THE GEO GROUP PUBLISHES FIRST-EVER HUMAN RIGHTS AND ESG REPORT

Boca Raton, Fla. – September 26, 2019 — The GEO Group, Inc. (NYSE: GEO) (“GEO”) published today the company’s first-ever Human Rights and Environmental, Social & Governance (ESG) report.

The report builds on GEO’s Global Human Rights Policy, adopted in 2013, by providing disclosures on how GEO informs its employees of the company’s long-standing commitment to respecting human rights; the criteria GEO uses to assess human rights performance; and GEO’s contract compliance program, remedies to shortcomings in human rights performance, and independent verification of the company’s performance by third party organizations.

The 77-page publication also addresses criteria, based on recognized ESG reporting standards, related to the development of GEO’s employees; the company’s efforts to advance environmental sustainability in the construction and operation of its facilities; and GEO’s adherence to ethical governance practices.

In its first ESG report, GEO further highlights the continued expansion of the GEO Continuum of Care (CoC) program, which was first piloted by the company in 2015. This industry-leading program received the ‘Innovation in Corrections’ award from the American Correctional Association in 2018.

The CoC program integrates enhanced offender rehabilitation, including cognitive behavioral treatment, with post-release support services to address basic community needs of released individuals, including housing, transportation, food, clothing, and job placement assistance. As of 2019, the CoC program has been implemented at 18 state correctional facilities and two federal facilities managed by GEO. By the end of 2020, GEO expects to have implemented the CoC program at 23 GEO-managed facilities.

- Averaged approximately 13,000 daily participants in academic programs
- Awarded 2,779 GEDs and high school equivalency degrees
