THE GEO GROUP, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The GEO Group, Inc., a Florida corporation, and subsidiaries (the “Company” or “GEO”) is a fully-integrated real estate investment trust (“REIT”) specializing in the ownership, leasing and management of correctional, detention and reentry facilities and the provision of community-based services and youth services in the United States, Australia, South Africa and the United Kingdom. The Company owns, leases and operates a broad range of correctional and detention facilities including maximum, medium and minimum security prisons, immigration detention centers, minimum security detention centers, as well as community based reentry facilities and offers an expanded delivery of offender rehabilitation services under its ‘GEO Continuum of Care’ platform. The ‘GEO Continuum of Care’ program integrates enhanced in-prison programs, which are evidence-based and include cognitive behavioral treatment and post-release services, provides academic and vocational classes to life skills and treatment programs while helping individuals reintegrate into their communities. The Company develops new facilities based on contract awards, using its project development expertise and experience to design, construct and finance what it believes are state-of-the-art facilities that maximize security and efficiency. The Company provides innovative compliance technologies, industry-leading monitoring services, and evidence-based supervision and treatment programs for community-based parolees, probationers and pretrial defendants. The Company also provides secure transportation services for offender and detainee populations as contracted domestically and in the United Kingdom through its joint venture GEO Amey PECS Ltd. (“GEOAmey”). At June 30, 2017, after its acquisition of Community Education Centers (“CEC”) (Refer to Note 2 – Business Combinations), the Company’s worldwide operations include the management and/or ownership of approximately 100,000 beds at 143 correctional and detention facilities, including idle facilities, projects under development and recently awarded contracts, and also include the provision of community supervision services for more than 185,000 offenders and pretrial defendants, including approximately 100,000 individuals through an array of technology products including radio frequency, GPS, and alcohol monitoring devices.

In March 2017, the Company’s Board of Directors declared a 3-for-2 stock split of its common stock. The stock split was completed on April 24, 2017 with respect to shareholders of record on April 10, 2017. Outstanding share and per-share amounts disclosed for all periods presented have been retroactively adjusted to reflect the effects of the stock split. On April 24, 2017, the Company amended its articles of incorporation to increase the number of authorized shares of common stock to take into effect the stock split.

The Company’s unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q have been prepared in accordance with accounting principles generally accepted in the United States and the instructions to Form 10-Q and consequently do not include all disclosures required by Form 10-K. The accounting policies followed for quarterly financial reporting are the same as those disclosed in the Notes to Consolidated Financial Statements included in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 27, 2017 for the year ended December 31, 2016. The accompanying December 31, 2016 consolidated balance sheet has been derived from those audited financial statements. Additional information may be obtained by referring to the Company’s Form 10-K for the year ended December 31, 2016. In the opinion of management, all adjustments (consisting only of normal recurring items) necessary for a fair presentation of the financial information for the interim periods reported in this Quarterly Report on Form 10-Q have been made. Results of operations for the six months ended June 30, 2017 are not necessarily indicative of the results for the entire year ending December 31, 2017, or for any other future interim or annual periods.

2. BUSINESS COMBINATIONS

Community Education Centers Acquisition

On April 5, 2017, the Company completed its acquisition of CEC, pursuant to a definitive merger agreement entered into on February 12, 2017 between the Company, GEO/DE/MC/01 LLC, and CEC Parent Holdings LLC. CEC is a private provider of rehabilitation services for offenders in reentry and in-prison treatment facilities as well as management services for county, state and federal correctional and detention facilities, CEC's operations encompass over 12,000 beds nationwide. Under the terms of the merger agreement, the Company acquired 100% of the voting interests in CEC for \$354.5 million, net of cash acquired of \$3.0 million, in an all cash transaction, excluding transaction related expenses paid at closing of \$4.1 million. At the time of the acquisition, approximately \$115 million of CEC indebtedness, including accrued interest, was outstanding. All indebtedness of CEC was repaid by the Company with a portion of the \$354.5 million merger consideration. Subsequently, the purchase price was reduced by \$2.6 million as a result of the final working capital target settlement received by the Company in July 2017. Additionally, for tax periods ending on or prior to December 31, 2018, the purchase price may be adjusted for any tax benefits realized by the Company attributable to certain transaction tax deductions if such deductions are able to be taken by the Company and will result in an incremental tax benefit. The Company has estimated a maximum potential adjustment of approximately \$1.9 million but has preliminarily estimated this contingency at zero at the acquisition date. The Company is still reviewing the various tax implications of the acquisition which may impact the ultimate fair value of this contingency.

Purchase price allocation

GEO is identified as the acquiring company for US GAAP accounting purposes. Under the acquisition method of accounting, the purchase price for CEC was allocated to CEC's net tangible and intangible assets based on their estimated fair values as of April 5, 2017, the date of closing and the date that the Company obtained control of CEC. In order to determine the fair values of certain tangible and intangible assets acquired, the Company engaged a third party independent valuation specialist. For all other assets acquired and liabilities assumed, the recorded fair value was determined by the Company's management and represents an estimate of the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

The allocation of the purchase price for this transaction at April 5, 2017 has not been finalized. The primary areas of the preliminary purchase price allocations that are not finalized relate to the fair values of certain tangible assets and liabilities acquired, the valuation of certain intangible assets acquired and income taxes. The Company expects to continue to obtain information to assist in determining the fair value of the net assets acquired at the acquisition date during the measurement period. Measurement period adjustments that the Company determines to be material will be recorded in the reporting period in which the adjustment amounts are determined. The purchase price of \$354.5 million has been preliminarily allocated to the estimated fair values of the assets acquired and liabilities assumed as of April 5, 2017 as follows (in '000's):

[Table of Contents](#)

Preliminary Purchase Price Allocation

Accounts Receivable	\$ 29,936
Prepaid and other current assets	5,032
Property and equipment	126,510
Intangible assets	76,000
Favorable lease assets	3,110
Deferred income tax assets	2,223
Other non-current assets	4,327
Total assets acquired	<u>\$247,138</u>
Accounts payable and accrued expenses	53,800
Unfavorable lease liabilities	1,299
Other non-current liabilities	9,917
Total liabilities assumed	<u>\$ 65,016</u>
Total identifiable net assets	182,122
Goodwill	172,343
Total consideration paid, net of cash acquired	<u>\$354,465</u>

As shown above, the Company recorded \$172.3 million of goodwill related to the purchase of CEC. The strategic benefit of the merger includes the Company's ability to further position itself to meet the demand for increasingly diversified correctional, detention and community reentry facilities and services and will allow the Company to expand the delivery of enhanced in-prison rehabilitation including evidence-based treatment, integrated with post-release support services through GEO's Continuum of Care platform. These factors contributed to the goodwill that was recorded upon consummation of the transaction. The Company does not believe that any of the goodwill recorded as a result of the CEC acquisition will be deductible for federal income tax purposes. Identifiable intangible assets purchased in the acquisition and their weighted average amortization periods in total and by major intangible asset class, as applicable, are included in the table below:

	Weighted Average Useful Life (years)	Fair Value as of April 5, 2017
Facility management contracts	18.3	\$ 75,300
Covenants not to compete	1	700
Total acquired intangible assets		<u>\$ 76,000</u>

Pro forma financial information

The results of operations of CEC are included in the Company's results of operations from April 5, 2017. The following unaudited pro forma information combines the consolidated results of operations of the Company and CEC as if the acquisition had occurred at January 1, 2016, which is the beginning of the earliest period presented. The pro forma amounts are included for comparative purposes and may not necessarily reflect the results of operations that would have resulted had the acquisition been completed at the beginning of the applicable period and may not be indicative of the results that will be attained in the future (in thousands):

	Three Months Ended		Six Months Ended

Pro forma net income attributable to the GEO Group, Inc.	\$ 38,960	\$ 23,999	\$ 80,800	\$ 55,850

Table of Contents

The unaudited pro forma combined financial information presented above is compiled from the financial statements of the combined companies and includes pro forma adjustments for: (i) estimated changes in depreciation expense, interest expense and amortization expense; (ii) adjustments to eliminate intercompany transactions; (iii) adjustments to remove \$7.8 million and \$10.4 million, for the three months and six months ended June 30, 2017, respectively, of non-recurring transaction and merger related costs directly related to the acquisition that are included in the combined companies' financial results; and (iv) the income tax impact of the adjustments. The unaudited pro forma financial information does not include any adjustments to reflect the impact of cost savings or other synergies that may result from this acquisition. As noted above, the unaudited pro forma financial information does not purport to be indicative of the actual results that would have been achieved by the combined companies for the periods presented or that may be achieved by the combined companies in the future.

The Company has included revenue and earnings of \$56.7 million and \$2.6 million, respectively, in its consolidated statements of operations for both the three and six months ended June 30, 2017 for CEC activity since April, 5, 2017, the date of acquisition.

3. GOODWILL AND OTHER INTANGIBLE ASSETS

The Company has recorded goodwill as a result of its business combinations. On April 5, 2017, the Company completed its acquisition of CEC. Refer to Note 2 – Business Combinations. Goodwill is recorded as the difference, if any, between the aggregate consideration paid for an acquisition and the fair value of the tangible assets and intangible assets acquired net of liabilities assumed, including noncontrolling interests. Changes in the Company's goodwill balances from December 31, 2016 to June 30, 2017 are as follows (in thousands):

	December 31, 2016	Acquisitions	Foreign Currency Translation	June 30, 2017
U.S. Corrections & Detention	\$ 277,774	\$ 43,086	\$ —	\$320,860
GEO Care	337,257	129,257	—	466,514
International Services	402	—	27	429
Total Goodwill	<u>\$ 615,433</u>	<u>172,343</u>	<u>\$ 27</u>	<u>\$787,803</u>

The Company has also recorded other finite and indefinite-lived intangible assets as a result of its various business combinations. Refer to Note 2 – Business Combinations for a discussion of the Company's recent acquisition of CEC. The Company's intangible assets include facility management contracts, covenants not to compete, trade names and technology, as follows (in thousands):

	June 30, 2017				December 31, 2016

Amortization expense was \$6.5 million and \$11.6 million for the three and six months ended June 30, 2017, respectively. Amortization expense was \$5.1 million and \$10.2 million for the three and six months ended June 30, 2016, respectively. Amortization expense was primarily related to the U.S. Corrections & Detention and GEO Care segments' amortization of acquired facility management contracts. As of June 30, 2017, the weighted average period before the next contract renewal or extension for the acquired facility management contracts was approximately 1.6 years. Although the facility management contracts acquired have renewal and extension terms in the near term, the Company has historically maintained these relationships beyond the current contractual periods.

Estimated amortization expense related to the Company's finite-lived intangible assets for the remainder of 2017 through 2021 and thereafter is as follows (in thousands):

Fiscal Year	Total Amortization Expense
Remainder of 2017	\$ 13,102
2018	22,821

Table of Contents

The Company's Level 2 financial instruments included in the tables above as of June 30, 2017 and December 31, 2016 consist of interest rate swap derivative liabilities and interest rate cap derivative assets held by the Company's Australian subsidiary, the Company's rabbi trust established for GEO employee and employer contributions to The GEO Group, Inc. Non-qualified Deferred Compensation Plan and an investment in Canadian dollar denominated fixed income securities. The balance of the interest rate cap derivative assets at June 30, 2017 was not significant.

The Australian subsidiary's interest rate swap derivative liabilities and interest rate cap derivative assets are valued using a discounted cash flow model based on projected Australian borrowing rates. The Company's restricted investment in the rabbi trust is invested in Company owned life insurance policies which are recorded at their cash surrender values. These investments are valued based on the underlying investments held in the policies' separate account. The underlying assets are equity and fixed income pooled funds that are comprised of Level 1 and Level 2 securities. The Canadian dollar denominated securities, not actively traded, are valued using quoted rates for these and similar securities.

The fair values of the Company's cash and cash equivalents, and restricted cash approximates the carrying values of these assets at June 30, 2017 and December 31, 2016. Restricted cash consists of money market funds, bank deposits, commercial paper and time deposits used for asset replacement funds contractually required to be maintained at the Company's Australian subsidiary and contractual commitments related to the design and construction of a new facility in Ravenhall Australia. The fair value of the money market funds and bank deposits is based on quoted market prices (Level 1) and the fair value of commercial paper and time deposits is based on market prices for similar instruments (Level 2).

Table of Contents

The fair values of the Company's 5.875% senior unsecured notes due 2022 ("5.875% Senior Notes due 2022"), 5.875% senior unsecured notes due 2024 ("5.875% Senior Notes due 2024"), 6.00% senior unsecured notes due 2026 ("6.00% Senior Notes"), and the 5.125% senior unsecured notes due 2023 ("5.125% Senior Notes"), although not actively traded, are based on published financial data for these instruments. The fair values of the Company's non-recourse debt related to the Washington Economic Development Finance Authority ("WEDFA") is based on market prices for similar instruments. The fair value of the non-recourse debt related to the Company's Australian subsidiary is estimated based on market prices of similar instruments. The fair value of borrowings under the senior credit facility is based on an estimate of trading value considering the Company's borrowing rate, the undrawn spread and similar instruments.

