team when it develops its annual operating plan and budget and are used by our investors in evaluating our performance against the annual financial guidance we give on revenue and net income. For purposes of the plan, net income after tax means our net income after all federal, state and local taxes. Extraordinary items and changes in accounting principles, as defined by U.S. generally accepted accounting principles, may be disregarded in determining our net income after tax. Non-recurring and unusual items not included or planned for in our annual budget may also be excluded from net income after tax in the sole and absolute discretion of the Compensation Committee. In determining the amount of annual incentive cash compensation awarded, our net income after tax is weighted 65% and our revenue is weighted 35% (collectively, the "Target Weighting of Revenue and Net-Income-After-Tax").

Awards under the plan are made as follows: (i) targets for budgeted revenue and net income after tax are set at the beginning of each fiscal year; (ii) the plan includes for each named executive officer an annual incentive target amount as a percentage of the officer's salary which forms the basis for computing the officer's award under the plan; and (iii) at the end of the fiscal year, a multiplier set forth in the plan that is based on our relative achievement of budgeted revenue and net income after tax for the fiscal year is applied to each officer's annual incentive target amount referenced in (ii) above. The multiplier is the same for all named executive officers.

For 2015, the Compensation Committee engaged Pay Governance to conduct an assessment of Mr. Zoley's total compensation, including his annual cash incentive compensation. As a result of this assessment and Pay Governance's recommendation, the Compensation Committee determined to increase Mr. Zoley's annual incentive target amount from 100% of his base salary to 150% of his base salary in order to better align Mr. Zoley's annual cash incentive compensation with the market and the ISS peer group and in order to reallocate his total compensation so that a greater percentage of his total compensation is tied to the performance of the Company. We believe this approach is consistent with the approach taken by our peers in the equity REIT sector and our industry, and is reflective of the performance-based compensation program that our shareholders support. This increase in Mr. Zoley's annual incentive target is reflected in the most recent amendment to Mr. Zoley's employment agreement entered into in May of 2015.

The resulting combination of the decrease in the base salary and increase in target annual incentive results in an increase in target total cash compensation (base salary + target annual incentive) of +3% while increasing the performance-based portion from 50% to 60% of target total cash.

Table of Contents

The following table shows, for each named executive officer, the annual incentive target amount as a percentage of salary that the respective officer is eligible to receive under the Amended and Restated Senior Management Performance Award Plan.

<u>Named Executive Officer</u>	<u>Annual Incentive Target Amount (As a Percentage of Salary):</u>
Chief Executive Officer	150%
Chief Financial Officer	50%
Senior Vice Presidents	45%

The following table shows how each named executive officer's annual incentive cash compensation award is calculated by applying a percentage adjustment methodology, or multiplier, separately to the respective Target Weighting of Revenue and Net-Income-After-Tax results on a straight-line basis:

<u>Component</u>	<u>Performance and Payout Relationship (as % of Target)</u>	<u>Threshold</u>	<u>Target</u>	<u>Maximum</u>
Performance		80%	100%	120%
Payout		50%	100%	150%

In addition to the calculations described above, if the budgeted goals for revenue and net income after tax are exceeded, the annual incentive amounts for the Chief Financial Officer and the other Senior Vice Presidents may be adjusted up to an additional 50% upon the recommendation of the Chief Executive Officer subject to the approval of the Compensation Committee based on the results of an individual performance assessment. The Chief Executive Officer is not eligible for positive individual performance adjustments. The Compensation Committee and the Chief Executive Officer consider the contribution of the particular officer during the fiscal year when determining whether to grant the discretionary award.

Under the terms of the plan, no amendment to the plan may alter the performance goals, increase the maximum amount which can be awarded to any participant, change the class of eligible employees or make any other change that would require shareholder approval under the exemption for performance-based compensation under Section 162(m) of the Code, in each case, without the prior approval of our shareholders (to the extent required under the performance-based compensation exception of Section 162(m) of the Code).

2015 Cash Incentive Outcomes

In 2015, the Company achieved Net Income after Tax and Revenue performance levels just short of 100% of the Adjusted Net Income after Tax and Revenue targets. The table below provides the 2015 cash incentive outcomes based on the Adjusted Net Income after Tax and Revenue performance levels actually achieved.

<u>Metrics (\$Millions)</u>	<u>FY 2015 Performance Results</u>			<u>Actual as a % of Target</u>	<u>Payout as a % of Target</u>
	<u>Weighting</u>	<u>Target</u>	<u>Actual</u>		
Adjusted Net Income after Tax(1)	65%	\$149.50	\$146.30	97.8%	95%
Revenue	35%	\$ 1,852	\$ 1,843	99.5%	99%
				Weighted Payout as % of Target	96%

(1) Adjusted Net Income after Tax reflects adjustments for M&A and start-up related expenses and one-time exit charges related to non-core operating leases.

Based on these results, the following annual incentive amounts were awarded to the Named Executive Officers for fiscal year 2015 performance:

Executive	FY '15 Target Incentive	Corporate Financial Performance Factor	Target x Financial Performance Factor	Individual Performance Modifier(2)	Actual Incentive Earned	Actual as a % of Target
George C. Zoley	\$1,500,000	96%	\$1,440,000	N/A	\$1,440,000	96%
Brian R. Evans	\$ 273,182	96%	\$ 262,255	N/A	\$ 262,255	96%
John M. Hurley(1)	\$ 245,864	96%	\$ 236,029	N/A	\$ 236,029	96%
John J. Bulfin	\$ 213,902	96%	\$ 205,346	N/A	\$ 205,346	96%
Thomas M. Wierdsma	\$ 189,315	96%	\$ 181,742	N/A	\$ 181,742	96%

(1) Mr. Hurley transitioned out of his role as an executive officer of GEO in January 2016.

(2) Since the Corporate Performance factor was less than 100%, NEOs were not eligible for individual performance multipliers on their award.

Equity Compensation. Our Compensation Committee has historically granted awards under our equity compensation plans to our key employees and members of our board of directors to create a more performance-oriented culture and to further align the interests of management and our shareholders.

Our current equity compensation plan is The GEO Group, Inc. 2014 Stock Incentive Plan (the "2014 Plan"), which was approved by our shareholders at our 2014 annual meeting of shareholders. The 2014 Plan replaced our 2006 Stock Incentive Plan (the "2006 Plan") and since the date our shareholders approved the 2014 Plan, no further grants can be made under the 2006 Plan although there are outstanding awards under the 2006 Plan. Prior to the implementation of the 2006 Plan, substantially all of our equity compensation awards had consisted of stock option grants. However, since the adoption of the 2006 Plan and the 2014 Plan, we have issued 2,575,156 shares of restricted stock (excluding cancelled shares) and stock options representing the right to acquire 2,074,600 shares of common stock. Beginning in 2012, our restricted stock grants to our executive officers have performance-based vesting which we believe is appropriate to foster a performance-oriented culture and align the interests of management and our shareholders. Further, we believe this approach is consistent with the approach taken by our peers in the equity REIT sector and our industry, and is reflective of the performance-based compensation program that our shareholders support. As of March 4, 2016, there was a total of 3,314,892 shares of common stock reserved for future issuance in connection with future awards under the 2014 Plan.

Our Compensation Committee has historically granted awards under our equity compensation plans either at the time of our annual shareholders' meeting or following the end of our fiscal year in connection with the completion of our annual compensation cycle; however, we have varied our practice in recent years. For example, on June 1, 2013 and May 14, 2015 we granted restricted stock awards to employees, management and non-employee directors. In the future, we may from time to time grant equity awards throughout the year. Equity compensation awards are priced as of the close of business on the date of grant.

The amounts of awards granted under our equity compensation plans are determined by the Compensation Committee after taking into account the following factors: the recommendations of the Chief Executive Officer, the availability of awards for issuance companywide, the overall performance of the Company and the individual performances of the grantees.

Under the 2006 Plan and the 2014 Plan, shares of restricted stock may have performance-based or time-based vesting. If the vesting is performance based, vesting is tied to the achievement of predetermined metrics set by the Compensation Committee and included in the applicable equity grant instrument. If vesting is time based, the shares vest at the rate of 25% per year in each of the four years following the date of grant, subject to vesting acceleration in the case of a change in control as defined in our plan. Beginning in 2012, our restricted stock grants to our executive officers have performance-based vesting. Except for stock option awards to Mr. Zoley prior to 2008, and stock option awards granted to non-employee directors in 2009, which all vested immediately

Table of Contents

on the date of grant, stock options vest 20% immediately and an additional 20% on each of the four anniversary dates immediately following the grant date.

We believe that equity compensation awards offer significant motivation to our officers and employees and serve to align their interests with those of our shareholders. While the Compensation Committee will continually evaluate the use of equity compensation — both types and amounts — it intends to continue to use such awards as part of the company’s overall compensation program.