REIT Distributions

As a REIT, GEO is required to distribute annually at least 90% of its REIT taxable income (determined without regard to the dividends paid deduction and by excluding net capital gain) and began paying regular quarterly REIT dividends in 2013. The amount, timing and frequency of future dividends, however, will be at the sole discretion of GEO's Board of Directors (the "Board") and will be declared based upon various factors, many of which are beyond GEO's control, including, GEO's financial condition and operating cash flows, the amount required to maintain REIT status, limitations on distributions in GEO's existing and future debt instruments, limitations on GEO's ability to fund distributions using cash generated through GEO's taxable REIT subsidiaries ("TRSs") and other factors that GEO's Board may deem relevant.

Table of Contents

During the six months ended June 30, 2017 and the year ended December 31, 2016, respectively, GEO declared and paid the following regular cash distributions to its shareholders as follows:

<u>Declaration Date</u>	<u>Record Date</u>	<u>Payment Date</u>	<u>Distribution Per Share</u>	<u>Aggregate Payment Amount (in millions)</u>

Common Stock Offering

On March 7, 2017, the Company entered into an underwriting agreement related to the issuance and sale of 9,000,000 shares of common stock, par value \$.01 per share, of the Company. The offering price to the public was \$27.80 per share and the underwriters agreed to purchase the shares from the Company pursuant to the underwriting agreement at a price of \$26.70 per share. In addition, under the terms of the underwriting agreement, the Company granted the underwriters an option, exercisable for 30 days, to purchase up to an additional 1,350,000 shares of common stock. On March 8, 2017, the underwriters exercised in full their option to purchase the additional 1,350,000 shares of common stock. On March 13, 2017, the Company announced that it had completed the sale of 10,350,000 shares of common stock with its previously announced underwritten public offering. GEO received gross proceeds (before underwriting discounts and estimated offering expenses) of approximately \$288.1 million from the offering, including approximately \$37.6 million in connection with the sale of the additional shares. Fees paid in connection with the offering were not significant and have been netted against additional paid-in capital. The 10,350,000 shares of common stock were issued under GEO's currently effective shelf registration filed with the Securities and Exchange Commission. The net proceeds of this offering were used to repay amounts outstanding under the revolver portion of the Company's senior credit facility and for general corporate purposes. The number of shares and per-share amounts herein have been adjusted to reflect the effects of the stock split. Refer to Note 1 – Basis of Presentation

Prospectus Supplement

In September 2014, the Company filed with the Securities and Exchange Commission an automatic shelf registration statement on Form S-3. On November 10, 2014, in connection with the shelf registration, the Company filed with the Securities and Exchange Commission a prospectus supplement related to the offer and sale from time to time of the Company's common stock at an aggregate offering price of up to \$150.0 million through sales agents. Sales of shares of the Company's common stock under the prospectus supplement and the equity distribution agreements entered into with the sales agents, if any, may be made in negotiated transactions or transactions that are deemed to be "at the market" offerings as defined in Rule 415 under the Securities Act of 1933. There were no shares of common stock sold under this prospectus supplement during the six months ended June 30, 2017 or during the year ended December 31, 2016.

Comprehensive Income (Loss)

Comprehensive income (loss) represents the change in shareholders' equity from transactions and other events and circumstances arising from non-shareholder sources. The Company's total comprehensive income (loss) is comprised of net income attributable to GEO, net income attributable to noncontrolling interests, foreign currency translation adjustments that arise from consolidating foreign operations that do not impact cash flows, net unrealized gains and/or losses on derivative instruments, and pension liability adjustments within shareholders' equity and comprehensive income (loss).

Table of Contents

The components of accumulated other comprehensive income (loss) attributable to GEO within shareholders' equity are as follows:

	Six Months Ended June 30, 2017 (In thousands)			
	Foreign currency translation adjustments, net of tax attributable to The GEO Group, Inc. (1)	Unrealized (loss)/gain on derivatives, net of tax	Pension adjustments, net of tax	Total

(1) The foreign currency translation related to noncontrolling interests was not significant at June 30, 2017 or December 31, 2016.

7. EQUITY INCENTIVE PLANS

The Board has adopted The GEO Group, Inc. 2014 Stock Incentive Plan (the "2014 Plan"), which was approved by the Company's shareholders on May 2, 2014. The 2014 Plan replaced the 2006 Stock Incentive Plan (the "2006 Plan"). As of the date the 2014 Plan was adopted, it provided for a reserve of 4,625,030 shares, which consisted of 3,000,000 new shares of common stock available for issuance and 1,625,030 shares of common stock that were available for issuance under the 2006 Plan prior to the 2014 Plan replacing it adjusted to reflect the effects of the stock split. The Company filed a Form S-8 registration statement related to the 2014 Plan on June 4, 2014, which was amended on July 18, 2014.

Outstanding share and per-share amounts disclosed for all periods presented have been retroactively adjusted to reflect the effects of the stock split. Refer to Note 1 – Basis of Presentation.

Stock Options

The Company uses a Black-Scholes option valuation model to estimate the fair value of each time based or performance based option awarded. For options granted during the six months ended June 30, 2017, the fair value was estimated using the following assumptions: (i) volatility of 35.72%; (ii) expected term of 5.00 years; (iii) risk free interest rate of 1.53%; and (iv) expected dividend yield of 5.79%. A summary of the activity of stock option awards issued and outstanding under Company plans is as follows for the six months ended June 30, 2017:

	Shares (in thousands)	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term (years)	Aggregate Intrinsic Value (in thousands)
Options outstanding at December 31, 2016	1,211	\$ 20.65	7.14	\$ 5,466
Options granted	461	32.27

Options outstanding at June 30, 2017	<u>1,341</u>	\$ 24.76	7.81	\$ 7,675
Options vested and expected to vest at June 30, 2017	<u>661</u>	\$ 24.52	7.71	\$ 7,373
Options exercisable at June 30, 2017	<u>585</u>	\$ 21.53	6.44	\$ 4,946

Table of Contents

During the six months ended June 30, 2017, the Company granted approximately 461,000 options to certain employees which had a weighted-average grant-date fair value of \$5.91 per share. For the six months ended June 30, 2017 and June 30, 2016, the amount of stock-based compensation expense related to stock options was \$0.9 million and \$0.3 million, respectively. As of June 30, 2017, the Company had \$2.2 million of unrecognized compensation costs related to non-vested stock option awards that are expected to be recognized over a weighted average period of 3.4 years.

Restricted Stock

Compensation expense for nonvested stock awards is recorded over the vesting period based on the fair value at the date of grant. Generally, the restricted stock awards vest in equal increments over either a three or four-year period. The fair value of restricted stock awards, which do not contain a market-based vesting condition, is determined using the closing price of the Company's common stock on the date of grant. The Company has issued share-based awards with service-based, performance-based and market-based vesting criteria.

A summary of the activity of restricted stock outstanding is as follows for the six months ended June 30, 2017:

	<u>Shares</u> <u>(in thousands)</u>	<u>Wtd. Avg.</u> <u>Grant Date</u> <u>Fair Value</u>
Restricted stock outstanding at December 31, 2016	1,346	\$ 24.37
Granted	924	35.40
Vested	(435)	23.16
Forfeited/canceled	(27)	24.42
Restricted stock outstanding at June 30, 2017	<u>1,808</u>	<u>\$ 30.44</u>

During the six months ended June 30, 2017, the Company granted approximately 924,000 shares of restricted stock to certain employees and executive officers. Of these awards, 295,000 are market and performance-based awards which will be forfeited if the Company does not achieve certain annual metrics during 2017, 2018 and 2019.

The vesting of these performance-based restricted stock grants are subject to the achievement by GEO of two annual performance metrics as follows: (i) up to 50% of the shares of restricted stock ("TSR Target Award") can vest at the end of a three year performance period if GEO meets certain total shareholder return ("TSR") performance targets, as compared to the total shareholder return of a peer group of companies, over a three year period from January 1, 2017 to December 31, 2019 and (ii) up to 50% of the shares of restricted stock ("ROCE Target Award") can vest at the end of a three year period if GEO meets certain return on capital employed ("ROCE") performance targets over a three year period from January 1, 2017 to December 31, 2019. These market and performance awards can vest at between 0% and 200% of the target awards for both metrics. The number of shares shown for the performance-based awards is based on the target awards for both metrics.

The metric related to ROCE is considered to be a performance condition. For share-based awards that contain a performance condition, the achievement of the targets must be probable before any share-based compensation expense is recorded. The Company reviews the likelihood of which the target in the range will be achieved and if deemed probable, compensation expense is recorded at that time. If subsequent to initial measurement there is a change in the estimate of the probability of meeting the performance condition, the effect of the change in the estimated quantity of awards expected to vest is recognized by cumulatively adjusting compensation expense. If ultimately the performance targets are not met, for any awards where vesting was previously deemed probable, previously recognized compensation expense will be reversed in the period in which vesting is no longer deemed probable. The fair value of these awards was determined based on the closing price of the Company's common stock on the date of grant.

The metric related to TSR is considered to be a market condition. For share-based awards that contain a market condition, the probability of satisfying the market condition must be considered in the estimate of grant-date fair value and previously recorded compensation expense is not reversed if the market condition is never met. The fair value of these awards was determined based on a Monte Carlo simulation, which calculates a range of possible outcomes and the probabilities that they will occur, using the following average key assumptions: (i) volatility of 42.2%; (ii) beta of 1.11; and (iii) risk free rates of 1.46%.

Table of Contents

For the six months ended June 30, 2017 and June 30, 2016, the Company recognized \$9.1 million and \$6.1 million, respectively, of compensation expense related to its restricted stock awards. As of June 30, 2017, the Company had \$41.6 million of unrecognized compensation costs related to non-vested restricted stock awards, including non-vested restricted stock awards with performance-based and market-based vesting, that are expected to be recognized over a weighted average period of 2.9 years.

Employee Stock Purchase Plan

The Company previously adopted The GEO Group Inc. 2011 Employee Stock Purchase Plan (the “Plan”) which was approved by the Company’s shareholders. The purpose of the Plan, which is qualified under Section 423 of the Internal Revenue Service Code of 1986, as amended, is to encourage stock ownership through payroll deductions by the employees of GEO and designated subsidiaries of GEO in order to increase their identification with the Company’s goals and secure a proprietary interest in the Company’s success. These deductions are used to purchase shares of the Company’s common stock at a 5% discount from the then current market price. The Company has made available up to 750,000, as split adjusted, shares of its common stock, which were registered with the Securities and Exchange Commission on May 4, 2012, as amended on July 18, 2014, for sale to eligible employees under the Plan.

The Plan is considered to be non-compensatory. As such, there is no compensation expense required to be recognized. Share purchases under the Plan are made on the last day of each month. During the six months ended June 30, 2017, 4,060 shares of the Company’s common stock were issued in connection with the Plan.

8. EARNINGS PER SHARE

Basic earnings per common share is computed by dividing the net income from continuing operations attributable to The GEO Group, Inc. by the weighted average number of outstanding shares of common stock. The calculation of diluted earnings per share is similar to that of basic earnings per share except that the denominator includes dilutive common stock equivalents such as stock options and shares of restricted stock. Basic and diluted earnings per share were calculated for the three and six months ended June 30, 2017 and 2016 as follows (in thousands, except per share data):

	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>June 30,</u> <u>2017</u>	<u>June 30,</u> <u>2016</u>	<u>June 30,</u> <u>2017</u>	<u>June 30,</u> <u>2016</u>

Outstanding share and per-share amounts disclosed for all periods presented have been retroactively adjusted to reflect the effects of the stock split.

Three Months

For the three months ended June 30, 2017, 486,018 weighted average shares of common stock underlying options were excluded from the computation of diluted earnings per share ("EPS") because the effect would be anti-dilutive. There were 175,385 common stock equivalents from restricted shares that were anti-dilutive.

For the three months ended June 30, 2016, 383,195 weighted average shares of common stock underlying options were excluded from the computation of diluted EPS because the effect would be anti-dilutive. There were 267,861 common stock equivalents from restricted shares that were anti-dilutive.

Six Months

For the six months ended June 30, 2017, 561,129 weighted average shares of common stock underlying options were excluded from the computation of diluted EPS because the effect would be anti-dilutive. There were 554,201 common stock equivalents from restricted shares that were anti-dilutive.

For the six months ended June 30, 2016, 814,647 weighted average shares of common stock underlying options were excluded from the computation of diluted EPS because the effect would be anti-dilutive. There were 397,634 common stock equivalents from restricted shares that were anti-dilutive.

9. DERIVATIVE FINANCIAL INSTRUMENTS

The Company's primary objective in holding derivatives is to reduce the volatility of earnings and cash flows associated with changes in interest rates. The Company measures its derivative financial instruments at fair value.

Australia – Fulham

The Company's Australian subsidiary is a party to an interest rate swap agreement to fix the interest rate on its variable rate non-recourse debt (related to its Fulham facility) to 9.7%. The Company had determined the swap's payment and expiration dates, and call provisions that coincided with the terms of the non-recourse debt, to be an effective cash flow hedge. Accordingly, the Company recorded the change in the fair value of the interest rate swap in accumulated other comprehensive income, net of applicable income taxes. Total unrealized gains recorded in other comprehensive income, net of tax, related to this cash flow hedge were not significant for the six months ended June 30, 2017 and 2016. The associated non-recourse debt was paid off during the six months ended June 30, 2017 and the interest rate swap is no longer in existence as of June 30, 2017.