2015 Equity Incentive Awards

On February 5, 2015, GEO granted performance-based restricted stock to our named executive officers that vest on March 1, 2018 based on two performance metrics measured from January 1, 2015 to December 31, 2017 as follows: (i) 75% of the award is determined based on GEO’s relative total shareholder return as compared to the FTSE NAREIT EQUITY REIT INDEX and (ii) 25% of the award is determined based on GEO’s return on capital employed (“ROCE”) performance against targets using an average of ROCE over 2015, 2016 and 2017. For 2015, 100% of our equity incentive awards provided to the NEOs were in the form of performance-based restricted stock awards which was much more performance oriented than the mix of performance and time vested equity awards observed across the peer group.

For 2015, the Compensation Committee engaged Pay Governance to conduct an assessment of Mr. Zoley’s total compensation, including his annual equity incentive award. As a result of this assessment and Pay Governance’s recommendation, the Compensation Committee determined to increase Mr. Zoley’s annual incentive equity award to 75,000 shares of performance-based restricted stock in order to better align Mr. Zoley’s target annual incentive equity award with the market and the peer group and in order to reallocate his total compensation so that a greater percentage of his total target compensation is performance based. GEO had previously granted Mr. Zoley a target award of 50,000 shares of performance-based restricted stock in March 2015 so the Compensation Committee granted an additional target award of 25,000 shares of performance-based restricted stock on May 14, 2015, based on the same metrics discussed above that will also vest on March 1, 2018. Taking into account all modifications made to Mr. Zoley’s total target compensation, including base target salary, annual cash incentive award and target annual equity incentive award, during 2015, these modifications place Mr. Zoley’s total target compensation in the 48th percentile of the peer group and Mr. Zoley’s maximum compensation in the 72nd percentile of the peer group. The Compensation Committee viewed the peer group data as one factor in assisting its decision making process with respect to Mr. Zoley’s compensation, but did not engage in benchmarking or rely wholly on this information.

The following table lists the number of performance-based shares of restricted stock granted to each named executive officer:

Executive	# of Performance Shares Granted in 2015
George C. Zoley	75,000
Brian R. Evans	12,500
John M. Hurley	12,500
John J. Bulfin	10,000
Thomas M. Wierdsma	10,000

Table of Contents

Specifically, the performance targets for the performance-based restricted stock grants are:

Performance Metric	Metric Weighting	Threshold	Target	Maximum
Relative TSR	75%	P30	P50	P90
Return on Capital Employed	25%	+1% of WACC	9%	12%
	Payouts (% of Target)	30%	100%	200%

The Threshold required for payment under the ROCE metric is set at +1% of our weighted average cost of capital (“WACC”) over the three-year measurement period to ensure that payments only occur during periods of positive returns. The WACC is a product of the cost of our capital over the performance period and will not be known until the performance period has concluded.

Additionally, we have adopted a performance “governor” that caps payouts under the Relative TSR metric at 100% of target if GEO’s absolute TSR is negative over the 3-year period.

Equity Incentive Outcomes for 2015

On May 15, 2013, the Compensation Committee granted target awards of performance-based restricted stock vesting over a three year period beginning January 1, 2013 provided that certain TSR performance goals and ROCE goals were met as of December 31, 2015. Specifically, the performance targets were:

Performance Metric	Metric Weighting	Threshold	Target	Maximum
Relative TSR	75%	P30	P50	P90
Return on Capital Employed	25%	+1% of WACC	9%	12%
	Payouts (% of Target)	30%	100%	200%

The Compensation Committee engaged Pay Governance to calculate the final TSR rank and payout calculations for the TSR component of these awards. Pay Governance determined that based upon their calculations for the Company and the FTSE NAREIT Equity REITs Index, the Company’s 2013-2015 TSR of 24.4% places the Company in the 31st percentile of the peer group which results in a TSR component payout of 33.5%. Management of the Company calculated the return on capital employed component of the performance-based restricted stock to be 10.8% which results in a ROCE component payout of 159.9% of the target award. Based on the calculations of the TSR component and the ROCE component, management of the Company certified to the Compensation Committee that when the TSR component is combined with the ROCE component, the combined equity payout is 65.1% of the target award. As a result of the information provided to the Compensation Committee by Pay Governance and management, the Compensation Committee approved the vesting of the performance-based restricted stock in the amounts provided below:

Performance-Based Restricted Stock: 2013-2015 Cycle

Executive	Shares at Target	Performance Factor	Shares Earned
George C. Zoley	40,310		26,246
Brian R. Evans	10,000		6,511
John M. Hurley	10,000	65.1%	6,511
John J. Bulfin	7,500		4,883
Thomas M. Wierdsma	7,500		4,883

Other Benefits and Perquisites. Our executive compensation program includes other benefits and perquisites as more fully reflected on the table set forth below titled “All Other Compensation.” These benefits and perquisites are reviewed annually by the Compensation Committee with respect to amounts and appropriateness. Currently, the benefits and perquisites which the named executive officers are eligible to receive fall into four general categories: (i) retirement benefits pursuant to our executive retirement agreement in the case of Mr. Zoley and pursuant to our senior officer retirement plan in the case of the other named executive officers; (ii) benefits under certain other deferred compensation plans; (iii) value attributable to life insurance we afford our named executive officers beyond that which is offered to our other employees generally; and (iv) travel and entertainment perquisites, such as an automobile allowance, club dues and personal use of the corporate jet. For 2015, Mr. Zoley was allotted thirty (30) hours of personal use of the corporate aircraft. For 2015, the Board authorized the allotment of five (5) hours of personal use of the corporate aircraft for Mr. Evans.

Executive Retirement Agreement. Mr. Zoley has an executive retirement agreement that requires us to pay him a lump sum amount on the date that his employment with GEO ends. Such amount is determined by his age at the time of retirement with the amount increasing by approximately 4% per year up to age 71. Mr. Zoley’s retirement agreement formerly included a tax gross-up provision for taxes applicable to his lump sum retirement payment. In 2012, Mr. Zoley agreed to amend his retirement agreement to eliminate the tax gross-up provision. In exchange for this amendment, the amount of the lump sum retirement payment which Mr. Zoley was entitled to receive was proportionally increased so that Mr. Zoley would be entitled to receive substantially the same net benefit he would otherwise have received if the tax gross-up had remained in place. Mr. Zoley’s benefits under the executive retirement agreement are fully vested and he will therefore be entitled to receive the amount called for by the agreement whenever his employment with GEO is terminated for any reason, whether by GEO or by him. If Mr. Zoley had retired at December 31, 2015, we would have had to pay him a total of \$7.4 million. The \$7.4 million will be delivered in a lump-sum amount and equates to \$237,726 annually when divided by his 31 years of service with the company. The amount owed under the retirement agreement to Mr. Zoley would be payable from the general assets of GEO.

Senior Officer Retirement Plan. Messrs. Evans, Bulfin and Wierdsma participate and Mr. Hurley participated (through the date he served as an executive officer) in our senior officer retirement plan, which is offered to all of our Senior Vice Presidents. The senior officer retirement plan is a defined benefit plan and, subject to certain maximum and minimum provisions, provides for the payment to the officer of a monthly retirement benefit based on a percentage of the officer’s final average annual salary earned during the employee’s last five years of credited service (excluding bonus) times the employee’s years of credited service. A participant will vest in his or her benefits under the senior officer retirement plan upon the completion of ten (10) years of service. The amount of benefit increases for each full year beyond ten (10) years of service except that there are no further increases after twenty-five (25) years of service. The maximum target benefit under the senior officer retirement plan is 45% of final average salary. Reduced benefits are payable for lesser service and early retirement. Benefits under the senior officer retirement plan are offset 100% by social security benefits received by the officer and are computed on the basis of a straight-life annuity. The plan also provides for pre-retirement death and disability benefits. Amounts owing under the plan are payable from the general assets of the Company.

Deferred Compensation Plans. Our named executive officers are currently excluded from participating in our 401(k) plan by virtue of their compensation level. Accordingly, we have established a deferred compensation plan for certain employees, including the named executive officers, which permits them to defer up to 100% of their compensation to provide for their retirement. Under the deferred compensation plan, the Company may make matching contributions on a discretionary basis. Mr. Evans and Mr. Bulfin are the only named executive officers who currently participate in the deferred compensation plan.

Excess Group Life Insurance. We pay rates for the life insurance policies of our named executive officers above the level that is excludable under applicable tax rules. Payments in connection with the resulting excess coverage are treated as imputed income to the officers and are not deductible by the Company.

How Each Compensation Element Fits into the Overall Compensation Objectives and Affects Decisions Regarding Other Elements

In establishing compensation packages for executive officers, numerous factors are considered, including the particular executive's experience, expertise and performance, the Company's overall performance and compensation packages available in the marketplace for similar positions. In arriving at amounts for each component of compensation, our Compensation Committee strives to strike an appropriate balance between base compensation and incentive compensation, including equity based compensation and cash awards under the Senior Management Performance Award Plan. The committee also endeavors to properly allocate between cash and non-cash compensation (subject to the availability of equity compensation awards under our then current equity compensation plans), and between annual and long-term compensation.

When considering the marketplace, particular emphasis is placed upon compensation packages available at a comparable group of peer companies.

As discussed earlier, Pay Governance completed in 2012 a report on behalf of the Compensation Committee to evaluate its executive compensation program in light of the marketplace to make sure the program is competitive. Additionally, Pay Governance completed in 2015 an assessment of Mr. Zoley's total compensation in light of the marketplace and the peer group specifically. The Compensation Committee intends to continue this practice on a periodic basis in the future.

2016 Compensation Actions

Equity Incentive Awards

Effective March 10, 2016, GEO granted performance-based restricted stock to our named executive officers that vests on March 10, 2019 based on two performance metrics measured from January 1, 2016 to December 31, 2018 as follows: (i) up to 50% of the shares of restricted stock in each award vest if GEO meets certain TSR performance targets for the 3-year period; and (ii) up to 50% of the shares of restricted stock in each award can vest if GEO meets certain ROCE performance targets for the 3-year period. The following lists the number of performance-based shares granted to each named executive officer:

Executive	# of Performance Based Restricted Stock Granted in March 2016
George C. Zoley	50,000
Brian R. Evans	12,500
John J. Bulfin	10,000
Thomas M. Wierdsma	10,000

The Compensation Committee approved a shift in the mix of performance metrics from 75% Relative TSR/25% ROCE to 50% Relative TSR/50% ROCE for the following reasons:

- The level of balance better aligns with market practices for the weighting of TSR metrics in long-term incentive plans.
- Increases the emphasis on delivering significant operating returns, which the Compensation Committee believes translates to sustainable long-term shareholder returns over time.
- Continues to maintain a significant portion of long-term incentives contingent on shareholder return outperformance against the REIT industry.

For 2016, 100% of the equity grants made to executives were performance based. This is significantly more performance based than the peer group which, on average, deliver ~50% of their long-term incentive in time-vested equity to NEOs.

Executive and Director Stock Ownership Guidelines

The Company adopted stock ownership guidelines in 2012 applicable to our senior executive officers, including our named executive officers, and our board members. The guidelines require our CEO to maintain equity holdings in GEO equal in value to at least 5x his annual base salary, our other executive officers to maintain equity holdings in GEO equal in value to at least 3x their annual base salaries, and our non-employee directors to maintain equity holdings in GEO equal in value to at least 3x their annual retainers. All officers and directors must satisfy the stock ownership guidelines five years from September 1, 2012 or the date of their appointment as director or a senior executive officer, if appointed after September 1, 2012.

Clawback/Recoupment Policy

The Company maintains a clawback policy providing that any incentive payment awarded by GEO to an executive officer (including a named executive officer) under any GEO incentive compensation plan may be recouped by GEO in the event of material fraud or misconduct by the recipient, among other triggers.

Prohibited Transactions Under the Insider Trading Policy

The Company prohibits certain transactions in the Company's securities under the terms of its insider trading policy, including engaging in hedging transactions and short sales of the Company's securities, trading in options, warrants, puts and calls or similar instruments on the Company's securities and holding Company securities in margin accounts.

CONCLUSION

We believe that our compensation programs appropriately reward executive performance and closely align the interests of our named executive officers and key employees with the interests of our shareholders, while also enabling the Company to attract, retain, and motivate talented executives. The Compensation Committee will continue to evolve and administer our compensation program in a manner that the Compensation Committee believes will be in the best interests of our shareholders. The Compensation Committee monitors the results of the advisory vote on our executive compensation (referred to as the "say-on-pay" vote) and incorporates such results as one of many factors considered in connection with the discharge of its responsibilities.

Stock awards granted in 2015, 2014 and 2013 were performance based awards and will be earned if the Company achieves its performance based targets. Assumptions used in the calculation of the amounts related to stock awards are described in Note 1 to the Company's audited financial statements for the year ended December 31, 2015, included in the Company's Annual Report on Form 10-K filed with the SEC on February 26, 2016.

- a) We pay rates for the life insurance policies of our named executive officers above the level that is excludable under applicable tax rules. The resulting excess coverage represented in this column is treated as imputed income to the officers.
- b) We provided certain perquisites to the named executive officers in 2015 for personal use of the Company's leased aircraft. For 2015, Mr. Zoley was allotted thirty (30) hours of aircraft usage and utilized 27 hours. For purposes of the Summary Compensation Table, we determine the aggregate incremental cost to us for personal use of company aircraft using a method that takes into account the cost of fuel, trip-related maintenance, crew travel expenses, on-board catering, landing fees, trip-related hangar/parking costs and other variable costs. Since the aircraft is used primarily for business travel, the calculation does not include the fixed costs that do not change based on usage, such as pilots' salaries, aircraft acquisition costs and the cost of maintenance not related to trips.
- c) Under our executive automobile policy, the executive is required to make contributions to GEO in circumstances where the cost of the executive automobile exceeds the overall cost allowance as determined under the policy.

CERTAIN MATERIAL EXECUTIVE COMPENSATION AGREEMENTS AND ARRANGEMENTS

The following executive compensation agreements and arrangements are material to an understanding of the amounts paid and/or payable to our named executive officers disclosed in the table above.

Executive Employment Agreements

Effective August 22, 2012, we entered into a Third Amended and Restated Executive Employment Agreement with Mr. Zoley, which was amended by the First Amendment, dated April 29, 2013, the Second Amendment, dated May 29, 2013, and the Third Amendment, dated May 14, 2015 (collectively, the "Employment Agreement"). The Employment Agreement has a continuously rolling three-year term.

Table of Contents

The Employment Agreement provides that Mr. Zoley is entitled to receive a target annual performance award of up to a maximum of 150% of his annual base salary in accordance with the Senior Management Performance Award Plan.

The Employment Agreement provides that upon the termination of the agreement for any reason other than by GEO for cause (as defined in the Employment Agreement) or by Mr. Zoley without good reason (as defined in the Employment Agreement), he will be entitled to receive a termination payment equal to 2 (two) times his annual base salary plus target bonus for the fiscal year in which his employment is terminated or, if greater, the target bonus for the fiscal year immediately prior to such termination. In addition, the Employment Agreement provides that upon such termination, GEO will transfer all of its interest in any automobile used by the executive pursuant to its employee automobile policy and pay the balance of any outstanding loans or leases on such automobile so that the executive owns the automobile outright. In the event such automobile is leased, the Employment Agreement provides that GEO will pay the residual cost of the lease.

Upon the termination of the Employment Agreement by GEO for cause or by Mr. Zoley without good reason, Mr. Zoley will be entitled to only the amount of compensation that is due through the effective date of the termination, including any performance award that may be due and payable to him under the terms of the Senior Management Performance Award Plan. The Employment Agreement includes a non-competition covenant that runs through the three-year period following the termination of the executive's employment, and customary confidentiality provisions.

The Employment Agreement reflects an annual base salary for Mr. Zoley for 2015 of \$1,000,000 subject to increases in the sole discretion of the Board, to be determined by the board of directors. Additionally, the Employment Agreement provides that all outstanding unvested stock options and restricted stock granted to Mr. Zoley fully vest immediately upon a "termination without cause" as such term is defined in his employment agreements, as approved by the Compensation Committee. However, any restricted stock that is still subject to performance based vesting at the time of such termination shall only vest when, and to the extent, the Compensation Committee of the board of directors certifies that the performance goals have been met.

Other Senior Officer Employment Agreements

We have senior officer employment agreements with Messrs. Evans, Bulfin and Wierdsma. The employment agreements have rolling two-year terms which continue until each executive reaches age 67 absent earlier termination. We had a senior officer employment agreement with Mr. Hurley which expired during the year ended December 31, 2014 upon his reaching age 67.

The amounts of base salaries that were paid to each of these executives during fiscal years 2015, 2014 and 2013 are set forth in the Summary Compensation Table above. The executives are also entitled to receive a target annual incentive bonus in accordance with the terms of our Senior Management Performance Award Plan which is further described below.

The senior officer employment agreements provide that upon the termination of the agreement for any reason other than by GEO for cause (as defined in the employment agreement) or by the voluntary resignation of the executive, the executive will be entitled to receive a termination payment equal to the following: (1) two years of the executive's then current annual base salary; plus (2) the continuation of the executive's employee benefits (as defined in the employment agreement) for a period of two years, plus (3) the dollar value of the sum of paid vacation time that the executive was entitled to take immediately prior to the termination which was not in fact taken by the executive. In addition, the employment agreements provide that upon such termination of the executive, we will transfer all of our interest in any automobile used by the executive pursuant to our employee automobile policy and pay the balance of any outstanding loans or leases on such automobile so that the executive owns the automobile outright. In the event such automobile is leased, the employment agreements provide that we will pay the residual cost of the lease. Also, upon such termination, all of the executive's unvested stock options will fully vest immediately.

Table of Contents

Upon the termination of the employment agreements by GEO for cause or by the voluntary resignation of the executive, the executive will be entitled to only the amount of salary, bonus, and employee benefits that is due through the effective date of the termination. Each employment agreement includes a non-competition covenant that runs through the two-year period following the termination of the executive's employment, and customary confidentiality provisions.