Australia – Ravenhall

The Company's Australian subsidiary has entered into interest rate swap agreements to fix the interest rate on its variable rate non-recourse debt related to a prison project in Ravenhall, a locality near Melbourne, Australia to 3.3% during the design and construction phase and 4.2% during the project's operating phase. The swaps' notional amounts coincide with construction draw fixed commitments throughout the project. At June 30, 2017, the swaps had a notional amount of approximately AUD 671 million, or \$516 million, based on exchange rates at June 30, 2017, related to the outstanding draws for the design and construction phase and approximately AUD 466 million, or \$358 million, based on exchange rates at June 30, 2017 related to future construction draws. At the onset, the Company had determined that the swaps have payment, expiration dates, and provisions that coincide with the terms of the non-recourse debt scheduled construction draw commitments and were therefore considered to be effective cash flow hedges. During 2017, certain of the critical terms of the swap agreements no longer coincided with the scheduled construction draw commitments. However, the swaps are still considered to be highly effective and the measurement of any ineffectiveness was not significant during the six months ended June 30, 2017. Accordingly, the Company records the change in the fair value of the interest rate swaps in accumulated other comprehensive income, net of applicable income taxes. Total unrealized gain recorded in other comprehensive income, net of tax, related to this cash flow hedge was \$0.8 million during the six months ended June 30, 2017. The total fair value of the swap liability as of June 30, 2017 was \$17.7 million and is recorded as a component of Other Non-Current liabilities within the accompanying consolidated balance sheet. There was no material ineffectiveness for the periods presented. The Company does not expect to enter into any transactions during the next twelve months which would result in the reclassification into earnings or losses associated with these swaps currently reported in accumulated other comprehensive income (loss).

Additionally, upon completion and commercial acceptance of the prison project, the Department of Justice in the State of Victoria (the "State") in accordance with the prison contract, will make a lump sum payment of AUD 310 million, or approximately \$238 million, based on exchange rates at June 30, 2017, towards a portion of the outstanding principal of the non-recourse debt. The Company's Australian subsidiary also entered into interest rate cap agreements giving the Company the option to cap the interest rate on its variable non-recourse debt related to the project in the event that the completion of the prison project is delayed which could delay the State's payment. These instruments do not meet the requirements for hedge accounting, and therefore, changes in fair value of the interest rate caps are recorded in earnings. Total losses related to a decrease in the fair value of the interest rate cap assets were not significant during the six months ended June 30, 2017 or 2016. The total fair value of the interest rate cap assets was not significant as of June 30, 2017 and December 31, 2016, respectively, and is recorded as a component of other non-current assets within the accompanying consolidated balance sheets.

Amended Credit Agreement

On March 23, 2017, the Company executed a third amended and restated credit agreement by and among The GEO Group, Inc. and GEO Corrections Holdings, Inc., (“Corrections” and, together with The GEO Group, Inc., the “Borrowers”), the Australian Borrowers named therein, BNP Paribas, as Administrative Agent, and the lenders who are, or may from time to time become, a party thereto (the “Credit Agreement”). The Credit Agreement refinances GEO’s prior \$291.0 million term loan, reestablishes GEO’s ability to implement at a later date an Australian Dollar Letter of Credit Facility (the “Australian LC Facility”) providing for the issuance of financial letters of credit and performance letters of credit, in each case denominated in Australian Dollars up to AUD275 million, an increase from the prior AUD225 million Australian LC Facility, and certain other modifications to the prior credit agreement. Loan costs of approximately \$7.0 million were incurred and capitalized in connection with the transaction.

Table of Contents

The Credit Agreement evidences a credit facility (the “Credit Facility”) consisting of an \$800 million term loan (the “Term Loan”) bearing interest at LIBOR plus 2.25% (with a LIBOR floor of 0.75%), and a \$900 million revolving credit facility (the “Revolver”) initially bearing interest at LIBOR plus 2.25% (with no LIBOR floor) together with AUD275 million available solely for the issuance of financial letters of credit and performance letters of credit, in each case denominated in Australian Dollars under the Australian LC Facility. As of June 30, 2017, there were no letters of credit issued under the Australian LC Facility. Amounts to be borrowed by GEO under the Credit Agreement are subject to the satisfaction of customary conditions to borrowing. The Term Loan component is scheduled to mature on March 23, 2024. The revolving credit commitment component is scheduled to mature on May 19, 2021; provided, that if on October 3, 2019 both the maturity dates of all term loans and incremental term loans have not been extended to a date that is 5 ½ years after March 23, 2017 or a later date, and the senior secured leverage ratio exceeds 2.50 to 1.00, then the termination date will be October 3, 2019. The Credit Agreement also has an accordion feature of \$450.0 million, subject to lender demand and prevailing market conditions and satisfying the relevant borrowing conditions.

The Credit Agreement contains certain customary representations and warranties, and certain customary covenants that restrict GEO’s ability to, among other things (i) create, incur or assume any indebtedness, (ii) create, incur, assume or permit liens, (iii) make loans and investments, (iv) engage in mergers, acquisitions and asset sales, (v) make certain restricted payments, (vi) issue, sell or otherwise dispose of capital stock, (vii) engage in transactions with affiliates, (viii) allow the total leverage ratio to exceed 6.25 to 1.00, allow the senior secured leverage ratio to exceed 3.50 to 1.00, or allow the interest coverage ratio to be less than 3.00 to 1.00, (ix) cancel, forgive, make any voluntary or optional payment or prepayment on, or redeem or acquire for value any senior notes, except as permitted, (x) alter the business GEO conducts, and (xi) materially impair GEO’s lenders’ security interests in the collateral for its loans.

Events of default under the Credit Agreement include, but are not limited to, (i) GEO’s failure to pay principal or interest when due, (ii) GEO’s material breach of any representation or warranty, (iii) covenant defaults, (iv) liquidation, reorganization or other relief relating to bankruptcy or insolvency, (v) cross default under certain other material indebtedness, (vi) unsatisfied final judgments over a specified threshold, (vii) certain material environmental liability claims asserted against GEO, and (viii) a change in control.

All of the obligations under the Credit Agreement are unconditionally guaranteed by certain domestic subsidiaries of GEO and the Credit Agreement and the related guarantees are secured by a perfected first-priority pledge of substantially all of GEO’s present and future tangible and intangible domestic assets and all present and future tangible and intangible domestic assets of each guarantor, including but not limited to a first-priority pledge of all of the outstanding capital stock owned by GEO and each guarantor in their domestic subsidiaries.

The Australian Borrowers are wholly owned foreign subsidiaries of GEO. GEO has designated each of the Australian Borrowers as restricted subsidiaries under the Credit Agreement. However, the Australian Borrowers are not obligated to pay or perform any obligations under the Credit Agreement other than their own obligations as Australian Borrowers under the Credit Agreement. The Australian Borrowers do not pledge any of their assets to secure any obligations under the Credit Agreement.

On August 18, 2016, the Company executed a Letter of Offer by and among GEO and HSBC Bank Australia Limited (the “Letter of Offer”) providing for a bank guarantee line and bank guarantee/standby sub-facility in an aggregate amount of AUD100 million, or \$76.9 million, based on exchange rates in effect as of June 30, 2017 (collectively, the “Bank Guarantee Facility”). The Bank Guarantee Facility allows GEO to provide letters of credit to assure performance of certain obligations of its wholly owned subsidiary relating to its prison project in Ravenhall, located near Melbourne, Australia. The Bank Guarantee Facility is unsecured. The issuance of letters of credit under the Bank Guarantee Facility is subject to the satisfaction of the conditions precedent specified in the Letter of Offer. Letters of credit issued under the bank guarantee lines are due on demand and letters of credit issued under the bank guarantee/standby sub-facility cannot have a duration exceeding twelve months. The Bank Guarantee Facility may be terminated by HSBC on 90 days written notice. As of June 30, 2017, there was AUD100 million in letters of credit issued under the Bank Guarantee Facility.

Table of Contents

As of June 30, 2017, the Company had \$798 million in aggregate borrowings outstanding under the Term Loan, \$194 million in borrowings under the Revolver, and approximately \$64 million in letters of credit which left \$642 million in additional borrowing capacity under the Revolver. The weighted average interest rate on outstanding borrowings under the Credit Agreement as of June 30, 2017 was 3.4%.

Non-Recourse Debt

Northwest Detention Center

The remaining balance of the original debt service requirement under the \$54.4 million note payable (“2011 Revenue Bonds”) to WEDFA will mature in October 2021 with fixed coupon rates of 5.25%, is \$36.7 million, of which \$6.7 million is classified as current in the accompanying consolidated balance sheet as of June 30, 2017. The payment of principal and interest on the 2011 Revenue Bonds issued by WEDFA is non-recourse to GEO.

Table of Contents

As of June 30, 2017, included in current restricted cash and investments is \$8.0 million of funds held in trust for debt service and other reserves with respect to the above mentioned note payable to WEDFA.

Australia – Fulham

At December 31, 2016, the non-recourse obligation of the Company totaled \$2.8 million (AUD 3.6 million), based on the exchange rates in effect at December 31, 2016. The term of the non-recourse debt was through 2017 and it bore interest at a variable rate quoted by certain Australian banks plus 140 basis points. Any obligations or liabilities of the subsidiary were matched by a similar or corresponding commitment from the government of the State of Victoria. During the six months ended June 30, 2017, the remaining balance was paid in full.

Australia – Ravenhall

In connection with a new design and build prison project agreement with the State, the Company entered into a syndicated facility agreement (the “Construction Facility”) with National Australia Bank Limited to provide debt financing for construction of the project. The Construction Facility provides for non-recourse funding up to AUD 791.0 million, or approximately \$608.0 million, based on exchange rates as of June 30, 2017. Construction draws are funded throughout the project according to a fixed utilization schedule as defined in the syndicated facility agreement. The term of the Construction Facility is through October 2019 and bears interest at a variable rate quoted by certain Australian banks plus 200 basis points. The project is being developed under a public-private partnership financing structure with a capital contribution from the Company, which was made in January 2017, of approximately AUD115 million, or \$88.4 million, based on exchange rates as of June 30, 2017. After October 2019, the Construction Facility will be converted to a term loan with payments due quarterly beginning in 2019 through 2041. In accordance with the terms of the Construction Facility, upon completion and commercial acceptance of the prison, in accordance with the prison contract, the State will make a lump sum payment of AUD310 million, or approximately \$238 million, based on exchange rates as of June 30, 2017, towards a portion of the outstanding principal. The remaining outstanding principal balance will be repaid over the term of the operating agreement. As of June 30, 2017, approximately \$508 million was outstanding under the Construction Facility. The Company also entered into interest rate swap and interest rate cap agreements related to its non-recourse debt in connection with the project. Refer to Note 9 – Derivative Financial Instruments.

Guarantees

Australia

The Company has entered into certain guarantees in connection with the financing and construction performance of a facility in Australia. The obligations amounted to approximately AUD 100.0 million, or \$76.9 million, based on exchange rates as of June 30, 2017. These guarantees are secured by outstanding letters of credit under the Company’s Revolver as of June 30, 2017.

At June 30, 2017, the Company also had ten other letters of credit outstanding under separate international facilities relating to performance guarantees of its Australian subsidiary totaling \$15.6 million.

South Africa

In connection with the creation of South African Custodial Services Pty. Limited (“SACS”), the Company entered into certain guarantees related to the financing, construction and operation of the prison. As of June 30, 2017, the Company guaranteed obligations amounting to 7.4 million South African Rand, or \$0.6 million based on exchange rates as of June 30, 2017. In the event SACS is unable to maintain the required funding in a rectification account maintained for the payment of certain costs in the event of contract termination, a previously existing guarantee by the Company for the shortfall will need to be re-instated. The remaining guarantee of 7.4 million South African Rand is secured by outstanding letters of credit under the Company’s Revolver as of June 30, 2017.

Table of Contents

In addition to the above, the Company has also agreed to provide a loan, if required, of up to 20 million South African Rand, or \$1.5 million based on exchange rates as of June 30, 2017, referred to as the Shareholder's Loan, to SACS for the purpose of financing SACS' obligations under its contract with the South African government. No amounts have been funded under the standby facility, and the Company does not currently anticipate that such funding will be required by SACS in the future. The Company's obligations under the Shareholder's Loan expire upon the earlier of full funding or SACS's release from its obligations under its debt agreements. SACS' ability to draw on the Shareholder's Loan is limited to certain circumstances, including termination of the contract.

The Company has also guaranteed certain obligations of SACS to the security trustee for SACS' lenders. The Company secured its guarantee to the security trustee by ceding its rights to claims against SACS in respect of any loans or other finance agreements, and by pledging the Company's shares in SACS. The Company's liability under the guarantee is limited to the cession and pledge of shares. The guarantee expires upon expiration of the cession and pledge agreements.