Under the terms of the agreements, annual base salaries for 2015 approved by the Compensation Committee for Messrs. Evans, Hurley, Bulfin and Wierdsma were \$546,364, \$546,364, \$475,337 and \$420,700 respectively. Additionally, all outstanding unvested stock options and restricted stock granted to each of Messrs. Zoley, Evans, Bulfin and Wierdsma fully vest immediately upon a "termination without cause" as such term is defined in each of their employment agreements, as approved by the Compensation Committee.

Executive Retirement Agreement

GEO also has an executive retirement agreement with Mr. Zoley. The retirement agreement provides that upon the later of (i) the date he actually retires from employment with GEO, or (ii) his 55th birthday, GEO will make a lump sum payment to Mr. Zoley. See "Potential Payments Upon Termination or Change in Control" for the amount GEO would have had to pay Mr. Zoley as of December 31, 2015 pursuant to his executive retirement agreement had he retired at his current age as of that date.

The retirement agreement provides that if the executive should die after his 55th birthday but before he retires from GEO, GEO shall immediately pay to the executive's beneficiary(ies) or estate the amount GEO would have paid to the executive had he retired immediately prior to his death. The retirement agreement includes non-competition provisions that run for a two-year period after the termination of the executive's employment. Mr. Zoley has reached the age of 55.

Senior Officer Retirement Plan

GEO maintains a senior officer retirement plan for all of its Senior Vice Presidents, including Mr. Evans, Mr. Bulfin and Mr. Wierdsma. The senior officer retirement plan is a non-qualified defined benefit plan and, subject to certain maximum and minimum provisions, provides for the payment to the officer of a monthly retirement benefit based on a percentage of the officer's final average annual salary earned during the employee's last five years of credited service (excluding bonus) times the employee's years of credited service. A participant will vest in his or her benefits under the senior officer retirement plan upon the completion of ten (10) years of service, provided such participant remains continuously employed by the Company until at least age fifty five (55). The amount of benefit increases for each full year beyond ten (10) years of service except that there are no further increases after twenty-five (25) years of service. The maximum target benefit under the senior officer retirement plan is 45% of final average annual salary. Reduced benefits are payable for lesser service and early retirement. Benefits under the senior officer retirement plan are offset one hundred percent (100%) by social security benefits received (or estimated social security benefits to be received, if applicable) by the officer and are computed on the basis of a straight-life annuity. The plan also provides for pre-retirement death and disability benefits. Amounts owing under the plan are payable from the general assets of the Company.

- (3) All of these awards were granted pursuant to our 2014 stock incentive plan.

PENSION BENEFITS

The following table sets forth certain information with respect to each plan that provides for payments to each of the named executive officers of GEO at, following, or in connection with retirement from GEO.

Name	Plan Name	Number of Years of Credited Service (#)(1)	Present Value of Accumulated Benefit (\$)(2)	Payments During Last Fiscal Year

John J. Bulfin	Senior Officer Retirement Plan	15	1,042,452	—
Thomas M. Wierdsma	Senior Officer Retirement Plan	8	—	—

- 1) The benefit of Mr. Zoley under his executive retirement agreement is triggered upon the attainment of the retirement age of 55 years old without regard to years of credited service. Mr. Zoley is 55 or older and therefore all of his benefits under his executive retirement agreement are fully vested.
- 2) This column reflects amounts relating to each named executive officer's retirement agreement or retirement plan. The assumptions used in GEO's actuarial calculation of pension costs are based on payments in the form of a life annuity using market information and GEO's historical rates for employment compensation. Such actuarial assumptions are based using mortality tables for healthy participants and include a discount rate of 4.75% and a rate of compensation increase of 4.4%. Please see "Certain Material Executive Compensation Agreements and Arrangements" for a description of our executive and senior officer retirement agreements and arrangements.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

The following table sets forth for each named executive officer the payments that we would have been required to make as of December 31, 2015, (i) pursuant to the officer's employment agreement, in connection with the termination of the officer's employment as of that date by GEO without cause or by the officer for good reason (as such terms are defined in each officer's employment agreement), (ii) pursuant to the officer's employment agreement, in connection with the termination of the officer's employment as of that date by GEO for cause (as defined in each officer's employment agreement) or by the officer upon the officer's resignation, and (iii) pursuant to the officer's retirement agreement or arrangement, in connection with the termination of the officer's employment as of that date for any reason (including due to the retirement, death or disability of the officer). All of the payments in the table would have been payable pursuant to the employment and retirement agreements and arrangements described more fully above under "Certain Material Executive Compensation Agreements and Arrangements." All amounts in the table would have been payable in lump sums from the general assets of GEO.

- (1) Our current employment agreements with our named executive officers do not provide for any payments in connection with a change in control. Each officer would only have received the amount set forth in this column in connection with a change in control on December 31, 2015, if such officer was terminated by GEO without cause or the officer terminated his employment for good reason, in each case, in connection with the change in control. Currently, only the employment agreement with Mr. Zoley contains a right of the officer to terminate employment for good reason.
- (2) In the event of a termination for any reason of any named executive officer on December 31, 2015, such officer would also have been entitled to receive the amounts set forth in the column of this table titled "Payment Due Pursuant to Officer's Retirement Agreement or Arrangement Upon a Termination For Any Reason" pursuant to the officer's retirement agreement or arrangement.
- (3) All amounts are calculated using each named executive officer's annual base salary on December 31, 2015.
- (4) Although no named executive officer is eligible to receive a payment in connection with a termination for cause or a resignation pursuant to the officer's employment agreement, each officer is entitled to receive all accrued and unpaid amounts under the officer's employment agreement through the date of termination.
- (5) The benefits of Messrs. Zoley, Hurley, Evans and Bulfin under the retirement agreement in the case of Mr. Zoley and the Senior Office Retirement Plan in the case of Messrs. Hurley, Evans and Bulfin are fully vested and those officers would therefore have been entitled to receive the amounts set forth in this column if their employment with GEO had been terminated for any reason on December 31, 2015, whether by GEO or the officer, regardless of whether cause or good reason existed, and including in the event of a termination due to the retirement, death or disability of the officer. Please see "Certain Material Executive Compensation Agreements and Arrangements" for a description of our executive and senior officer retirement agreements and arrangements.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires that GEO's directors, executive officers and persons who beneficially own 10% or more of GEO's common stock file with the SEC initial reports of ownership and reports of changes in ownership of our stock and our other equity securities. To GEO's knowledge, based solely on a review of the copies of such reports furnished to GEO and written representations that no other reports were required, during the year ended December 31, 2015, all such filing requirements applicable to GEO's directors, executive officers and greater than 10% beneficial owners were complied with.

PROPOSAL 2:

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

The Audit and Finance Committee of our board of directors has appointed Grant Thornton LLP as our independent registered public accountants for the 2016 fiscal year. The Audit and Finance Committee is responsible for the appointment, oversight and termination of our independent registered public accountants. We are seeking the ratification by our shareholders of this appointment, although our Audit and Finance Committee is not bound by any shareholder action on this matter.

If the appointment of Grant Thornton LLP as our independent registered public accountants is not ratified by our shareholders, the Audit and Finance Committee will reconsider its appointment, but may nevertheless retain Grant Thornton LLP. Also, even if the appointment of Grant Thornton LLP as our independent registered public accountants is ratified by our shareholders, the Audit and Finance Committee may direct the appointment of a different independent auditor at any time during the year if the Audit and Finance Committee determines, in its discretion, that such a change would be in our best interests. Grant Thornton LLP has advised GEO that no partner or employee of Grant Thornton LLP has any direct financial interest or any material indirect interest in GEO other than receiving payment for its services as independent certified public accountants.

Recommendation of the Board of Directors

The board of directors unanimously recommends a vote "FOR" the ratification of Grant Thornton LLP as our independent registered public accountants for the 2016 fiscal year.

PROPOSAL 3:

ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act, enacted in July 2010, requires that we provide our shareholders with the opportunity to vote to approve, on a nonbinding, advisory basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission.

As described above in detail under the heading "Compensation Discussion and Analysis," we seek to closely align the interests of our named executive officers with the interests of our shareholders. Our compensation programs are designed to attract, retain and motivate our named executive officers to increase shareholder value on both an annual and a longer term basis primarily by generating increasing levels of revenue, net income, net operating income, adjusted funds from operations, total shareholder return and return on capital employed, while at the same time avoiding the encouragement of unnecessary or excessive risk taking.

Table of Contents

The vote on this resolution is not intended to address any specific element of compensation; rather, the vote relates to the compensation of our named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission. The vote is advisory, which means that the vote is not binding on the Company, our board of directors or the Compensation Committee. Although non-binding, our board of directors and Compensation Committee will review and consider the voting results when making future decisions regarding our executive compensation program.

Accordingly, we ask our shareholders to vote on the following resolution at the annual meeting:

“RESOLVED, that the compensation paid to the company’s named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.”

Recommendation of the Board of Directors

The board of directors unanimously recommends a vote “FOR” the approval of the compensation of our named executive officers, as disclosed in this proxy statement.

PROPOSAL 4:

PROPOSAL TO APPROVE THE GEO GROUP, INC.’S SENIOR MANAGEMENT PERFORMANCE AWARD PLAN AS AMENDED AND RESTATED

Approval of Senior Management Performance Award Plan

Background

We are asking our shareholders to approve The GEO Group, Inc. Senior Management Performance Award Plan, as Amended and Restated, which is our annual senior executive bonus plan and is referred to in this proxy statement as the Amended and Restated Award Plan. All prior versions of The GEO Group, Inc. Senior Management Performance Award Plan are collectively referred to as the Award Plan. The Amended and Restated Award Plan is substantially similar to the Award Plan we had in place since 2010 and the Award Plan submitted for shareholder approval at the 2015 annual shareholders’ meeting in order to preserve the tax deductibility of cash incentive awards to executive officers under Section 162(m) of the Code. Section 162(m) of the Code limits to \$1 million per year the deductibility of compensation to the Chief Executive Officer and the next three most highly compensated executive officers other than the Chief Financial Officer. This limit does not apply to compensation defined in Section 162(m) as “qualified performance-based compensation.” In order for awards under the Amended and Restated Award Plan to constitute “qualified performance-based compensation,” shareholders must approve the Amended and Restated Award Plan every five years. The Award Plan was last approved by shareholders in 2015.

Amendment and Restatement

The Compensation Committee and Board of Directors approved the Amended and Restated Award Plan in March 2016, subject to shareholder approval. The principal modification that the Amended and Restated Award Plan makes to the Award Plan is to increase the target annual cash incentive performance award to the Chief Executive Officer from 100% of his base salary to 150% of his base salary. This modification was made pursuant to the Compensation Committee’s review of Mr. Zoley’s total compensation. During 2015, the Compensation Committee engaged Pay Governance to conduct an assessment of Mr. Zoley’s total compensation, including his annual cash incentive compensation. As a result of this assessment and Pay Governance’s recommendation, the Compensation Committee determined to increase Mr. Zoley’s target annual cash incentive amount from 100% of this base salary to 150% of his base salary and determined to decrease Mr. Zoley’s base salary from \$1,215,000 to \$1,000,000 in order to better align Mr. Zoley’s total compensation with the market and the ISS peer group and in order to reallocate his total compensation so that a greater percentage of his total compensation is tied to the

Table of Contents

performance of the Company. We believe this approach is consistent with the approach taken by our peers in the equity REIT sector and our industry, and is reflective of the performance-based compensation program that our shareholders support. This modification to Mr. Zoley's total compensation is reflected in the most recent amendment to Mr. Zoley's employment agreement entered into in May 2015.

The description of the Amended and Restated Award Plan is a summary of its principal provisions and is qualified in its entirety by reference to the Amended and Restated Award Plan, a copy of which is included in this proxy statement as Appendix A.

Purpose

The purpose of the Amended and Restated Award Plan is to attract, retain and motivate designated key employees by providing performance-based cash awards. The Amended and Restated Award Plan provides performance-related cash incentive compensation opportunities to our participating executive officers and employees. The Amended and Restated Award Plan rewards outstanding performance by those individuals whose decisions and actions affect the sustainable growth and profitability of the Company. The performance criteria set forth in the Amended and Restated Award Plan are intended to align the interests of participating employees with the interests of shareholders.

Administration

The Amended and Restated Award Plan is governed by the Compensation Committee and is administered on a day to day basis by the Chief Executive Officer and the Vice President of Human Resources. The Compensation Committee has the discretion to make all determinations necessary or appropriate under the plan. The Compensation Committee is currently comprised of not less than two individuals who qualify as "outside directors" under Section 162(m) of the Code, or another Committee of the board satisfying such requirement. Under the Amended and Restated Award Plan, the Compensation Committee has the exclusive authority and responsibility to:

- interpret the Amended and Restated Award Plan,
- determine the timing and form of amounts to be paid out under the Amended and Restated Award Plan and the conditions for payment thereof,
- certify attainment of performance goals and other material terms,
- adjust Performance awards,
- authorize the payment of all benefits and expenses of the Amended and Restated Award Plan,
- adopt, amend and rescind rules and regulations relating to the Amended and Restated Award Plan, and
- make all other determinations and take all other actions necessary or desirable for the Amended and Restated Award Plan's administration, including, without limitation, correcting any defect, supplying any omission or reconciling any inconsistency in the Amended and Restated Award Plan in the manner and to the extent it shall deem necessary to carry the Amended and Restated Award Plan into effect.

Eligible Employees/Performance Awards

All of our named executive officers, as well as our Senior Vice Presidents who are not named executive officers, are eligible to participate in the Amended and Restated Award Plan. Under the plan, each of GEO's named executive officers is eligible to receive annual cash incentive compensation based on GEO's budgeted revenue and net income after tax for the fiscal year. For purposes of the plan, net income after tax means GEO's net income after all federal, state and local taxes. Extraordinary items and changes in accounting principles, as

Table of Contents

defined by U.S. generally accepted accounting principles, may be disregarded in determining GEO's net income after tax. Non-recurring and unusual items not included or planned for in GEO's annual budget may also be excluded from net income after tax in the sole and absolute discretion of the Compensation Committee. In determining the amount of annual incentive cash compensation awarded, net income after tax is weighted 65% and revenue is weighted 35% (collectively, the "Target Weighting of Revenue and Net-Income-After-Tax").

The following table shows, for each named executive officer, the annual incentive target amount as a percentage of salary that the respective officer is eligible to receive under the plan.

Named Executive Officer:	Annual Incentive Target Amount (As a Percentage of Salary):
Chief Executive Officer	150%
Chief Financial Officer	50%
Senior Vice Presidents	45%

Under the terms of the plan, each named executive officer's annual incentive cash compensation award is calculated by applying the following percentage adjustment methodology separately to the respective Target Weighting of Revenue and Net-Income-After-Tax results in accordance with the following table:

Percentage of Budgeted Fiscal Year Targets Achieved for Revenue and for Net-Income-After-Tax	Percentage by which the Target Weighting of Revenue and Net-Income-After- Tax is Reduced/Increased
Less than 80%	No Performance Award
80% — 100%	2.5 times the percentage (negative) difference between the actual achieved percentages of budgeted Revenue and Net-Income-After-Tax targets and 100% of the Revenue and Net-Income-After-Tax targets
100%	No Adjustment to Target Weighting
101% — 120%	(Amounts over 120% shall not be considered for purposes of this calculation) 2.5 times the percentage (positive) difference between the actual achieved percentages of budgeted Revenue (up to 120%) and Net-Income-After-Tax targets and 100% of the Revenue and Net-Income-After-Tax targets

In addition to the amounts above, if the budgeted goals for revenue and net income after tax are exceeded, the annual incentive target amounts for the Chief Financial Officer and the other Senior Vice Presidents may be increased up to an additional 50% of the executive's annual incentive target amount upon the recommendation of the Chief Executive Officer subject to the approval of the Compensation Committee. The Chief Executive Officer is not eligible for discretionary adjustments. The 50% discretionary bonus is by definition not based on any objective criteria and is based solely on the CEO's and Compensation Committee's judgment. Factors typically considered by the Compensation Committee and the Chief Executive Officer in determining whether to grant the discretionary award include the contribution of the particular individual during the fiscal year and the overall performance of GEO during the fiscal year. GEO does not set performance targets under the plan in advance, the achievement of which would require payment of the discretionary bonus under the plan.

For fiscal year 2015, the performance targets for revenue and net income after tax under the plan were \$1,852,000,000 and \$149,500,000, respectively, and the actual results achieved by GEO in fiscal year 2015 for revenue and adjusted net income after tax were \$1,843,000,000 and \$146,300,000, respectively. Net income after

[Table of Contents](#)

tax was adjusted for certain non-recurring items in accordance with the terms of the plan. There were no discretionary awards made under the plan in 2015.

Payment of Performance Awards

Performance Awards will be paid in cash as soon as practicable after the award amounts are approved and certified in writing by the Committee.

Amendment and Termination

The board may, in its sole discretion, amend, modify, suspend, discontinue or terminate the Amended and Restated Award Plan or adopt a new plan in place of the Amended and Restated Award Plan at any time. However, no amendment, suspension or termination may, without the consent of the participant, alter or impair a participant's right to receive payment of a Performance Award for any fiscal year that is payable under the Amended and Restated Award Plan.

Under the terms of the Amended and Restated Award Plan, no amendment to the Amended and Restated Award Plan may alter the performance goals, increase the maximum amount which can be awarded to any participant, change the class of eligible employees or the target performance awards (% of salary) or make any other change that would require shareholder approval under the exemption for performance-based compensation under Section 162(m) of the Code, in each case, without the prior approval of GEO's shareholders (to the extent required under the performance-based compensation exception of Section 162(m) of the Code).