Canada

In connection with a design, build, finance and maintenance contract for a facility in Canada, the Company guaranteed certain potential tax obligations of a trust. The potential estimated exposure of these obligations is Canadian Dollar 1.4 million, or \$1.1 million, based on exchange rates as of June 30, 2017, commencing in 2017. The liability related to this exposure is included in Other Non-Current Liabilities as of June 30, 2017 and December 31, 2016, respectively. To secure this guarantee, the Company purchased Canadian Dollar denominated securities with maturities matched to the estimated tax obligations in 2017 to 2021. The Company has recorded an asset equal to the current fair value of those securities included in Other Non-Current Assets as of June 30, 2017 and December 31, 2016 on its consolidated balance sheets. The Company maintains the facility but does not currently operate or manage it.

United Kingdom

In connection with the creation of GEOAmev, the Company and its joint venture partner guarantee the availability of working capital in equal proportion to ensure that GEOAmev can comply with current and future contractual commitments related to the performance of its operations. The Company and the 50% joint venture partner have each extended a £12 million line of credit, or \$15.6 million, based on exchange rates as of June 30, 2017, of which £2.5 million, or \$3.3 million, based on exchange rates as of June 30, 2017, was outstanding as of June 30, 2017 to each joint venture partner. The Company's maximum exposure relative to the joint venture is its note receivable of approximately \$3.3 million, which is included in Other Non-Current Assets in the accompanying consolidated balance sheets, and future financial support necessary to guarantee performance under the contract.

Except as discussed above, the Company does not have any off balance sheet arrangements.

11. COMMITMENTS, CONTINGENCIES AND OTHER

Litigation, Claims and Assessments

On August 25, 2016, a purported shareholder class action lawsuit was filed against the Company, its Chief Executive Officer, George C. Zoley ("Mr. Zoley"), and its Chief Financial Officer, Brian R. Evans ("Mr. Evans"), in the United States District Court for the Southern District of Florida. The complaint alleged that the Company and Messrs. Zoley and Evans made false and misleading statements regarding the Company's business, operational and compliance policies. The lawsuit alleged that it was brought by John J. Mulvaney individually and on behalf of a class consisting of all persons other than the defendants who purchased or otherwise acquired the Company's securities during the alleged class period between March 1, 2012 through and including August 17, 2016. The complaint alleged that the Company and Messrs. Zoley and Evans violated Section 10(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Rule 10b-5 promulgated thereunder, and alleged that Messrs. Zoley and Evans violated Section 20(a) of the Exchange Act. On December 21, 2016, the appointed lead plaintiffs filed an Amended Class Action Complaint, which reasserted the claims against the Company and Messrs. Zoley and Evans, and asserted new claims for alleged false and misleading statements in violation of Section 20(a) of the Exchange Act against the Company's former Senior Vice President, GEO Detention & Corrections Services, John Hurley ("Mr. Hurley") and the Company's Senior Vice President and President, GEO Corrections & Detention, David Donahue ("Mr. Donahue"). The amended complaint sought damages, interest, attorneys' fees, expert fees, other costs, and such other relief as the court may deem proper. On February 23, 2017, the Court entered an order granting the Company's motion to dismiss the Amended Class Action Complaint. On March 17, 2017, the case was dismissed with prejudice and resulted in no liability to the Company.

On February 8, 2017, the Attorney General of the State of Mississippi filed a lawsuit in the Circuit Court for the First Judicial District of Hinds County, Mississippi against the Company, Cornell Companies, Inc., a subsidiary of the Company, Christopher B. Epps, the former Commissioner of the Mississippi Department of Corrections, and Cecil McCrory, a former consultant of the Company. The complaint alleges several statutory and common law claims, including violations of various public servant statutes, racketeering activity, antitrust law, civil conspiracy, unjust enrichment and fraud. The complaint seeks compensatory damages, punitive damages, exemplary damages, forfeiture of all money received by the defendants, restitution, interest, attorneys' fees, other costs, and such other expenses or damages as the court may deem proper. The complaint claims that between 2007 and 2014, the Company and Cornell Companies, Inc. received approximately \$256 million in proceeds from public contracts paid for by the State of Mississippi. The Company intends to take all necessary steps to vigorously defend itself and Cornell Companies, Inc. The Company has not recorded an accrual relating to this matter at this time, as a loss is not considered probable nor reasonably estimable at this preliminary stage of the lawsuit.

On October 22, 2014, nine current and former civil immigration detainees who were detained at the Aurora Immigration Detention Center filed a purported class action lawsuit against the Company in the United States District Court for the District of Colorado (the "Court"). The complaint alleged that the Company was in violation of the Colorado Minimum Wages of Workers Act and the Trafficking Victims Protection Act, and claimed that the Company was unjustly enriched as a result of the level of payment that the detainees received for work performed at the facility, even though the voluntary work program as well as the wage rates and standards associated with the program that are at issue in this case are authorized by the Federal government under guidelines approved by the United States Congress. On July 6, 2015, the Court granted the Company's motion to dismiss the claim against the Company under the Colorado Minimum Wages of Workers Act but otherwise denied the Company's motion to dismiss. On February 27, 2017, the Court granted the plaintiffs' motion for class certification. The Court ordered the parties to file a revised Proposed Stipulated Scheduling and Discovery Order by March 27, 2017 to proceed with the case. On March 13, 2017, GEO filed for permission to appeal this class certification order directly to the 10th Circuit Court of Appeal. On April 11, 2017, the 10th Circuit Court of Appeal granted GEO's petition to hear the case. As a result, GEO has filed a motion to stay the proceedings in the trial court. Fact discovery in the case has not yet begun. The plaintiffs seek actual damages, compensatory damages, exemplary damages, punitive damages, restitution, attorneys' fees and costs, and such other relief as the Court may deem proper. The Company intends to take all necessary steps to vigorously defend itself and has consistently refuted the allegations and claims in the lawsuit. The Company has not recorded an accrual relating to this matter at this time, as a loss is not considered probable nor reasonably estimable at this state of the lawsuit. If the Company had to change the level of compensation under the voluntary work program, or to substitute employee work for voluntary work, this could increase costs of operating these facilities.

The nature of the Company's business exposes it to various types of third-party legal claims or litigation against the Company, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, product liability claims, intellectual property infringement claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, indemnification claims by its customers and other third parties, contractual claims and claims for personal injury or other damages resulting from contact with the Company's facilities, programs, electronic monitoring products, personnel or prisoners, including damages arising from a prisoner's escape or from a disturbance or riot at a facility. The Company does not expect the outcome of any pending claims or legal proceedings to have a material adverse effect on its financial condition, results of operations or cash flows.

Other Assessment

A recently completed state non-income tax audit included tax periods for which a state tax authority had a number of years ago processed a substantial tax refund. At the completion of the audit fieldwork, the Company received a notice of audit findings disallowing deductions that were previously claimed by the Company, approved by the state tax authority and served as the basis for the approved refund claim. In early January 2017, the Company received a formal Notice of Assessment of Taxes and Demand for Payment from the taxing authority disallowing the deductions. The total tax, penalty and interest assessed is approximately \$19.6 million. The Company has filed an administrative protest and disagrees with the assessment and intends to take all necessary steps to vigorously defend its position. The Company has established a reserve based on its estimate of the most probable loss based on the facts and circumstances known to date and the advice of outside counsel in connection with this matter.

Commitments

The Company currently has contractual commitments for a number of projects using Company financing. The Company's management estimates that the cost of these existing capital projects will be approximately \$196.3 million of which \$46.8 million was spent through the first six months of 2017. The Company estimates the remaining capital requirements related to these capital projects will be \$149.5 million which will be spent through 2018.

Idle Facilities

As of June 30, 2017, the Company is marketing approximately 6,600 vacant beds at six of its idle facilities to potential customers. The carrying values of these idle facilities, which are included in Property and Equipment, Net in the accompanying consolidated balance sheets, totaled \$164.2 million as of June 30, 2017, excluding equipment and other assets that can be easily transferred for use at other facilities. There was no indication of impairment related to the Company's idle facilities at June 30, 2017.

- (1) In September 2014, the Company began the design and construction of a new prison contract located in Ravenhall, a locality near Melbourne, Australia. During the design and construction phase, the Company recognizes revenue as earned on a percentage of completion basis measured by the percentage of costs incurred to date as compared to estimated total costs for the design and construction of the facility. Costs incurred and estimated earnings in excess of billings is classified as Contract Receivable in the accompanying consolidated balance sheets and is recorded at the net present value based on the timing of expected future settlement. A portion of the Contract Receivable will be paid by the State upon commercial acceptance of the prison and the remainder will be paid quarterly over the life of the contract. During the three months ending June 30, 2017, the Company became aware of certain claims by its construction subcontractor for unanticipated additional costs which are in excess of the agreed contract price. The Company has agreed in principle with the subcontractor to pay approximately \$1.9 million related to these overruns and has recorded a provision for loss related to these claims during the three months ended June 30, 2017.

Pre-Tax Income Reconciliation of Segments

The following is a reconciliation of the Company's total operating income from its reportable segments to the Company's income before income taxes and equity in earnings of affiliates (in thousands):

Equity in Earnings of Affiliates

Equity in earnings of affiliates includes the Company's 50% owned joint ventures in SACS, located in South Africa, and GEOAmey, located in the United Kingdom. The Company's investments in these entities are accounted for under the equity method of accounting. The Company's investments in these entities are presented as a component of Other Non-Current Assets in the accompanying consolidated balance sheets.

Table of Contents

The Company has recorded \$1.2 million and \$2.3 million in earnings, net of tax, for SACS operations during the three and six months ended June 30, 2017, and \$0.9 million and \$1.8 million in earnings, net of tax, for SACS operations during the three and six months ended June 30, 2016, respectively, which are included in equity in earnings of affiliates, net of income tax provision in the accompanying consolidated statements of operations. As of June 30, 2017 and December 31, 2016, the Company's investment in SACS was \$12.3 million and \$11.8 million, respectively.

The Company has recorded \$0.3 million and \$0.6 million in earnings, net of tax, for GEO Amey's operation during the the three and six months ended June 30, 2017, and \$1.1 million and \$1.4 million in earnings, net of tax, during the three and six months ended June 30, 2016, respectively, in the accompanying consolidated statements of operations. As of June 30, 2017 and December 31, 2016, the Company's investment in GEOAmey was \$2.0 million and \$1.3 million, respectively, and represents its share of cumulative reported earnings.

14. RECENT ACCOUNTING PRONOUNCEMENTS

The Company implemented the following accounting standards during the six months ended June 30, 2017:

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) No. 2016-09, “*Compensation – Stock Compensation (Topic 718)*,” as a part of its simplification initiative. The Company adopted this ASU during the six months ended June 30, 2017. Key areas of the amendments in this standard are (i) all excess tax benefits (deficiencies) from stock plan transactions should be recognized in the income statement as opposed to being recognized in additional paid-in capital; (ii) the tax withholding threshold for triggering liability accounting on a net settlement transaction has been increased from the minimum statutory rate to the maximum statutory rate; and (iii) an entity can make an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures as they occur. The guidance also provides clarification of the presentation of certain components of share-based awards in the statement of cash flows. The Company has elected to continue estimating forfeitures expected to occur in order to determine the amount of compensation cost to be recognized each period and to apply the cash flow classification guidance prospectively. As a result, excess tax benefits are now classified as an operating activity rather than a financing activity and the Company has recorded \$1.4 million of excess tax benefits from stock plan transactions as a component of income tax expense in the consolidated statement of operations for the six months ended June 30, 2017. The Company has excluded the excess tax benefits from the assumed proceeds available to repurchase shares in the computation of its diluted earnings per share for the six months ended June 30, 2017.

In March 2016, the FASB issued ASU 2016-05, “*Derivatives and Hedging*,” which clarifies that a change in the counter party to a derivative instrument that has been designated as a hedging instrument does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. The Company adopted this ASU during the six months ended June 30, 2017 and elected to apply the amendments in this standard on a prospective basis. The implementation of this standard did not have a material impact on the Company’s financial position, results of operations or cash flows.

In March 2016, the FASB issued ASU 2016-07, “*Investments – Equity Method and Joint Ventures*,” as a part of its simplification initiative. The amendments in this standard eliminate the requirement that when an investment qualifies for use of the equity method as a result of an increase in the level of ownership interest or degree of influence, an investor must adjust the investment, results of operations, and retained earnings retroactively on a step-by-step basis as if the equity method had been in effect during all previous periods that the investment had been held. The amendments require that the equity method investor add the cost of acquiring the additional interest in the investee to the current basis of the investor’s previously held interest and adopt the equity method of accounting as of the date the investment becomes qualified for equity method accounting. Therefore, upon qualifying for the equity method of accounting, no retroactive adjustment of the investment is required. The amendments in ASU 2016-07 also require that an entity that has an available-for-sale equity security that becomes qualified for the equity method of accounting recognize through earnings the unrealized holding gain or loss in accumulated other comprehensive income at the date the investment becomes qualified for use of the equity method. The Company adopted this ASU during the six months ended June 30, 2017 and elected to apply the amendments in this standard on a prospective basis. The implementation of this standard did not have a material impact on the Company’s financial position, results of operations or cash flows.

In October 2016, the FASB issued ASU No. 2016-17, “*Consolidation – Interest Held through Related Parties that are Under Common Control*,” which amends the current consolidation guidance on how a reporting entity that is the single decision maker of a variable interest entity (“VIE”) should treat indirect interests in the entity held through related parties that are under common control with the reporting entity when determining whether it is the primary beneficiary of that VIE. The primary beneficiary of a VIE is the reporting entity that has a controlling financial interest in a VIE, and therefore consolidates the VIE. A reporting entity has an indirect interest in a VIE if it has a direct interest in a related party that, in turn, has a direct interest in the VIE. The Company adopted this ASU during the six months ended June 30, 2017. The implementation of this standard did not have a material impact on the Company’s financial position, results of operations or cash flows.

Table of Contents

The following accounting standards will be adopted in future periods:

In May 2017, the FASB issued ASU No. 2017-10 “*Service Concession Arrangements – Determining the Customer of the Operation Services*”. The objective of this guidance is to reduce diversity in practice and provide clarification on how an operating entity determines the customer of the operation services for transactions within the scope of Topic 853, Service Concessions Arrangements. The amendments in this update clarify that the grantor is the customer of the operation services in all cases for such arrangements. The new standard is effective for the Company beginning on January 1, 2018. The adoption of this standard is not expected to have a material impact on the Company’s financial position, results of operations or cash flows.

In May 2017, the FASB issued ASU No. 2017-09 “*Compensation – Stock Compensation*”. The objective of this guidance is to provide clarity and reduce both (1) diversity in practice and (2) cost and complexity when applying modification accounting for changes in the terms or conditions of share-based payment awards. An entity should account for the effects of a modification unless all of the following factors are met: (i) the fair value of the modified award is the same as the fair value of the original award immediately before the award is modified; (ii) the vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the original award is modified; and (iii) the classification of the modified award as an equity instrument or a liability instrument is the same as the classification of the original award immediately before the original award is modified. The new standard will be effective for all entities for fiscal years beginning after December 15, 2017 with early adoption permitted for public companies for reporting periods for which financial statements have not yet been issued. The amendments in this update should be applied prospectively to an award modified on or after the adoption date. The adoption of this standard is not expected to have a material impact on the Company’s financial position, results of operations or cash flows.

In March 2017, the FASB issued ASU No. 2017-07 “*Compensation – Retirement Benefits (Topic 715)-Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*”. This guidance revises how employers that sponsor defined benefit pension and other postretirement plans present the net periodic benefit cost in their income statement and requires that the service cost component of net periodic benefit cost be presented in the same income statement line items as other employee compensation costs from services rendered during the period. Of the components of net periodic benefit cost, only the service cost component will be eligible for asset capitalization. The other components of the net periodic benefit cost must be presented separately from the line items that include the service cost and outside of any subtotal of operating income on the income statement. The new standard will be effective for public companies for fiscal years beginning after December 15, 2017 on a retroactive basis. Early adoption is permitted. The adoption of this standard is not expected to have a material impact on the Company’s financial position, results of operations or cash flows.

Table of Contents

In February 2016, FASB issued ASU 2016-02, “*Leases*,” which requires entities to recognize lease assets and lease liabilities on the balance sheet and to disclose key information about leasing arrangements. For finance leases and operating leases, a lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term with each initially measured at the present value of the lease payments. The amendments in ASU 2016-02 are effective for public companies for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The Company has implemented a lease management software application tool and is currently assessing the impact that the adoption of ASU 2016-02 will have on its consolidated financial position or results of operations, but expects that it will result in a significant increase in its long-term assets and liabilities given the significant number of leases the Company is a party to.

In May 2014, the FASB issued a new standard related to revenue recognition (ASU 2014-09, “*Revenue from Contracts with Customers*.”) Under the new standard, revenue is recognized when a customer obtains control of promised goods or services and is recognized in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The FASB has recently issued several amendments to the standard, including clarification on accounting for licenses of intellectual property and identifying performance obligations. The guidance permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (the modified retrospective transition method). The new standard is effective for the Company beginning on January 1, 2018. The Company is currently in the process of evaluating whether these standards would have a material impact on the Company’s financial position, results of operation or cash flows. However, upon its initial assessment, the Company believes that the timing of revenue recognition could potentially be affected as it relates to certain variable consideration arrangements with certain of its customers. However, at this time, the Company does not believe this would result in a material impact on the Company’s financial position, results of operations or cash flows. The Company has also initially determined that it will likely use the modified retrospective transition method to implement this standard, however, that election, as well as its analysis of any impacts related to variable consideration arrangements, may change once the Company’s final assessment is completed.

15. CONDENSED CONSOLIDATING FINANCIAL INFORMATION

As of June 30, 2017, the Company's 6.00% Senior Notes, 5.125% Senior Notes, the 5.875% Senior Notes due 2022 and the 5.875% Senior Notes due 2024 were fully and unconditionally guaranteed on a joint and several senior unsecured basis by the Company and certain of its wholly-owned domestic subsidiaries (the "Subsidiary Guarantors"). The following condensed consolidating financial information, which has been prepared in accordance with the requirements for presentation of Rule 3-10(d) of Regulation S-X promulgated under the Securities Act, presents the condensed consolidating financial information separately for:

- (i) The GEO Group, Inc., as the issuer of the notes;
- (ii) The Subsidiary Guarantors, on a combined basis, which are 100% owned by The GEO Group, Inc., and which are guarantors of the notes;
- (iii) The Company's other subsidiaries, on a combined basis, which are not guarantors of the notes (the "Non-Guarantor Subsidiaries");
- (iv) Consolidating entries and eliminations representing adjustments to (a) eliminate intercompany transactions between or among the Company, the Subsidiary Guarantors and the Subsidiary Non-Guarantors and (b) eliminate the investments in the Company's subsidiaries; and
- (v) The Company and its subsidiaries on a consolidated basis.

Dividend

On July 10, 2017, the Board of Directors declared a quarterly cash dividend of \$0.47 per share of common stock which was paid on July 28, 2017 to shareholders of record as of the close of business on July 21, 2017.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Information

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein contain "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. "Forward-looking" statements are any statements that are not based on historical information. Statements other than statements of historical facts included in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are "forward-looking" statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "anticipate," "intend," "plan," "believe," "seek," "estimate" or "continue" or the negative of such words or variations of such words and similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements and we can give no assurance that such forward-looking statements will prove to be correct. Important factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, or "cautionary statements," include, but are not limited to:

- our ability to timely build and/or open facilities as planned, profitably manage such facilities and successfully integrate such facilities into our operations without substantial additional costs;
- our exposure to potential penalties and/or liquidated damages if our prison project in Ravenhall, a locality near Melbourne, Australia, is not completed on time;
- our ability to fulfill our debt service obligations and its impact on our liquidity;
- our ability to estimate the government's level of utilization of public-private partnerships for correctional services and the impact of any modifications or reductions by our government customers of their utilization of public-private partnerships;
- our ability to accurately project the size and growth of public-private partnerships for correctional services in the U.S. and internationally and our ability to capitalize on opportunities for public-private partnerships;
- our ability to successfully respond to any challenges or concerns that our government customers may raise regarding their use of public-private partnerships for correctional services;

Table of Contents

- our ability to successfully respond to delays encountered by states pursuing public-private partnerships for correctional services and cost savings initiatives implemented by a number of states;
- our ability to activate the inactive beds at our idle facilities;
- our ability to maintain or increase occupancy rates at our facilities;
- our ability to expand, diversify and grow our correctional, detention, reentry, community-based services, youth services, monitoring services, evidence-based supervision and treatment programs and secure transportation services businesses;
- our ability to win management contracts for which we have submitted proposals, retain existing management contracts and meet any performance standards required by such management contracts;
- our ability to control operating costs associated with contract start-ups;
- our ability to raise new project development capital given the often short-term nature of the customers' commitment to use newly developed facilities;
- our ability to develop long-term earnings visibility;
- our ability to identify suitable acquisitions, and to successfully complete and integrate such acquisitions on satisfactory terms, and estimate the synergies to be achieved as a result of such acquisitions;
- the risks related to the integration of the CEC acquisition, that expected increased revenue and Adjusted EBITDA from CEC may not be fully realized or may take longer than expected to realize and that synergies from the CEC transaction may not be fully realized or may take longer than expected to realize;
- our exposure to the impairment of goodwill and other intangible assets as a result of our acquisitions;
- our ability to successfully conduct our operations in the United Kingdom, South Africa and Australia through joint ventures or a consortium;
- our ability to obtain future financing on satisfactory terms or at all, including our ability to secure the funding we need to complete ongoing capital projects;
- our exposure to political and economic instability and other risks impacting our international operations;
- the instability of foreign exchange rates, exposing us to currency risks in Australia, the United Kingdom, and South Africa, or other countries in which we may choose to conduct our business;
- our exposure to risks impacting our information systems, including those that may cause an interruption, delay or failure in the provision of our services;
- our exposure to rising general insurance costs;
- an increase in unreimbursed labor rates;
- our exposure to state, federal and foreign income tax law changes, including changes to the REIT provisions and our exposure as a result of federal and international examinations of our tax returns or tax positions;

Table of Contents

- our exposure to claims for which we are uninsured;
- our exposure to rising employee and inmate medical costs;
- our ability to manage costs and expenses relating to ongoing litigation arising from our operations;
- our ability to accurately estimate on an annual basis, loss reserves related to general liability, workers compensation and automobile liability claims;
- the ability of our government customers to secure budgetary appropriations to fund their payment obligations to us and continue to operate under our existing agreements and/or renew our existing agreements;
- our ability to pay quarterly dividends consistent with our requirements as a REIT, and expectations as to timing and amounts;
- our ability to remain qualified for taxation as a real estate investment trust, or REIT;
- our ability to comply with government regulations and applicable contractual requirements;
- our ability to acquire, protect or maintain our intellectual property;
- the risk that a number of factors could adversely affect the market price of our common stock; and
- other factors contained in our filings with the Securities and Exchange Commission, or the SEC, including, but not limited to, those detailed in this Quarterly Report on Form 10-Q, our Annual Report on Form 10-K for the year ended December 31, 2016 and our Current Reports on Form 8-K filed with the SEC.

We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements included in this Quarterly Report on Form 10-Q.

Introduction

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of our consolidated results of operations and financial condition. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of numerous factors including, but not limited to, those described above under “Forward-Looking Information”, those described below under “Part II – Item 1A. Risk Factors” and under “Part I – Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016. The discussion should be read in conjunction with our unaudited consolidated financial statements and notes thereto included in this Quarterly Report on Form 10-Q.

We are a real estate investment trust (“REIT”) specializing in the ownership, leasing and management of correctional, detention and reentry facilities and the provision of community-based services and youth services in the United States, Australia, South Africa, and the United Kingdom. We own, lease and operate a broad range of correctional and detention facilities including maximum, medium and minimum security prisons, immigration detention centers, minimum security detention centers, and community based reentry facilities and we offer an expanded delivery of offender rehabilitation services under our ‘GEO Continuum of Care’ platform. We offer counseling, education and/or treatment to inmates with alcohol and drug abuse problems at most of the domestic facilities we manage. We are also a provider of innovative compliance technologies, industry-leading monitoring services, and evidence-based supervision and treatment programs for community-based parolees, probationers and pretrial defendants.

Table of Contents

At June 30, 2017, after our acquisition of CEC, our worldwide operations include the management and/or ownership of approximately 100,000 beds at 143 correctional, detention and reentry facilities, including idle facilities, projects under development and recently awarded contracts, and also include the provision of community supervision services for more than 185,000 offenders and pre-trial defendants, including approximately 100,000 individuals through an array of technology products including radio frequency, GPS, and alcohol monitoring devices.

We provide a diversified scope of services on behalf of our government clients:

- our correctional and detention management services involve the provision of security, administrative, rehabilitation, education and food services, primarily at adult male correctional and detention facilities;
- our community-based services involve supervision of adult parolees and probationers and the provision of temporary housing, programming, employment assistance and other services with the intention of the successful reintegration of residents into the community;
- our youth services include residential, detention and shelter care and community-based services along with rehabilitative and educational programs;
- our monitoring services provide our governmental clients with innovative compliance technologies, industry-leading monitoring services, and evidence-based supervision and treatment programs for community-based parolees, probationers and pretrial defendants; including services provided under the Intensive Supervision Appearance Program, which we refer to as ISAP, to the U.S. Immigration and Customs Enforcement, which we refer to as ICE, for the provision of services designed to improve the participation of non-detained aliens in the immigration court system;
- we develop new facilities using our project development experience to design, construct and finance what we believe are state-of-the-art facilities that maximize security and efficiency;
- we provide secure transportation services for offender and detainee populations as contracted domestically and internationally – our joint venture GEOAmeY is responsible for providing prisoner escort and custody services in the United Kingdom, including all of Wales and England except London and the East of England; and
- our services are provided at facilities which we either own, lease or are owned by our customers.