Termination of Employment

Under the terms of the Amended and Restated Award Plan, if an executive is terminated for cause, the executive will automatically forfeit any annual incentive cash compensation with respect to the fiscal year during which such termination occurs. If an executive voluntarily terminates employment prior to the end of any fiscal year (other than as a result of the retirement of the executive or, in the case of the Chief Executive Officer or Chief Financial Officer, as a result of a termination of employment by any of them for good reason (as defined in their respective employment agreements)), the executive will automatically forfeit any award for such fiscal year unless the Chief Executive Officer, in his sole and absolute discretion, grants a prorated annual incentive cash compensation award in an amount not to exceed the amount the executive would have received if the executive had remained employed for the entire fiscal year, based on the actual financial results of GEO as determined following the end of such fiscal year.

In the event (i) an executive is terminated by GEO without cause, (ii) an executive's employment is terminated due to death or disability, (iii) in the case of the Chief Executive Officer or Chief Financial Officer, any of them terminates their employment for good reason (as defined in their respective employment agreements), or (iv) in the case of the retirement of an executive which occurs effective as of a date following the 90th day of the applicable fiscal year of GEO, then the executive is entitled to receive a prorated portion of the annual incentive cash compensation award the executive would have received under the plan if the executive had remained employed by GEO for the entire fiscal year, based on the actual financial results of GEO as determined following the end of such fiscal year.

Federal Income Tax Consequences

The Amended and Restated Award Plan is designed, among other things, to ensure that compensation which may be payable under the Amended and Restated Award Plan to participants who are "covered employees" as defined in Section 162(m) of the Code and the applicable Treasury regulations thereunder will qualify as tax-deductible pursuant to the performance-based compensation exception of Section 162(m) of the Code. For purposes of Section 162(m) of the Code, the material terms of the performance goals that must be approved include: (i) the employees eligible to receive compensation under the Amended and Restated Award Plan, (ii) a description of the business criteria on which the performance goal is based and (iii) either the maximum amount of

Table of Contents

compensation that can be paid to a covered employee under the performance goal or the formula used to calculate the amount of compensation that could be paid if the performance goal is satisfied.

Under present federal income tax law, participants will recognize ordinary income equal to the amount of the Performance Award received in the year of receipt. That income will be subject to applicable income and employment tax withholding by us. If and to the extent that the Amended and Restated Award Plan payments satisfy the requirements of Section 162(m) of the Code and otherwise satisfy the requirements for deductibility under federal income tax law, we will receive a deduction for the amount constituting ordinary income to the participant.

Awards to be Granted to Certain Individuals and Groups

Awards under the Amended and Restated Award Plan are determined based on actual performance. As a result, the amounts of future actual awards cannot be determined at this time.

Vote Required

The approval of the Amended and Restated Award Plan requires the affirmative vote of a majority of the votes cast by holders of the shares of common stock present or represented at the annual meeting. If shareholders do not approve the Amended and Restated Award Plan at the Annual Meeting, the current Award Plan will remain in effect.

Recommendation of the Board of Directors

The board of directors recommends a vote “FOR” the approval of the Amended and Restated Award Plan.

PROPOSAL 5:

PROPOSAL REGARDING SHAREHOLDER PROXY ACCESS, IF PROPERLY PRESENTED BEFORE THE MEETING

Mr. Alex Friedmann, the beneficial owner of 130 shares of GEO common stock, has submitted the shareholder proposal set forth below. We are not responsible for the content of the shareholder proposal and the proponent’s supporting statement, which are set forth below as they were submitted to us.

RESOLVED: Shareholders of The GEO Group, Inc. (the “Company”) ask the Board of Directors (the “Board”) to adopt a “proxy access” bylaw. Such a bylaw shall require the Company to include in proxy materials prepared for a shareholder meeting at which directors are to be elected the name, Disclosure and Statement (as defined herein) of any person nominated for election to the Board by a shareholder or an unrestricted number of shareholders forming a group (the “Nominator”) that meets the criteria established below. The Company shall allow shareholders to vote on such nominee(s) on the Company’s proxy card.

The number of shareholder-nominated candidates appearing in proxy materials shall not exceed two, or one quarter (25%) of the directors then serving, whichever is greater. This bylaw shall supplement existing rights under the Company’s bylaws, providing that a Nominator must:

1. Have beneficially owned 3% or more of the Company’s outstanding common stock, including callable loaned stock, continuously for at least three years before submitting the nomination;
2. Give the Company, within the time period identified in its bylaws, written notice of the information required by the bylaws and any Securities and Exchange Commission (SEC) rules about (i) the nominee, including consent to being named in proxy materials and to serving as director if elected; and (ii) the Nominator, including proof it owns the required shares (the “Disclosure”); and

Table of Contents

3. Certify that (i) it will assume liability stemming from any legal or regulatory violation arising out of the Nominator's communications with Company shareholders, including the Disclosure and Statement; and (ii) it will comply with all applicable regulations and laws if it uses soliciting materials other than the Company's proxy materials.

The Nominator may submit with the Disclosure a statement not exceeding 500 words in support of each nominee (the "Statement"). The Board shall adopt procedures for promptly resolving disputes over whether notice of a nomination was timely, whether the Disclosure and Statement satisfy the bylaw and any applicable regulations, and the priority given to multiple nominations exceeding the limits on the number of shareholder-nominated candidates as set forth above. No additional restrictions shall be placed on re-nominations.

Supporting Statement

The right of long-term shareholders of the Company to have a meaningful voice in nominating candidates for Board membership is fundamental to good corporate governance.

The SEC's universal proxy access Rule 14a-11¹ was vacated after a court decision regarding the SEC's cost-benefit analysis. Therefore, proxy access rights must be established on a company-by-company basis.

Proxy Access in the United States: Revisiting the Proposed SEC Rule,² a cost-benefit analysis by CFA Institute, found proxy access would "benefit both the markets and corporate boardrooms, with little cost or disruption"

Further, *Public Versus Private Provision of Governance: The Case of Proxy Access*³ found a 0.5 percent average increase in shareholder value for proxy access targeted firms.

Shareholders are asked to vote FOR this proposal.

Recommendation of the Board of Directors

GEO's board of directors recommends a vote "AGAINST" the adoption of this proposal for the following reasons:

Our board of directors has carefully considered this shareholder proposal and does not believe that its adoption at this time nor in the form proposed is in the best interests of GEO and its shareholders. In particular, the board of directors believes (i) that there are differing views on proxy access; (ii) that we have strong corporate governance measures in place and this proposal advances a solution to a corporate governance problem that does not exist at GEO; (iii) this proposal may potentially provide undue influence to special interests and short-term shareholders; and (iv) this proposal may have unforeseen and unintended consequences that impact our corporate governance principles.

GEO understands the importance of accountability to shareholders, and in that spirit, we have a robust and effective shareholder engagement program, which we believe helps ensure that shareholders' views are heard and considered by our board of directors and its committees. A few examples of shareholder-friendly developments that have resulted from our previous shareholder engagement efforts include: (i) an amendment to the Chief Executive Officer's employment agreement in 2013 in order to adjust certain compensation terms; (ii) the modification of the performance metrics for senior management performance based equity awards from annual performance metrics to multi-year performance metrics; (iii) the decision by our Compensation Committee to adopt a bonus clawback policy applicable to any bonus awarded to an executive officer under any incentive compensation plan; and (iv) the adoption of our Global Human Rights Policy in 2013. We believe effective shareholder communication and engagement efforts strengthen the board of directors' ability to act in the best interests of GEO and our shareholders when considering such important topics such as proxy access.

Differing Views on Proxy Access

We recognize that proxy access is a topic of discussion among investors and companies. While the board of directors recognizes that some institutional investors now view proxy access as an important shareholder right, those investors have varying opinions on the appropriate thresholds and rules that should govern proxy access. Additionally, other large investors continue to oppose the concept of proxy access altogether. In light of the different views on proxy access, our board of directors believes that the need for proxy access should continue to be studied, discussed with our shareholder base and evaluated in the context of our overall corporate governance practices.

We have strong corporate governance measures in place, and the proposal advances a solution for a corporate governance problem that does not exist at GEO.

The following practices are examples of our strong corporate governance measures:

- Annual Election of Board of Directors — Our directors are elected annually by the shareholders, and shareholders can remove directors with or without cause.
- Majority Voting — We have adopted a majority voting standard for the election of directors in uncontested elections.
- Lead Independent Director Structure — Our independent directors are led by an experienced lead independent director with clear powers and authorities.
- Composition and Independence of Board — We have a strong board of directors, consisting of a diverse group of highly qualified directors with substantial experience in the public and private sector as well as experience with respect to government relations, government agencies and the military. Additionally, of the 6 directors on our board, our board has determined that 5 are independent.
- No Shareholder Rights Plan — We do not have a shareholder rights plan, also known as a poison pill.
- No Supermajority Provisions — Our charter and bylaw provisions do not have supermajority voting provisions.
- Shareholder Right to Call Special Meetings — Our shareholders may call a special meeting at the request of holders of at least 10% of our outstanding common stock.
- Active Shareholder Engagement — We regularly engage with our shareholders to solicit their input on important issues. Shareholders can communicate directly with the board, individual committees and/or individual directors.
- Shareholder Impact on Board Composition — Shareholders can directly influence the composition of our board of directors by providing direct feedback to the board, including proposing director nominees for consideration by the Nominating and Corporate Governance Committee.