For the six months ended June 30, 2017 and June 30, 2016, we had consolidated revenues of \$1,127.7 million and \$1,058.5 million, respectively, and we maintained an average company wide facility occupancy rate of 91.8% including 91,777 active beds and excluding 8,170 idle beds (including those being marketed to potential customers) and beds under development for the six months ended June 30, 2017, and 92.4% including 82,643 active beds and excluding 4,726 idle beds (including those being marketed to potential customers) and beds under development for the six months ended June 30, 2016.

As a REIT, we are required to distribute annually at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and by excluding net capital gain) and we began paying regular quarterly REIT dividends in 2013. The amount, timing and frequency of future dividends, however, will be at the sole discretion of our Board of Directors (the “Board”) and will be declared based upon various factors, many of which are beyond our control, including, our financial condition and operating cash flows, the amount required to maintain REIT status, limitations on distributions in our existing and future debt instruments, limitations on our ability to fund distributions using cash generated through our taxable REIT subsidiaries (“TRSs”) and other factors that our Board may deem relevant.

Table of Contents

During the six months ended June 30, 2017 and the year ended December 31, 2016, respectively, we declared and paid the following regular cash distributions to our shareholders as follows:

<u>Declaration Date</u>	<u>Record Date</u>	<u>Payment Date</u>	<u>Distribution Per Share</u>	<u>Aggregate Payment Amount (in millions)</u>

April 25, 2017	May 9, 2017	May 19, 2017	\$ 0.47	\$ 58.4

On July 10, 2017, our Board of Directors declared a quarterly cash dividend of \$0.47 per share of common stock, which was paid on July 28, 2017 to shareholders of record as of the close of business on July 21, 2017.

Reference is made to Part II, Item 7 of our Annual Report on Form 10-K filed with the SEC on February 27, 2017, for further discussion and analysis of information pertaining to our financial condition and results of operations as of and for the fiscal year ended December 31, 2016.

Fiscal 2017 Developments

Stock Split

In March 2017, our Board of Directors declared a 3-for-2 stock split of our common stock. The stock split was effective on April 24, 2017 with respect to shareholders of record on April 10, 2017. Outstanding share and per-share amounts disclosed for all periods presented have been retroactively adjusted to reflect the effects of the stock split. On April 24, 2017, the Company amended its articles of incorporation to increase the number of authorized shares of common stock to take into effect the stock split.

Offering of Common Stock

On March 7, 2017, we entered into an underwriting agreement related to the issuance and sale of 9,000,000 shares of our common stock, par value \$.01 per share. The offering price to the public was \$27.80 per share and the underwriters agreed to purchase the shares from us pursuant to the underwriting agreement at a price of \$26.70 per share. In addition, under the terms of the underwriting agreement, we granted the underwriters an option, exercisable for thirty days, to purchase up to an additional 1,350,000 shares of common stock. On March 8, 2017, the underwriters exercised in full their option to purchase the additional 1,350,000 shares of common stock. On March 13, 2017, we completed the sale of 10,350,000 shares of common stock pursuant to our underwritten public offering. We received gross proceeds (before underwriting discounts and estimated offering expenses) of approximately \$288.1 million from the offering, including approximately \$37.6 million in connection with the sale of the additional shares. The 10,350,000 shares of common stock were issued under our currently effective shelf registration filed with the Securities and Exchange Commission. The net proceeds of this offering were used to repay amounts outstanding under our revolver portion of our senior credit facility and for general corporate purposes. The number of shares and per-share amounts herein have been adjusted to reflect the effects of the stock split.

Community Education Centers Acquisition

On April 5, 2017, we closed on our previously announced acquisition of Community Education Centers (“CEC”), a leading private provider of rehabilitation services for offenders in reentry and in-prison treatment facilities as well as management services for county, state and federal correctional and detention facilities. We acquired CEC for \$360 million in an all cash transaction, excluding transaction related expenses. CEC’s operations encompass over 12,000 beds nationwide. Refer to Note 2-Business Combinations in the Notes to the Unaudited Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Contract Awards

On April 13, 2017, we announced that we have been awarded a contract by U.S. Immigration and Customs Enforcement (“ICE”) for the development and operation of a new company-owned 1,000-bed detention facility to be located in Conroe,

Texas. We expect to design, finance, build and operate the facility under a ten-year contract with ICE, inclusive of renewal option periods. The facility is scheduled for completion in the fourth quarter of 2018 and is expected to generate approximately \$44 million in annual revenues and returns on investment consistent with our company-owned facilities.

On May 26, 2017, we announced that we were awarded two ten-year contracts, inclusive of renewal option periods, by the Federal Bureau of Prisons (“BOP”) for the continued housing of criminal aliens under the custody of the BOP at the company-owned 1,800-bed Big Spring Facility and the company-owned 1,732-bed Flight Line Facility, which on a combined basis were previously referred to as the Big Spring Correctional Center in Texas. The two ten-year contracts were awarded to GEO under a long-standing procurement commonly referred to as Criminal Alien Requirement (CAR) 16, which was issued by the BOP in 2015. The contracts are expected to generate total combined revenues of approximately \$664 million over their full ten-year terms. Additionally, only one of the two contracts held by Reeves County, Texas was extended by the BOP for one year.

Idle Facilities

As of June 30, 2017, we are marketing approximately 6,600 vacant beds at six of our idle facilities to potential customers. The carrying values of these idle facilities totaled approximately \$164.2 million as of June 30, 2017, excluding equipment and other assets that can be easily transferred for use at other facilities.

Asset Purchase

On March 6, 2017, we acquired the 688-bed Maverick County Detention Center in Texas for approximately \$15 million. The center, which is currently idle, was originally built by Maverick County and previously provided services for the U.S. Marshals Service.

Critical Accounting Policies

The accompanying unaudited consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States. As such, we are required to make certain estimates, judgments and assumptions that we believe are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. We routinely evaluate our estimates based on historical experience and on various other assumptions that management believes are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. During the six months ended June 30, 2017, we did not experience any significant changes in estimates or judgments inherent in the preparation of our consolidated financial statements. A summary of our significant accounting policies is contained in Note 1 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2016.

U.S. Corrections & Detention

U.S. Corrections & Detention depreciation and amortization expense increased in Second Quarter 2017 compared to Second Quarter 2016 primarily due to renovations made at several of our facilities as well as our acquisition of CEC on April 5, 2017.

GEO Care

GEO Care depreciation and amortization expense increased in Second Quarter 2017 compared to Second Quarter 2016 primarily due to new facilities and intangible assets acquired in our acquisition of CEC on April 5, 2017.

International Services

Depreciation and amortization expense remained relatively consistent in Second Quarter 2017 compared to Second Quarter 2016 as a result of certain assets becoming fully depreciated and there were no significant additions or renovations during 2016 or 2017 at our international subsidiaries.

Interest expense increased in Second Quarter 2017 compared to Second Quarter 2016 primarily due to additional interest incurred on higher debt balances resulting from our acquisition of CEC on April 5, 2017. Also contributing to the increase was the construction loan interest related to our prison project in Ravenhall, Australia. Refer to Note 10—Debt of the Notes to Unaudited Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

The provision for income taxes during Second Quarter 2017 decreased compared to Second Quarter 2016 along with the effective tax rate. The decrease is primarily due to the tax benefit on the merger and acquisition expenses of \$10.3 million related to our acquisition of CEC incurred in Second Quarter 2017 as well as the debt extinguishment costs incurred by the REIT in Second Quarter 2016 which carried no tax benefit but had the result of increasing the effective rate in that quarter. As a REIT, we are required to distribute at least 90% of our taxable income to shareholders and in turn are allowed a deduction for the distribution at the REIT level. Our wholly-owned taxable REIT subsidiaries continue to be fully subject to federal, state and foreign income taxes, as applicable. We estimate our annual effective tax rate to be in the range of approximately 7% to 9% exclusive of any discrete items.

Financial Condition

Capital Requirements

Our current cash requirements consist of amounts needed for working capital, distributions of our REIT taxable income in order to maintain our REIT qualification, debt service, supply purchases, investments in joint ventures, and capital expenditures related to either the development of new correctional, detention and reentry facilities, or the maintenance of existing facilities. In addition, some of our management contracts require us to make substantial initial expenditures of cash in connection with opening or renovating a facility. Generally, these initial expenditures are subsequently fully or partially recoverable as pass-through costs or are billable as a component of the per diem rates or monthly fixed fees to the contracting agency over the original term of the contract. In connection with GEOAmeY, our joint venture in the United Kingdom, we and our joint venture partner have each provided a line of credit of £12 million, or \$15.6 million, based on exchange rates as of June 30, 2017, for GEOAmeY's operations. As of June 30, 2017, \$3.3 million was outstanding to each of the joint ventures.

Table of Contents

We currently have contractual commitments for a number of projects using Company financing. We estimate that the cost of these existing capital projects will be approximately \$196.3 million of which \$46.8 million was spent through June 30, 2017. We estimate that the remaining capital requirements related to these capital projects will be \$149.5 million which will be spent through 2018. Additionally, in connection with the Ravenhall Prison Project, we have a contractual commitment for construction of the facility and have entered into a syndicated facility agreement with National Australia Bank Limited to provide funding for the project up to AUD 791.0 million, or \$608.0 million, based on exchange rates as of June 30, 2017.

Liquidity and Capital Resources

Indebtedness

On March 23, 2017, we executed a third amended and restated credit agreement by and among The GEO Group, Inc. and GEO Corrections Holdings, Inc., (“Corrections” and, together with GEO, the “Borrowers”), the Australian Borrowers named therein, BNP Paribas, as Administrative Agent, and the lenders who are, or may from time to time become, a party thereto (the “Credit Agreement”). The Credit Agreement refinances our prior \$291.0 million term loan, reestablishes our ability to implement at a later date an Australian Dollar Letter of Credit Facility (the “Australian LC Facility”) providing for the issuance of financial letters of credit and performance letters of credit, in each case denominated in Australian Dollars up to AUD275 million, an increase from the prior AUD225 million Australian LC Facility, and certain other modifications to the prior credit agreement. Loan costs of approximately \$7.0 million were incurred and capitalized in connection with the transaction.

The Credit Agreement evidences a credit facility (the “Credit Facility”) consisting of an \$800 million term loan (the “Term Loan”) bearing interest at LIBOR plus 2.25% (with a LIBOR floor of 0.75%), and a \$900 million revolving credit facility (the “Revolver”) initially bearing interest at LIBOR plus 2.25% (with no LIBOR floor) together with AUD275 million under the Australian LC Facility. As of June 30, 2017, there were no letters of credit issued under the Australian LC Facility. Amounts to be borrowed by GEO under the Credit Agreement are subject to the satisfaction of customary conditions to borrowing. The Term Loan component is scheduled to mature on March 23, 2024. The revolving credit commitment component is scheduled to mature on May 19, 2021; provided, that if on October 3, 2019 both the maturity dates of all term loans and incremental term loans have not been extended to a date that is 5 ½ years after March 23, 2017 or a later date, and the senior secured leverage ratio exceeds 2.50 to 1.00, then the termination date will be October 3, 2019. The Credit Agreement also has an accordion feature of \$450.0 million, subject to lender demand and prevailing market conditions and satisfying the relevant borrowing conditions.

The Credit Agreement contains certain customary representations and warranties, and certain customary covenants that restrict our ability to, among other things (i) create, incur or assume any indebtedness, (ii) create, incur, assume or permit liens, (iii) make loans and investments, (iv) engage in mergers, acquisitions and asset sales, (v) make certain restricted payments, (vi) issue, sell or otherwise dispose of capital stock, (vii) engage in transactions with affiliates, (viii) allow the total leverage ratio to exceed 6.25 to 1.00, allow the senior secured leverage ratio to exceed 3.50 to 1.00, or allow the interest coverage ratio to be less than 3.00 to 1.00, (ix) cancel, forgive, make any voluntary or optional payment or prepayment on, or redeem or acquire for value any senior notes, except as permitted, (x) alter the business we conduct, and (xi) materially impair our lenders’ security interests in the collateral for its loans.

Events of default under the Credit Agreement include, but are not limited to, (i) our failure to pay principal or interest when due, (ii) our material breach of any representation or warranty, (iii) covenant defaults, (iv) liquidation, reorganization or other relief relating to bankruptcy or insolvency, (v) cross default under certain other material indebtedness, (vi) unsatisfied final judgments over a specified threshold, (vii) certain material environmental liability claims which have been asserted against us, and (viii) a change in control.

Table of Contents

All of the obligations under the Credit Agreement are unconditionally guaranteed by certain domestic subsidiaries of GEO and the Credit Agreement and the related guarantees are secured by a perfected first-priority pledge of substantially all of our present and future tangible and intangible domestic assets and all present and future tangible and intangible domestic assets of each guarantor, including but not limited to a first-priority pledge of all of the outstanding capital stock owned by us and each guarantor in our domestic subsidiaries.

The Australian Borrowers are wholly owned foreign subsidiaries of GEO. We have designated each of the Australian Borrowers as restricted subsidiaries under the Credit Agreement. However, the Australian Borrowers are not obligated to pay or perform any obligations under the Credit Agreement other than their own obligations as Australian Borrowers under the Credit Agreement. The Australian Borrowers do not pledge any of their assets to secure any obligations under the Credit Agreement.

On August 18, 2016, the Company executed a Letter of Offer by and among GEO and HSBC Bank Australia Limited (the “Letter of Offer”) providing for a bank guarantee line and bank guarantee/standby sub-facility in an aggregate amount of AUD100 million, or \$76.9 million, based on exchange rates in effect as of June 30, 2017 (collectively, the “Bank Guarantee Facility”). The Bank Guarantee Facility allows GEO to provide letters of credit to assure performance of certain obligations of its wholly owned subsidiary relating to its prison project in Ravenhall, located near Melbourne, Australia. The Bank Guarantee Facility is unsecured. The issuance of letters of credit under the Bank Guarantee Facility is subject to the satisfaction of the conditions precedent specified in the Letter of Offer. Letters of credit issued under the bank guarantee lines are due on demand and letters of credit issued under the bank guarantee/standby sub-facility cannot have a duration exceeding twelve months. The Bank Guarantee Facility may be terminated by HSBC on 90 days written notice. As of June 30, 2017, there was AUD100 million, or 76.9 million based on exchange rates at June 30, 2017, in letters of credit issued under the Bank Guarantee Facility.

As of June 30, 2017, we had \$798.0 million in aggregate borrowings outstanding, net of discount, under the Term Loan and \$194.0 million in borrowings under the Revolver, and approximately \$64.0 million in letters of credit which left \$642.0 million in additional borrowing capacity under the Revolver. Refer to Note 10 – Debt of the Notes to Unaudited Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for further discussion.

On April 18, 2016, we completed an offering of \$350 million aggregate principal amount of 6.00% Senior Notes due 2026. The notes will mature on April 15, 2026 and have a coupon rate and yield to maturity of 6.00%. Interest is payable semi-annually cash in arrears on April 15 and October 15 of each year. The proceeds were used to fund the tender offer and the redemption of all of our 6.625% Senior Notes due 2021, to pay all related fees, costs and expenses and for general corporate purposes including repaying borrowings under our Revolver.

On September 25, 2014, we completed an offering of \$250.0 million aggregate principal amount of 5.875% Senior Notes due 2024. The notes will mature on October 15, 2024 and have a coupon rate and yield to maturity of 5.875%. Interest is payable semi-annually in cash in arrears on April 15 and October 15, which commenced on April 15, 2015. The proceeds received from the 5.875% Senior Notes due 2024 were used to pay down outstanding borrowings under our Revolver and pay related fees, costs and expenses. Refer to Note 10 – Debt of the Notes to Unaudited Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for further discussion.

In connection with a new design and build prison project agreement in Ravenhall, Australia with the State of Victoria, in September 2014, we entered into a syndicated facility agreement (the “Construction Facility”) with National Australia Bank Limited to provide debt financing for construction of the project. The Construction Facility provides for non-recourse funding up to AUD 791 million, or approximately \$608 million, based on exchange rates as of June 30, 2017. Construction draws are funded throughout the project according to a fixed utilization schedule as defined in the syndicated facility agreement. The term of the Construction Facility is through October 2019 and bears interest at a variable rate quoted by certain Australian banks plus 200 basis points. After October 2019, the Construction Facility will be converted to a term loan with payments due quarterly beginning in 2019 through 2041. In accordance with the terms of the Construction Facility, upon completion and commercial acceptance of the prison, in accordance with the prison contract, the State will make a lump sum payment of AUD 310 million, or approximately \$238 million, based on exchange rates as of June 30, 2017, towards a portion of the outstanding principal. The remaining outstanding principal balance will be repaid over the term of the operating agreement. As of June 30, 2017, approximately \$508 million was outstanding under the Construction Facility. We also entered into interest rate swap and interest rate cap agreements related to our non-recourse debt in connection with the project. Refer to Note 9 – Derivative Financial Instruments of the Notes to Unaudited Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for further discussion.

Table of Contents

On October 3, 2013, we completed an offering of \$250.0 million aggregate principal amount of 5.875% Senior Notes due 2022. The 5.875% Senior Notes due 2022 will mature on January 15, 2022 and have a coupon rate and yield to maturity of 5.875%. Interest is payable semi-annually on January 15 and July 15 each year, which commenced on January 15, 2014. The proceeds received from the 5.875% Senior Notes due 2022 were used, together with cash on hand, to fund the repurchase, redemption or other discharge of our 7.75% senior notes due 2017 and to pay related transaction fees and expenses.

On March 19, 2013, we completed an offering of \$300.0 million aggregate principal amount of 5.125% Senior Notes. The 5.125% Senior Notes will mature on April 1, 2023 and have a coupon rate and yield to maturity of 5.125%. Interest is payable semi-annually on April 1 and October 1 each year, which commenced on October 1, 2013. A portion of the proceeds received from the 5.125% Senior Notes were used to repay the prior revolver credit draws outstanding under the prior senior credit facility. Refer to Note 10 – Debt of the Notes to Unaudited Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for further discussion.

In addition to the debt outstanding under the Credit Facility, the 6.00% Senior Notes, the 5.125% Senior Notes, the 5.875% Senior Notes due 2022 and the 5.875% Senior Notes due 2024 discussed above, we also have significant debt obligations which, although these obligations are non-recourse to us, require cash expenditures for debt service. Our significant debt obligations could have material consequences. See “Risk Factors-Risks Related to Our High Level of Indebtedness” in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016. We are exposed to various commitments and contingencies which may have a material adverse effect on our liquidity. We also have guaranteed certain obligations for certain of our international subsidiaries. These non-recourse obligations, commitments and contingencies and guarantees are further discussed in our Annual Report on Form 10-K for the year ended December 31, 2016.

We consider opportunities for future business and/or asset acquisitions as we deem appropriate when market conditions present opportunities. If we are successful in our pursuit of any new projects, our cash on hand, cash flows from operations and borrowings under the existing Credit Facility may not provide sufficient liquidity to meet our capital needs and we could be forced to seek additional financing or refinance our existing indebtedness. There can be no assurance that any such financing or refinancing would be available to us on terms equal to or more favorable than our current financing terms, or at all. In the future, our access to capital and ability to compete for future capital intensive projects will also be dependent upon, among other things, our ability to meet certain financial covenants in the indenture governing the 5.125% Senior Notes, the indenture governing the 5.875% Senior Notes due 2022, the indenture governing the 5.875% Senior Notes due 2024, the indenture governing the 6.00% Senior Notes due 2026 and our Credit Agreement. A substantial decline in our financial performance could limit our access to capital pursuant to these covenants and have a material adverse affect on our liquidity and capital resources and, as a result, on our financial condition and results of operations. In addition to these foregoing potential constraints on our capital, a number of state government agencies have been suffering from budget deficits and liquidity issues. While we expect to be in compliance with our debt covenants, if these constraints were to intensify, our liquidity could be materially adversely impacted as could our ability to remain in compliance with these debt covenants.

Common Stock Offering

On March 7, 2017, we entered into an underwriting agreement related to the issuance and sale of 9,000,000 shares of our common stock, par value \$.01 per share. The offering price to the public was \$27.80 per share and the underwriters agreed to purchase the shares from us pursuant to the underwriting agreement at a price of \$26.70 per share. In addition, under the terms of the underwriting agreement, we granted the underwriters an option, exercisable for 30 days, to purchase up to an additional 1,350,000 shares of common stock. On March 8, 2017, the underwriters exercised in full their option to purchase the additional 1,350,000 shares of common stock. On March 13, 2017, we announced that we had completed the sale of 10,350,000 shares of common stock with its previously announced underwritten public offering. We received gross proceeds (before underwriting discounts and estimated offering expenses) of approximately \$288.1 million from the offering, including approximately \$37.6 million in connection with the sale of the additional shares. The 10,350,000 shares of common stock were issued under our currently effective shelf registration filed with the Securities and Exchange Commission as discussed below. The net proceeds of this offering were used to repay amounts outstanding under the revolver portion of our senior credit facility and for general corporate purposes.

Prospectus Supplement

In September 2014, we filed with the Securities and Exchange Commission an automatic shelf registration statement on Form S-3. On November 10, 2014, in connection with the shelf registration, we filed with the Securities and Exchange Commission a prospectus supplement related to the offer and sale from time to time of our common stock at an aggregate offering price of up to \$150.0 million through sales agents. Sales of shares of our common stock under the prospectus supplement and the equity distribution agreements entered into with the sales agents, if any, may be made in negotiated transactions or transactions that are deemed to be “at the market” offerings as defined in Rule 415 under the Securities Act of 1933. There were no shares of common stock sold under this prospectus supplement during the six months ended June 30, 2017 or during the year ended December 31, 2016. We sold 10,350,000 shares of common stock in a public offering during the six months ended June 30, 2017 pursuant to this automatic shelf registration statement under the preliminary prospectus supplement filed on March 7, 2017 and the final prospectus supplement filed on March 9, 2017.

As a REIT, we are subject to a number of organizational and operational requirements, including a requirement that we annually distribute to our shareholders an amount equal to at least 90% of our REIT taxable income (determined before the deduction for dividends paid and by excluding any net capital gain). Generally, we expect to distribute all or substantially all of our REIT taxable income so as not to be subject to the income or excise tax on undistributed REIT taxable income. The amount, timing and frequency of distributions will be at the sole discretion of our Board of Directors and will be based upon various factors.

We plan to fund all of our capital needs, including distributions of our REIT taxable income in order to maintain our REIT qualification, and capital expenditures, from cash on hand, cash from operations, borrowings under our Credit Facility and any other financings which our management and Board of Directors, in their discretion, may consummate. Currently, our primary source of liquidity to meet these requirements is cash flow from operations and borrowings under the \$900.0 million Revolver. Our management believes that cash on hand, cash flows from operations and availability under our Credit Facility will be adequate to support our capital requirements for 2017 as disclosed under “Capital Requirements” above.

Executive Retirement Agreement

We have a non-qualified deferred compensation agreement with our Chief Executive Officer (“CEO”). The current agreement, as amended, provides for a lump sum payment upon retirement, no sooner than age 55. As of January 1, 2013, our CEO had reached age 55 and was eligible to receive the payment upon retirement. If our CEO had retired as of June 30, 2017, we would have had to pay him approximately \$8.0 million. Based on our current capitalization, we do not believe that making this payment would materially adversely impact our liquidity.

Off-Balance Sheet Arrangements

Except as discussed above, and in the notes to our Unaudited Consolidated Financial Statements included in Part I, Item 1 of this quarterly report on Form 10-Q, we do not have any off-balance sheet arrangements.

Cash Flow

Cash and cash equivalents as of June 30, 2017 was \$65.9 million, compared to \$68.0 million as of December 31, 2016.

Operating Activities

Cash provided by operating activities amounted to \$50.7 million for the six months ended June 30, 2017 versus cash provided by operating activities of \$38.3 million for the six months ended June 30, 2016. Cash provided by operating activities during the six months ended June 30, 2017 was positively impacted by net income attributable to GEO, non-cash expenses such as depreciation and amortization, amortization of debt issuance costs, and stock-based compensation expense. Equity in earnings of affiliates negatively impacted cash. Changes in accounts receivable, prepaid expenses and other assets decreased in total by \$44.3 million, representing a positive impact on cash. The decrease was primarily driven by the timing of billings and collections. Changes in accounts payable, accrued expenses and other liabilities decreased by \$24.1 million which negatively impacted cash. The decrease was primarily driven by the timing of payments.

Additionally, cash provided by operating activities for the six months ended June 30, 2017 was negatively impacted by an increase in changes in contract receivable of \$122.0 million. This increase relates to costs incurred and estimated earnings in excess of billings related to the prison project in Ravenhall, Australia. The contract receivable is expected to grow as construction services are performed and will continue to have a negative impact on cash from operating activities until the balance is ultimately settled. In accordance with the contract, the project will not be billed out until completion and commercial acceptance of the facility.

Cash provided by operating activities amounted to \$38.3 million for the six months ended June 30, 2016. Cash provided by operating activities during the six months ended June 30, 2016 was positively impacted by net income attributable to GEO, non-cash expenses such as depreciation and amortization, amortization of debt issuance costs, and stock-based compensation expense. Equity in earnings of affiliates negatively impacted cash. Changes in accounts receivable, prepaid expenses and other assets decreased in total by \$14.0 million, representing a positive impact on cash. The decrease was primarily driven by the timing of billings and collections. Changes in accounts payable, accrued expenses and other liabilities increased by \$9.6 million which positively impacted cash. The increase was primarily driven by the timing of payments.

Additionally, cash provided by operating activities for the six months ended June 30, 2016 was negatively impacted by an increase in changes in contract receivable of \$124.3 million. This increase relates to costs incurred and estimated earnings in excess of billings related to the prison project in Ravenhall, Australia. The contract receivable is expected to grow as construction services are performed and will continue to have a negative impact on cash from operating activities until the balance is ultimately settled. In accordance with the contract, the project will not be billed out until completion and commercial acceptance of the facility.

Investing Activities

Cash used in investing activities of \$423.2 million during the six months ended June 30, 2017 was primarily the result of capital expenditures of \$67.5 million and our acquisition of CEC, net of cash acquired, of \$354.5 million. Cash used in investing activities of \$111.3 million during the six months ended June 30, 2016 was primarily the result of capital expenditures of \$46.0 million and changes in restricted cash and investments of \$65.9 million.