We believe the above corporate governance measures provide our shareholders with a meaningful voice in the nomination and election of directors. We believe that our current director nominating process, in which the Nominating and Corporate Governance Committee evaluates all potential director nominees, including nominees recommended by shareholders, is the most appropriate process to ensure that the highest quality director candidates are nominated for election. Our Nominating and Corporate Governance Committee is comprised solely of independent directors who owe fiduciary duties to act in the best interests of all shareholders and as a result we believe it is in the best position to review and recommend director nominees who (i) possess the right skills and qualifications, (ii) who are free from conflicts of interest and (iii) represent the interests of all shareholders, not just those with special interests. We operate in a unique industry and as a result we need

Table of Contents

directors who possess the unique knowledge, skill set and experience to understand our business and the challenges we face. As part of its role, our Nominating and Corporate Governance Committee takes into account how a director candidate's qualifications, experiences, skills and other attributes, when combined with those of existing directors and other prospective candidates, would allow the board to operate most effectively.

Once the nominees are selected, our bylaws require each director be elected by a majority vote unless the number of nominees exceeds the number of Board positions that are being elected. In non-contested elections, any director that is not elected by a majority of the votes cast, shall tender his or her resignation to the Board. Upon the Nominating and Corporate Governance Committee's recommendation, the Board shall determine whether to accept or reject the resignation. In contested elections, directors are elected by a plurality of the votes cast.

Our board and its Nominating and Corporate Governance Committee evaluate a range of corporate governance practices each year in an effort to ensure that our practices serve the best interests of our shareholders. Our corporate governance program is strong and there is no corporate governance problem that needs remedying by adopting this proxy access proposal. The board believes that significant changes to our governance structure have long-term consequences that must be deliberately and carefully considered.

The proxy access proposal may potentially provide undue influence to special interests and short-term shareholders.

Uncertainty exists regarding how proxy access will be utilized and what consequences may result from utilizing proxy access. If thoughtfully and correctly implemented, proxy access has the potential to provide meaningful rights to well-intentioned and committed shareholders of GEO who are interested in GEO's long-term success. However, proxy access may be problematic because shareholders are not bound by fiduciary duties or our corporate governance policies when they make director nominations.

The unrestricted number of shareholders that may form a group to meet the three percent (3%) beneficial ownership threshold may be manipulated by shareholders with a special interest to promote a self-interested agenda rather than representing the long-term best interests of all of GEO's shareholders. For example, proxy access could facilitate the nominating of directors who do not meet the applicable independence requirements or who are interested in furthering the agenda of a special interest group to the detriment of our other shareholders. The costs and disruption of having to respond to agenda-driven nominees may be meaningful. For example, because of the nature of our business, we are a target of special interest groups that are against the privatization of correctional, detention and related facilities and services. We believe these special interest groups would utilize proxy access to promote their self-interested agenda rather than represent the long-term best interests of all GEO shareholders. Additionally, some companies have expressed a concern that special interest groups could use proxy access bylaws to threaten a contested director election to seek concessions without having to consider the potential costs of a proxy solicitation. Also, the continuous use of the proxy access nomination process could cause ongoing instability on the board of directors.

The proxy access proposal may have unforeseen and unintended consequences and impact GEO's corporate governance principles.

If this proxy access proposal is implemented and there are proxy access nominees for an election of directors, the existing majority voting standard will not apply. As important as the majority voting standard is to shareholders, GEO would like to take a measured approach when considering any corporate governance changes that would impact the majority voting standard. Furthermore, shareholders selecting the proxy access nominees may not be considering such important factors such as applicable independence requirements or the continued long term success of GEO. Additionally, the adoption of proxy access could discourage qualified individuals from agreeing to serve on GEO's board of directors due to their potentially contested nature. The unforeseen and unintended consequences associated with proxy access could lead to instability on the Board and impact the Board's long-term value propositions.

Conclusion

At this time, we believe the most prudent course of action is to engage with our shareholders on the topic of proxy access and to continue monitoring developments in this area. We believe this approach will help ensure that any significant changes to our corporate governance framework in the future are made in a deliberate and reasoned manner that takes into account the full spectrum of shareholder interests and provides us with adequate time to learn from the relevant experiences of other companies.

For these reasons, the Board recommends that you vote “**AGAINST**” this proposal. Proxies solicited by the Board of Directors will be voted against the proposal unless instructed otherwise.

PROPOSAL 6:

PROPOSAL REGARDING PUBLISHING AN ANNUAL INDEPENDENT HUMAN RIGHTS REPORT, IF PROPERLY PRESENTED BEFORE THE MEETING

California Province of the Society of Jesus acting as primary filer, the beneficial owner of 102 shares, along with the following co-filers have submitted the shareholder proposal set forth below: United States Central and Southern Province of the Society of Jesus, the beneficial owner of 115 shares; the Sisters of Providence, Mother Joseph Province, the beneficial owner of 138 shares; the American Baptist Home Mission Society, the beneficial owner of 691 shares; the Congregation of St. Joseph, the beneficial owner of 230 shares; the Benedictine Sisters, Mount St. Scholastica, the beneficial owner of at least \$2,000 worth of shares; the Midwest Province of the Society of Jesus, the beneficial owner of at least \$2,000 worth of shares; and Mercy Investment Services, Inc., the beneficial owner of 75 shares of GEO common stock. We are not responsible for the content of the shareholder proposal and the proponents’ supporting statement, which are presented below as they were submitted to us.

WHEREAS, The GEO Group, representing itself as “the world’s leading provider of correctional, detention, and community reentry services,” faces increasing scrutiny and expectations from investors and clients regarding its Human Rights performance. Indeed, The GEO Group promotes itself as having “always been committed to protecting human rights” – in recognition of the critical nature of Human Rights performance as a reputational and operational indicator of long-term success and competitiveness.

WHEREAS, findings by a client of The GEO Group, Immigration and Customs Enforcement (ICE) internal investigative body, the Office of Detention Oversight (ODO) found The GEO Group’s failure to ensure proper medical care for detained immigrants at the Adelanto Detention Facility (ADF) and the Denver Contract Detention Facility (DCDF) resulted in preventable deaths of two detainees. At ADF the ICE ODO audit found “several egregious errors committed by medical staff...[and that] the detainee’s death could have been prevented and that the detainee received an unacceptable level of medical care,” a violation of the detainee’s human rights. At DCDF, the ICE ODO found that the facility had “failed to provide [a detainee] access to emergent, urgent, or non-emergent medical care,” resulting in the detainee’s death.

Human Rights performance is critical to The GEO Group’s reputation and long-term growth. In order to ensure that the company is adequately respecting human rights in its facilities and meeting the objectives outlined in its “Global Human Rights Policy,” additional public disclosure of the following efforts is necessary; ongoing employee training on Human Rights compliance; measurement and assessment of Human Rights performance; steps to mitigate Human Rights risks; modifications of the policies and practices as necessary, including medical access protocols. Disclosing this information will benefit Human Rights performance at The GEO Group and mitigate Human Rights operational and reputational risks that are inherent within the business environment. Incorporating these measures into operations and reporting on this work annually will strengthen The GEO Group operationally and provide investors with important information to adequately assess Human Rights performance.

RESOLVED: Shareholders request that The GEO Group provide an independent Human Rights report to its investors, published on its website annually beginning in May 2016.

[Table of Contents](#)

SUPPORTING STATEMENT:

We request that the report should include:

1. Specific information on the content of the Human Rights ongoing trainings and manner they are provided to employees.
2. The number of people trained and frequency of Human Rights training.
3. Metrics used to assess effectiveness of the training and outcomes of assessment.
4. A process for identifying Human Rights shortfalls and steps taken to modify training and practices to improve Human Rights performance.

The actions sought to be taken within this Resolution by The GEO Group management will serve to further operationalize the critical work of Human Rights performance and provide investors relevant information on the Human Rights performance practices at The GEO Group.

Recommendation of the Board of Directors

GEO's board of directors recommends a vote "AGAINST" the adoption of this proposal for the following reasons:

We take seriously our commitment to respect human rights. For the year ended December 31, 2015, 86% of our consolidated revenues were derived from our domestic operations in the United States. The United States has an extensive foundation of federal, state and local laws and regulations that support human rights. In addition, these laws are enforced by federal and state regulatory agencies and through direct access to the courts by individuals. For the year ended December 31, 2015, 14% of our consolidated revenues were derived from our international operations in Australia, South Africa and the United Kingdom. Australia, South Africa and the United Kingdom also provide a strong foundation of laws, regulations and case law that support human rights. We strive to comply with all laws and regulations governing our business in the United States and internationally.