Table of Contents

Financing Activities

Cash provided by financing activities during the six months ended June 30, 2017 amounted to \$369.0 million compared to cash provided by financing activities of \$52.0 million during the six months ended June 30, 2016. Cash provided by financing activities during the six months ended June 30, 2017 was primarily the result of proceeds from long-term debt of \$1,158.6 million which included proceeds received from the Company's Term Loan which was modified on March 23, 2017. Additionally, we had proceeds from non-recourse debt of \$91.1 million related to construction draws for our prison project in Ravenhall, Australia. These increases were partially offset by a decrease for dividends paid of \$110.9 million, payments on long-term debt of \$972.5 million and payments on non-recourse debt of \$67.9 million. Cash provided by financing activities during the six months ended June 30, 2016 amounted to \$52.0 million. Cash provided by financing activities during the six months ended June 30, 2016 was primarily the result of proceeds from long-term debt of \$641.0 million which included the issuance of our 6.00% Senior Notes. Additionally, we had proceeds from non-recourse debt of \$159.1 million related to construction draws for our prison project in Ravenhall, Australia. These increases were partially offset by a decrease for dividends paid of \$97.2 million and payments on long-term debt of \$627.5 million which included the redemption of our 6.625% Senior Notes due 2021.

Non-GAAP Measures

Funds from Operations ("FFO") is a widely accepted supplemental non-GAAP measure utilized to evaluate the operating performance of real estate investment trusts. It is defined in accordance with the standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which defines FFO as net income (loss) attributable to common shareholders (computed in accordance with Generally Accepted Accounting Principles), excluding real estate related depreciation and amortization, excluding gains and losses from the cumulative effects of accounting changes, extraordinary items and sales of properties, and including adjustments for unconsolidated partnerships and joint ventures.

We also present Normalized Funds From Operations, or Normalized FFO, and Adjusted Funds from Operations, or AFFO, supplemental non-GAAP financial measures of real estate investment trusts' operating performances.

Normalized FFO is defined as FFO adjusted for certain items which by their nature are not comparable from period to period or that tend to obscure the Company's actual operating performance, including for the periods presented loss on extinguishment of debt, start-up expenses, mergers and acquisitions ("M&A") related expenses and the tax effect of those adjustments.

AFFO is defined as Normalized FFO adjusted by adding non-cash expenses such as non-real estate related depreciation and amortization, stock based compensation expense, the amortization of debt issuance costs, discount and/or premium and other non-cash interest, and by subtracting recurring consolidated maintenance capital expenditures.

Because of the unique design, structure and use of our correctional facilities, we believe that assessing the performance of our correctional facilities without the impact of depreciation or amortization is useful and meaningful to investors. Although NAREIT has published its definition of FFO, companies often modify this definition as they seek to provide financial measures that meaningfully reflect their distinctive operations. We have modified FFO to derive Normalized FFO and AFFO that meaningfully reflect our operations. Our assessment of our operations is focused on long-term sustainability. The adjustments we make to derive the non-GAAP measures of Normalized FFO and AFFO exclude items which may cause short-term fluctuations in income from continuing operations but have no impact on our cash flows, or we do not consider them to be fundamental attributes or the primary drivers of our business plan and they do not affect our overall long-term operating performance.

Table of Contents

We may make adjustments to FFO from time to time for certain other income and expenses that do not reflect a necessary component of our operational performance on the basis discussed above, even though such items may require cash settlement. Because FFO, Normalized FFO and AFFO exclude depreciation and amortization unique to real estate as well as non-operational items and certain other charges that are highly variable from year to year, they provide our investors with performance measures that reflect the impact to operations from trends in occupancy rates, per diem rates, operating costs and interest costs, providing a perspective not immediately apparent from income from continuing operations. We believe the presentation of FFO, Normalized FFO and AFFO provide useful information to investors as they provide an indication of our ability to fund capital expenditures and expand our business. FFO, Normalized FFO and AFFO provide disclosure on the same basis as that used by our management and provide consistency in our financial reporting, facilitate internal and external comparisons of our historical operating performance and our business units and provide continuity to investors for comparability purposes. Additionally, FFO, Normalized FFO and AFFO are widely recognized measures in our industry as a real estate investment trust.

Our reconciliation of net income attributable to The GEO Group, Inc. to FFO, Normalized FFO and AFFO for the three and six months ended June 30, 2017 and 2016 is as follows (in thousands):

Outlook

The following discussion contains statements that are not historical statements and, therefore, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Our forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those stated or implied in the forward-looking statements. Please refer to “Part I – Item 1A. Risk Factors” and the “Forward Looking Statements – Safe Harbor” sections in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, as well as the “Forward-Looking Statements – Safe Harbor” section and other disclosures contained in this Form 10-Q for further discussion on forward-looking statements and the risks and other factors that could prevent us from achieving our goals and cause the assumptions underlying the forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements.

Revenue

We continue to be encouraged by the current landscape of growth opportunities; however any positive trends may, to some extent, be adversely impacted by government budgetary constraints or any changes to the government’s willingness to maintain or grow public-private partnerships in the future. While state finances overall are stable, future budgetary pressures may cause state correctional agencies to pursue a number of cost savings initiatives which may include reductions in per diem rates and/or the scope of services provided by private operators. These potential cost savings initiatives could have a material adverse impact on our current operations and/or our ability to pursue new business opportunities. Additionally, if state budgetary constraints, as discussed above, persist or intensify, our state customers’ ability to pay us may be impaired and/or we may be forced to renegotiate our management contracts on less favorable terms and our financial condition, results of operations or cash flows could be materially adversely impacted. We plan to actively bid on any new projects that fit our target profile for profitability and operational risk. Although we are pleased with the overall industry outlook, positive trends in the industry may be offset by several factors, including budgetary constraints, contract modifications, contract terminations, contract non-renewals, and/or contract re-bids and the impact of any other potential changes to the willingness to maintain or grow public-private partnerships on the part of other government agencies. We believe we have a strong relationship with our government partners and we believe that we operate facilities that maximize security and efficiency while offering our suite of GEO Continuum of Care services and resources. During the second quarter of 2017, we experienced lower utilization rates across U.S. Immigration and Customs Enforcement (“ICE”) facilities compared to the same period last year. During the first half of 2017, Southwest border crossings and apprehensions have declined compared to the first half of 2016 according to data from U.S. Customs and Border Protection. Policy changes implemented at the federal level have resulted in increased border enforcement and are expected to result in increased enforcement in the interior of the country over time. During the third and fourth quarters of 2017, we expect utilization rates across ICE facilities to begin to increase sequentially from the second quarter 2017 but to be below previously projected levels.

Although we have historically had a relatively high contract renewal rate, there can be no assurance that we will be able to renew our expiring management contracts on favorable terms, or at all. Also, while we are pleased with our track record in re-bid situations, we cannot assure that we will prevail in any such future situations.

Internationally, we are exploring a number of opportunities in our current markets and will continue to actively bid on any opportunities that fit our target profile for profitability and operational risk. In September 2014, we announced that a consortium led by us and comprised of The GEO Group Australia Pty. Ltd., John Holland Construction and Honeywell signed a contract with the Department of Justice in the State of Victoria for the development and operation of a 1,300-bed capacity prison in Ravenhall, Australia. The Ravenhall facility will be developed under a public-private partnership financing structure with a capital contribution from us, which was made in January 2017, of approximately AUD 115 million, or \$88.4 million, based on exchange rates as of June 30, 2017, and we anticipate returns on investment consistent with our company-owned facilities.

Table of Contents

With respect to our reentry services, electronic monitoring services, and youth services business conducted through our GEO Care business segment, we are currently pursuing a number of business development opportunities. Relative to opportunities for community-based reentry services, we are working with our existing federal, state, and local correctional clients to leverage new opportunities for both residential reentry facilities as well as non-residential day reporting centers. We continue to expend resources on informing federal, state and local governments about the benefits of public-private partnerships, and we anticipate that there will be new opportunities in the future as those efforts continue to yield results. We believe we are well positioned to capitalize on any suitable opportunities that become available in this area.

Operating Expenses

Operating expenses consist of those expenses incurred in the operation and management of our contracts to provide services to our governmental clients. Labor and related costs represented 52.9% of our operating expenses during the six months ended June 30, 2017. Additional significant operating expenses include food, utilities and inmate medical costs. During the six months ended June 30, 2017, operating expenses totaled 75.7% of our consolidated revenues. Our operating expenses as a percentage of revenues in 2017 will be impacted by the opening of any new or existing idle facilities as a result of the cost of transitioning and/or start-up operations related to a facility opening. During 2017, we will incur carrying costs for facilities that are currently vacant. As of June 30, 2017, our worldwide operations include the management and/or ownership of approximately 100,000 beds at 143 correctional and detention facilities, including idle facilities, projects under development and recently awarded contracts, and also include the provision of community supervision services for more than 185,000 offenders and pretrial defendants, including approximately 100,000 individuals through an array of technology products including radio frequency, GPS, and alcohol monitoring devices.

General and Administrative Expenses

General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. During the six months ended June 30, 2017, general and administrative expenses totaled 8.4% of our consolidated revenues. We expect general and administrative expenses as a percentage of revenues in 2017 to remain consistent or decrease as a result of cost savings initiatives. We expect business development costs to remain consistent or increase slightly as we pursue additional business development opportunities in all of our business lines. We also plan to continue expending resources from time to time on the evaluation of potential acquisition targets.

Idle Facilities

As of June 30, 2017, we are marketing approximately 6,600 vacant beds at six of our idle facilities to potential customers. The annual carrying cost of our idle facilities in 2017 is estimated to be \$11.7 million, including depreciation expense of \$1.5 million. As of June 30, 2017, these facilities had a net book value of \$164.2 million. We currently do not have any firm commitment or agreement in place to activate these facilities. Historically, some facilities have been idle for multiple years before they received a new contract award. These idle facilities are included in the U.S. Corrections & Detention segment. The per diem rates that we charge our clients often vary by contract across our portfolio. However, if all of these idle facilities were to be activated using our U.S. Corrections & Detention average per diem rate in 2017 (calculated as the U.S. Corrections & Detention revenue divided by the number of U.S. Corrections & Detention mandays) and based on the average occupancy rate in our U.S. Corrections & Detention facilities through June 30, 2017, we would expect to receive incremental annualized revenue of approximately \$140 million and an annualized increase in earnings per share of approximately \$0.20 to \$0.25 per share based on our average U.S. Corrections and Detention operating margin.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

We are exposed to market risks related to changes in interest rates with respect to our Credit Facility. Payments under the Credit Facility are indexed to a variable interest rate. Based on borrowings outstanding under the Credit Facility of \$992.2 million and \$64.0 million in outstanding letters of credit, as of June 30, 2017, for every one percent increase in the average interest rate applicable to the Credit Facility, our total annual interest expense would increase by \$10.0 million.

We have entered into certain interest rate swap arrangements for hedging purposes, fixing the interest rates on our Australian non-recourse debt related to our Ravenhall Project to 3.3% during the design and construction phase and 4.2% during the operating phase. The difference between the floating rate and the swap rate on these instruments is recognized in interest expense within the respective entity. Because the interest rates with respect to these instruments are fixed, a hypothetical one percent change in the current interest rate would not have a material impact on our financial condition or results of operations.

Additionally, we invest our cash in a variety of short-term financial instruments to provide a return. These instruments generally consist of highly liquid investments with original maturities at the date of purchase of three months or less. While these instruments are subject to interest rate risk, a hypothetical 100 basis point increase or decrease in market interest rates would not have a material impact on our financial condition or results of operations.

Foreign Currency Exchange Rate Risk

We are also exposed to market risks related to fluctuations in foreign currency exchange rates between the U.S. dollar, and the Australian dollar, the South African Rand and the British Pound currency exchange rates. Based upon our foreign currency exchange rate exposure at June 30, 2017, every 10 percent change in historical currency rates would have approximately a \$2.7 million effect on our financial position and approximately a \$0.9 million impact on our results of operations during the six months ended June 30, 2017.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures.

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, referred to as the Exchange Act), as of the end of the period covered by this report. On the basis of this review, our management, including our Chief Executive Officer and our Chief Financial Officer, has concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective to give reasonable assurance that the information required to be disclosed in our reports filed with the SEC, under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and to ensure that the information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

It should be noted that the effectiveness of our system of disclosure controls and procedures is subject to certain limitations inherent in any system of disclosure controls and procedures, including the exercise of judgment in designing, implementing and evaluating the controls and procedures, the assumptions used in identifying the likelihood of future events, and the inability to eliminate misconduct completely. Accordingly, there can be no assurance that our disclosure controls and procedures will detect all errors or fraud. As a result, by its nature, our system of disclosure controls and procedures can provide only reasonable assurance regarding management's control objectives.

Changes in Internal Control Over Financial Reporting.

Our management is responsible to report any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management believes that there have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

CERTIFICATION OF CHIEF FINANCIAL OFFICER

I, Brian R. Evans, certify that:

1. I have reviewed this quarterly report on Form 10-Q of The GEO Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