We demonstrate our commitment to adhering to high ethical standards and respecting human rights in a number of different ways. First, we place a high priority on offering high-quality services in state-of-the-art facilities providing a safe, secure and humane environment for the offenders, detainees and residents entrusted in our care, treating them with dignity and preserving their human rights, and providing them access to quality rehabilitative programs. This is evidenced by "Our Mission and Values," documented in our employee handbook distributed to all of our employees, which sets GEO's tone for respect and compliance with human rights from the top down. Moreover, we are subject to an extensive regulatory regimen and auditing procedures by government agencies and clients, accrediting organizations, as well as ourselves, to ensure that we fulfill our commitments.

Second, our commitment to respect the human rights of all persons in our care or monitoring is further exemplified by our adoption in 2013 of our Global Human Rights Policy, making GEO the first private correctional organization in the United States to adopt such a policy. As indicated in our Global Human Rights Policy, we strive to uphold the health, welfare and basic rights of inmates and detainees by working to ensure their safety, security and well-being while under our protection and care. The principles in our Global Human Rights Policy have been informed by reference to such third-party organizations as the United Nations and such instruments as its Universal Declaration on Human Rights, and the International Labor Organization's 1998 Declaration on Fundamental Principles and Rights at Work.

Third, our commitment to respect the human rights of all persons in our care or monitoring is further exemplified by our communication and engagement efforts with a variety of stakeholders, which include faith-based investors such as the proponents. These communication and engagement efforts over the last three years have included, consultation with stakeholders prior to adoption of our Global Human Rights Policy and periodic conference calls and several in-person meetings, including visiting and touring some of our U.S. facilities. Through this

Table of Contents

dialogue, we have sought to educate these stakeholders on our operations, the regulatory environment in which we operate, and our overall commitment to respecting the human rights of those in our care or monitoring.

Fourth, our commitment to respect the human rights of all persons in our care or monitoring is further exemplified by the development, implementation and continued refinement of our training program, internal monitoring and oversight policies and mechanisms designed to assure our continuing compliance with the rule of law and respect for the human rights of those in our care or monitoring, with due respect for the parameters defined by the governments and government agencies for which we provide services. We utilize a Corporate Director of Training Development to evaluate the quality of training content and delivery as well as to update training topics and curricula annually to ensure they reflect best practices as well as specific issues that may be particularly salient to correctional management personnel. We also employ Training Directors within each of GEO's regional offices who are constantly interacting with facility personnel as well as researching and communicating best practices from around the United States. We use qualified instructors with direct experience in corrections to conduct training throughout our facilities. Our training program is designed to exceed the minimum training requirements set forth by the American Correctional Association ("ACA"), our clients and our policies. In 2015, as a result of our communication and engagement efforts with our stakeholders, we began implementing a new training program which is ongoing for our domestic facilities. The adoption of this new training program took into account the suggestions and guidance proposed by our stakeholders.

In addition to our training program, we have numerous internal and external controls to ensure the human rights of the inmate and detainee population. We have an internal Office of Professional Responsibility ("OPR"). The OPR timely and thoroughly handles all staff complaints, including civil rights violations and any alleged mistreatment of staff, inmates or detainees at our facilities or in our care. We also maintain extensive operational internal controls designed to ensure the safety and well-being of staff, inmates or detainees at our facilities or in our care. Additionally, we have a dedicated Compliance division which reports directly to our Chairman and CEO. Finally, our contracts with our customers typically contain numerous contractual compliance and monitoring requirements designed to safeguard the inmate or detainee populations at our facilities. These contractual requirements are actively audited and enforced by our clients on site and at our facilities on an ongoing basis at our expense. We endeavor to maintain full compliance with these contractual requirements at all times.

The shareholder proponents in their proposal reference findings by one of our clients, Immigration and Customs Enforcement through its Office of Detention Oversight ("ODO"), with respect to two of our facilities, the Adelanto Detention Facility and the Aurora/ICE Processing Center (which the proponents refer to as the Denver Contract Detention Facility). While we acknowledge that we received a report from ODO with respect to these two facilities that noted certain findings related to medical services and requested that we take corrective action, we promptly adopted and implemented corrective action plans at both of these facilities and these corrective action plans were fully accepted by our client. We believe the receipt of these two ODO reports and our response to these matters illustrates our commitment to respecting human rights and to addressing any deficiencies or shortcomings promptly and to the satisfaction of our clients and ourselves.

This shareholder proposal requests that we provide an independent Human Rights Report to investors, published annually on our website beginning May 2016. The shareholder proponents argue that in order to ensure that we are respecting human rights in our facilities and meeting the objectives outlined in our Global Human Rights Policy, additional public disclosure on the following efforts is necessary: (1) ongoing employee training on human rights compliance; (2) measurement and assessment of human rights performance; (3) steps to mitigate human rights risks; and (4) modifications of the policies and practices as necessary, including medical access protocols. We believe that given the highly regulated environment in which we operate, and the fact that due to security, privacy, and other concerns a great deal of information we possess is confidential and not for public disclosure, except to the extent permitted by the agency with which we contract, the publication of a Human Rights Report such as that sought through this proposal is premature and inappropriate. We will undertake to study the matter further. However, as described below, we already have a significant amount of information available to the public that addresses the initiatives raised by the proposal.

Table of Contents

Disclosure regarding ongoing employee training on Human Rights compliance

While this shareholder proposal requests specific information regarding our human rights compliance training, we already disclose general training guidelines on our website. Our training program exceeds general national standards in regards to the number of training hours required. As provided on our website, our training program includes, among other things, instruction covering the rights of inmates and legal issues. The training program addresses our policies, operational procedures and management philosophy. We continue to evaluate all aspects of our training and we will make appropriate adjustments based on management's business judgment and experience. We do not believe that disclosing specific information on the content of the human rights training, the manner such training is provided to employees, the number of people trained and the frequency of training is necessary or appropriate. However, we will commit to further study of the matter.

Disclosure regarding measurement and assessment of Human Rights performance

Analogous to the proposal's request for details regarding training, this shareholder proposal also requests details concerning the measurement and assessment of GEO's human rights performance. As a general business matter, we do not publicly disclose how we measure and assess our operational performance; however leading third-party accreditation entities like the ACA audit and provide accreditation scores for all of our correctional and detention facilities. We operate each of our facilities in accordance with our company-wide policies and procedures and with the standards and guidelines required under the relevant management contract. For many facilities, the standards and guidelines include those established by the ACA. The ACA is an independent organization of corrections professionals, which establishes correctional facility standards and guidelines that are generally acknowledged as a benchmark by governmental agencies. The most recent ACA audit scores for all of our correctional and detention facilities are available on our website. Additionally, we perform operational and compliance audits that assess our performance with regards to all of our policies and procedures. Our facility management contracts also typically include reporting requirements, supervision and on-site monitoring by representatives of the contracting governmental agencies. Although the intricacies are not publicly disclosed, there are systems in place to ensure our assessment, monitoring and compliance with our Human Rights Policy along with our other policies. When there are areas that need improvement, we take the appropriate steps. Taking into account the standards and guidelines we follow, our operational and compliance audits, our facility contract reporting requirements and the on-site monitoring, we believe there are stringent safeguards in place to measure and assess our human rights performance without divulging proprietary information.

Disclosure regarding steps to mitigate Human Rights risks

We believe a number of actions we have already taken and publicly disclosed mitigate risks relating to human rights. We have adopted our Human Rights Policy and we have informed our stakeholders of its existence, development and implementation. We have and will continue to encourage our stakeholders to report suspected violations of the Human Rights Policy, and we have encouraged dialogue with stakeholders when they raise credible concerns about human rights issues. We have made clear that retaliation against those who raise concerns under our Human Rights Policy will not be tolerated. We have implemented a new training program which is ongoing across all of our domestic facilities. As our Human Rights Policy indicates, we will continue to take steps to evaluate and assess the impact of the Human Rights Policy and refine it as needed to further promote the principles the Human Rights Policy contains. We believe the above actions appropriately mitigate risks relating to human rights.

Disclosure regarding modifications of the policies and practices as necessary, including medical access protocols

Based on this mix of assessment and monitoring, along with feedback from various stakeholders, we regularly take steps to continuously improve all of our policies and procedures, including the implementation of our Human Rights Policy and medical access protocols. As with other publicly disclosed policies, if the GEO Human Rights Policy is modified, GEO will provide the modified policy on its corporate website. Nevertheless, as a general matter, we do not publicly disclose specific operating practices and protocols or modifications to those operating practices and protocols.

Table of Contents

This shareholder proposal requested a report with specific, detailed information. As discussed above, GEO believes that there are appropriate policies, practices and protocols in place, a robust training program in place and systems and controls in place to assess and monitor our performance under the Human Rights Policy. We believe in working with various stakeholders to continue our communications and engagement efforts in the human rights area; however, we must protect proprietary information such as operational policies and procedures. As we have described above, we do believe that there is value in further study of the subject and further engagement with relevant stakeholders to enable us to fully integrate our commitment to respect the human rights of those in our care or monitoring. However, we believe that the reasons discussed above make this shareholder proposal unnecessary, burdensome and duplicative.

For all of these reasons, the board of directors recommends that you vote “**AGAINST**” this proposal. Proxies solicited by the board of directors will be voted against the proposal unless instructed otherwise.
